

MINUTES

Commissioner's Task Force on ESSER II and EANS Distribution of Money Friday, March 5th, 2021

CALL TO ORDER

(00:06:05)

Chair Jim Porter called the weekly meeting of the Commissioner's Task Force to order at 3:00p.m. on Friday, March 5th, 2021. The meeting was conducted via video conference and was live streamed for the public to observe and listen.

ATTENDANCE:

(00:06:20)

All Task Force members attended by video conference:

Jim Porter	Dr. Frank Harwood
Janet Waugh	Roberta Lewis
Brenda Dietrich	Tracy Callard
Pat Pettey	Jason Winbolt
Adam Thomas	Brad Bergsma
Simeon Russell	Janet Eaton
Lisa Peters	Dr. Nick Compagnone
Dr. Mike Argabright	Adam Proffitt
Jamie Rumford	Melissa Rooker
Dr. Alicia Thompson	

APPROVAL OF AGENDA

MOTION
(00:06:56)

Mike Argabright made a motion to approve the agenda for the March 5th meeting, and Jamie Rumford had seconded it. Motion carried (19-0).

APPROVAL OF FEBRUARY 26TH MEETING MINUTES

MOTION
(00:07:47)

Jason Winbolt made a motion to approve the meeting minutes from Feb. 26th, 2021, and Bert Lewis seconded the motion. Motion carried (19-0).

COMMISSIONER WATSON – Recap of EANS Law and Authorized Uses of Funds

(00:08:17)

Commissioner Watson started the meeting off by thanking the participants again for their willingness to volunteer their time for the Commissioner's Task Force.

He mentioned to Task Force members that today's meeting will be a heavy meeting; and it will be focused towards the EANS fund application, and process.

Commissioner Watson also mentioned to Task Force members that the senate is hearing ESSER III and what may become EANS II (it may be released around midnight; but they will not be going over this item today).

(00:10:13)

The list of approved expenditures for the Emergency Assistance for Non-Public Schools (EANS) is a federal list and is subject to state requirements; the Task Force will not have any authority or ability to change the list. Commissioner Watson then walked through the thirteen approved expenditures for the EANS funds.

(00:12:20)

COMMISSIONER WATSON – EANS Application Launch Process and Timeline

(00:15:28)

Commissioner Watson emphasized that each time there is another form of funds being distributed, there will be slightly different rules attached to it.

Within 30-days from the time a private school submits their application, the private school will have to receive notification whether their application has been approved or denied.

The average expected award for each private school is \$150,000 to \$300,000 per school, but this is an estimate as we will not know the number of schools that will apply, and what needs will be requested. Commissioner Watson then stated that the Task Force will try to look at an assessment of requests to prioritize allocation of EANS funds across schools.

Commissioner Watson had then discussed the tight deadline for EANS Funds –

(00:22:43)

03/08 – EANS Draft Application Pre-Launch

03/15 – EANS Application Launch – Available for submission

03/26 – EANS submission deadline

04/02 – EANS Review – Task Force reviews initial batch of EANS apps

04/09 – Task Force determines EANS approval recommendations

04/13 and 04/14 – Board of Education approves EANS applications

04/15 – Decisions communicated to schools

Applications will be reviewed and approved in a batch process, that way everyone has the same access to the funds if all of the funds are requested. The week of March 8th through the 12th is crucial for private schools, as there will be webinars available, as well as the draft application will be available for private schools to review.

Tate Toedman (KSDE) mentioned that the 30-day time clock will begin from when we've received the funds; which was received on Feb. 26th, the application has to be accessible to private schools within the 30 days.

CONTINUED - COMMISSIONER WATSON – EANS Application Launch Process and Timeline

00:15:27

The next 30-day window will be from when we received an application; so, when the application has been received, a decision has to be made on it within 30 days. Tate also mentioned that the webinar for private schools will be Wednesday or Thursday of next week (notification will be sent out a minimum of 24 to 48 hours in advance). He also mentioned that private schools will not be able to apply for both EANS funds, and PPP, as that is how the law is written. Tate plans to look further into the law for clarification. Next, Commissioner Watson discussed how the EANS Launch Plan was designed to maximize school awareness and comfort with the application such as:

- Weekly KSDE communications: to non-public school email list with updated information.
- Task Force meetings live-streamed: and non-public school leaders will be encouraged to watch.
- Feedback on draft application: being solicited from selected non-public school leaders as well as the Commissioner's Task Force.
- Webinar: being scheduled for the week of March 8th to walk through application in Kansas CommonApp; will be recorded and posted online for those who cannot attend.
- Office hours: being scheduled for the week of March 15th to address questions; will be recorded and posted online for those who cannot attend.
- Frequently asked questions: will be posted online and updated frequently.

COMMISSIONER WATSON – EANS APPLICATION OVERVIEW

(00:36:58)

Commissioner Watson mentioned that the Task Force will focus on three key points when reviewing the EANS applications. The three key points include ensuring compliance, inform application decisions, and lastly, support future reporting.

Tate Toedman had then taken over the presentation, and the first item he mentioned was that a new email account was created for EANS questions, and the email address is eans@ksde.org.

He then mentioned that in the excel sheet private schools will see six tabs, and the tabs will include:

1. Introduction/Instructions
2. Products and Services
3. Full-time personnel
4. Part-time personnel
5. Other
6. Reimbursement

Tate emphasized that there will be a menu/catalog created for the service centers; and the

CONTINUED - COMMISSIONER WATSON – EANS APPLICATION OVERVIEW

(00:53:37)

catalog will include services being provided such as masks, webinars, virtual coaching, etc. The catalog was created to help simplify the application process for private schools. Tate also mentioned that the items listed in the catalog can be seen as approvable under the right circumstances; when the private school completes the application, they will need to explain the impact of COVID-19, and why this would be an appropriate expense for their building. He mentioned that the current draft of the service center catalog includes 300 products, and 60 services; which will be included in the pre-populated option on the application. Tate then went through a list of items the private schools should and shouldn't do.

(00:55:46)

He also mentioned that the Task Force will have access to all submitted and reviewed applications including a consolidated view; which will consist of a list of each school, total number of students, the percentage of low-income students, the amount of funds they have requested, and what amount of funds were recommended.

Tate mentioned that the funds will not go directly to the private schools, as they will be given to the service centers, and the service center will draw down the funds as needed. The service centers will be required to update the Kansas State Dept. of Education frequently regarding the funds they are requesting to draw down.

A summary report of applications, requests, and recommendations for all schools will also be provided to the Task Force members.

COMMISSIONER WATSON - EANS Application Review Process

(01:15:33)

Commissioner Watson went through the EANS application process, which will look like the following (steps 4 and 5 will relate directly to the Task Force):

1. EANS Application submitted to KSDE
2. Initial screening
3. Application Review
4. Summary Reporting
5. Allocation of resources

The approach to EANS applications must take several key considerations into account such as the number of applications, total eligible requests, differentiated needs across schools, etc. Commissioner Watson then proposed how internally the EANS applications will be prioritized; which will be the following (in order):

1. Determination of request eligibility
2. Prioritized distribution
3. Remaining distribution

Commissioner Watson stated that the layout for next week's meeting (March 12th) will be the same as today's meeting, but the focus will be on ESSER II funds.

He then explained the proposed timeline for the ESSER II funds application, which is the following:

03/11 – ESSER/Common App Webinar

03/12 – Task Force aligns on ESSER app and review process

03/17 – ESSER application; available for submission

03/24 – ESSER Office Hours

*After 03/17, ESSER applications will then be reviewed on a rolling basis and approved in monthly Kansas State Board of Education meetings.

Commissioner Watson mentioned that the ESSER II applications will be screened as they are received, and the reason behind this is because the district already has the allocation for the money. The applications will be provided to Task Force members on Wednesdays as pre-read material.

He then discussed the review process for the ESSER applications which is shown below:

1. ESSER Application submitted to KSDE
2. Initial screening
3. Application review
4. Individual request determination
5. Recommendation

Chairman Porter emphasized that although our previous meetings have been ahead of schedule, the next few meetings may not be.

(01:32:59)

Brad Neuenswander mentioned that service centers were chosen to provide services to the private schools as they have continuously provided services to the private schools, and they have the staff available.

Jason Winbolt asked if someone on the Task Force is associated with a school district who submits an application for the funds, will they have to recuse themselves due to conflict of interest. Chairman Porter then responded that it would be a personal choice to remove themselves, but that is how he would approach the situation.

ADJOURNMENT

Chairman Porter adjourned the meeting at 4:33pm. The next meeting will occur on Friday, March 12th at 3:00pm.

Commissioner's K-12 Relief Funds Task Force

KANSAS
STATE DEPARTMENT OF
EDUCATION
www.ksde.org | #KansansCan

Task Force Meeting
March 12, 2021

Kansas leads the world in the success of each student.

3/12 Task Force agenda

3:00 to 3:05pm	Call to Order
3:05 to 3:15pm	Status Update on EANS Process
3:15 to 3:35pm	ESSER Overview
3:35 to 3:55pm	ESSER Application Launch Process and Timeline
3:55 to 4:40pm	ESSER Application Questions and Review Process
4:40 to 5:00pm	ESSER III and EANS II update

Status Update on EANS Process

**EANS status
update:
launch
progressing
as expected;
dates
shifted to
help schools
prepare**

Application has been completed in preparation for upcoming launch

- Service center "menu" and pricing built out
- Platform identified (Kansas CommonApp)
- Application questions and excel template developed

Pre-launch activities are underway to help schools prepare

- Webinar on 3/11 for non-public schools; recorded to be posted online
- School FAQ in development, including examples for each allowable use
- Application materials inc. budget template available online for preview

Launch timeline shifted to provide schools more time to prepare applications

- Application due date shifted 1 week from 3/26 to 4/2
- KSBOE will have special meeting on 4/19 to approve applications
- Application launch date now 3/22 in line with federal 30-day limit
- Application materials inc. budget template already available for schools to prepare in advance of official application launch

EANS timeline: final recommendation at 4/19 KSBOE

Note changes in EANS timeline to give schools more prep time

EANS activities

Key activities and milestones		
Mar 1-5	KSDE develops application and proposed screening/review process; gathers early application input from non-public school stakeholders; schedules webinars	3/5: Task Force aligns on EANS app and review process
Mar 8-12	3/8: EANS Pre-Launch - Draft EANS application available to schools	★ EANS/CommonApp webinar
Mar 15-19		★ 3/17: EANS Office Hours
Mar 22-26	3/22: Official EANS Launch - EANS application available for submission	
Mar 29-Apr 2	KSDE conducts additional school reach out to ensure on-time submission	4/2: Updated EANS app submission deadline
Apr 4-9	KSDE screens applications and prepares summary outputs for Task Force review	4/9: EANS Review: Task Force reviews initial batch of EANS apps
Apr 12-16	KSDE screens applications and prepares summary outputs for Task Force review	4/16: Task Force determines EANS approval: recs
Apr 19-25	April 19: BoE approves Task Force-reviewed applications at special meeting → 4/20: Decisions communicated to schools

ESSER Overview

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

6

ESSER funds intended to support LEAs in addressing the impact of COVID-19

Elementary & Secondary School Emergency Relief Fund (ESSER)			
Description	Awarded to SEAs based on Title I formula to provide emergency relief funds to LEAs to address the impact that COVID-19 has had, and continues to have, on elementary and secondary schools across the Nation		
Intended Use	Used by LEAs for preventing, preparing for, and responding to COVID-19		
Bill	ESSER I	ESSER II <i>Focus of this Task Force</i>	
	CARES Act (Mar '20)	CRRSA Act (Dec '20)	ARP Act (Mar '21)
KS Amount	\$85M	\$370M	TBD¹
Timeframe	• Usable from Mar '20 • Award by Jun '21 • Obligate by Sep '22	• Usable from Mar '20 • Award by Jan '22 • Obligate by Sep '23	• Usable from Mar '20 • Award within 60 days • Obligate by Sep '24

¹ Official state allocation still pending; total ESSER III amount of \$123B is ~2.25x the ESSER II amount of \$54B

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

7

Authorized uses for ESSER II funds (I/III)

A local educational agency that receives funds under this title may use the funds for any of the following:

- **Any activity authorized by the ESEA of 1965**, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act (20 U.S.C. 6301 et seq.), the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) ("IDEA"), the Adult Education and Family Literacy Act (20 U.S.C. 1400 et seq.), the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 et seq.) ("the Perkins Act"), or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq.).
- **Coordination of preparedness and response efforts** of local educational agencies with State, local, Tribal, and territorial public health departments, and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to coronavirus.
- Providing principals and others school leaders with the **resources necessary to address the needs of their individual schools**.
- **Activities to address the unique needs** of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, **including how outreach and service delivery will meet the needs of each population**.
- Developing and implementing **procedures and systems to improve the preparedness and response efforts** of local educational agencies.

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

8

Authorized uses for ESSER II funds (II/III)

A local educational agency that receives funds under this title may use the funds for any of the following:

- **Training and professional development for staff** of the local educational agency on sanitation and minimizing the spread of infectious diseases.
- **Purchasing supplies to sanitize and clean the facilities** of a local educational agency, including buildings operated by such agency.
- **Planning for, coordinating, and implementing activities during long-term closures**, including providing meals to eligible students, providing technology for online learning to all students, providing guidance for carrying out requirements under the IDEA and ensuring other educational services can continue to be provided consistent with all Federal, State, and local requirements.
- **Purchasing educational technology** (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and children with disabilities, which may include assistive technology or adaptive equipment.
- **Providing mental health services and supports.**
- **Planning and implementing activities related to summer learning and supplemental after school programs**, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

Authorized uses for ESSER II funds (III/III)

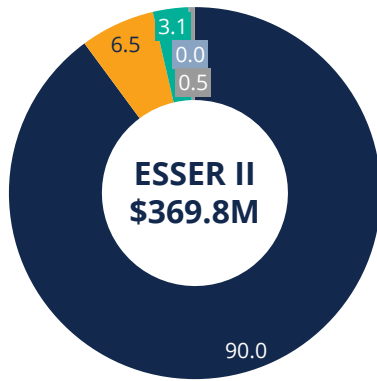

A local educational agency that receives funds under this title may use the funds for any of the following:

- **Addressing learning loss among students**, including low-income students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and children and youth in foster care, of the local educational agency, including by—
 - Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction.
 - Implementing evidence-based activities to meet the comprehensive needs of students.
 - Providing information and assistance to parents and families on how they can effectively support students, including in a distance learning environment.
 - Tracking student attendance and improving student engagement in distance education.
- **School facility repairs and improvements to enable operation of schools** to reduce risk of virus transmission and exposure to environmental health hazards, and to support student health needs.
- Inspection, testing, maintenance, repair, replacement, and upgrade **projects to improve the indoor air quality in school facilities**, including mechanical and nonmechanical heating, ventilation, and air conditioning systems, filtering, purification and other air cleaning, fans, control systems, and window and door repair and replacement.
- **Other activities that are necessary to maintain the operation of and continuity of services** in local educational agencies and continuing to employ existing staff of the local educational agency.

ESSER II has multiple components; \$370M in total allocated to Kansas

Multiple funding streams (where applicable) included in single consolidated application for each LEA (286 in total)

Federally mandated

Minimum LEA distribution
Allocated through Title I formula

\$332.8M ☆

KSDE discretionary (9.5%)

LEA "True up"

Ensures all districts receive at least \$300 per student

\$11.5M ☆

Special Education

Additional set-aside for LEAs split across 2021-22 and 2022-23

\$24M ☆

Schools for the Deaf & Blind

Set-aside as schools do not receive funds through LEA distributions

\$0.2M

KSDE Administration (0.5%)

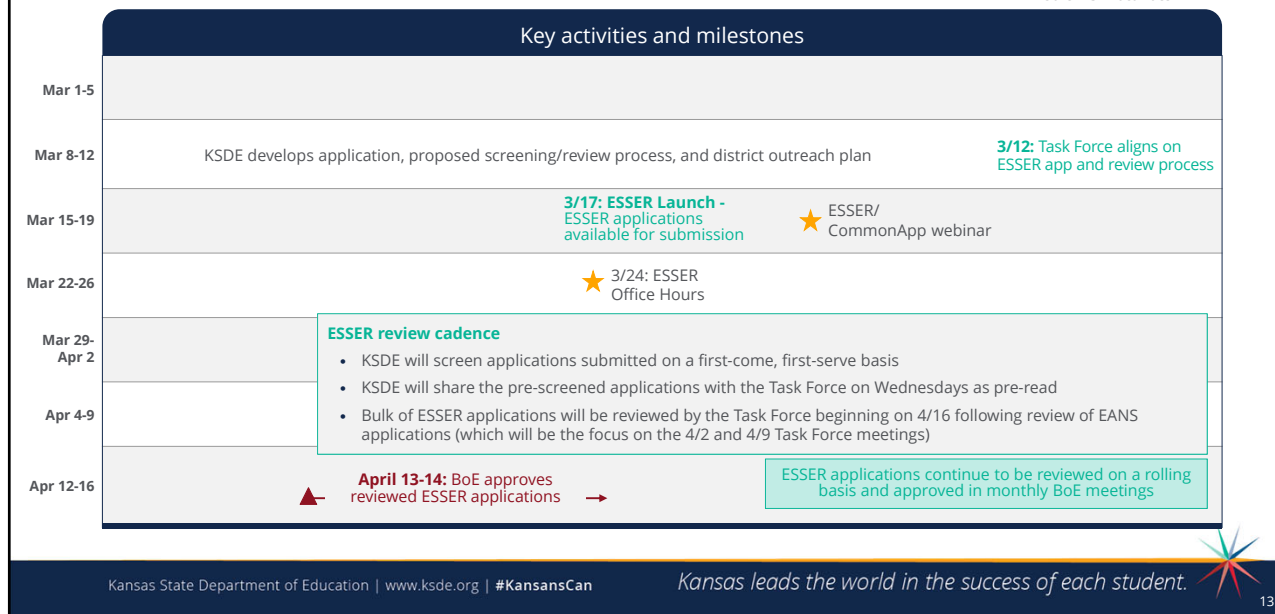

SEA Administration

\$1.8M

ESSER Application Launch Process and Timeline

ESSER timeline: apps reviewed on rolling basis

- ESSER school-facing activities
- ★ KSDE webinars
- Other KSDE activities

ESSER launch plan designed to maximize LEA comfort with application

- ✉ **Weekly KSDE communications** to LEAs with updated information
- ▶ **Task Force meetings live-streamed** and LEA leaders will be encouraged to watch

- 💻 **Webinar** being scheduled for week of 3/15 to walk through application in Kansas CommonApp; will be recorded and posted online for those who cannot attend
- 💬 **Office hours** being scheduled for week of 3/22 to address questions; will be recorded and posted online for those who cannot attend
- ❓ **Frequently asked questions** will be posted online and updated regularly

ESSER Application Questions and Review Process

Guiding principles

The ESSER II application should enable the Task Force to...

Understand **the impact of COVID-19** on the district and its students and the resulting needs to be addressed

Understand where **prior federal COVID-19 funding** for public K-12 education went and what it accomplished

Evaluate the **district's plan to use ESSER II** to address COVID-19 needs and measure impact

Begin to gather data on **ESSER expenditures on a regular basis** in a way that captures the **level of detail required** for federal reporting and state oversight while **minimizing district burden** where possible

Oversight must ensure that uses of funds are necessary, allowable, and reasonable

Necessary

- Expenditures address a demonstrated, incremental **COVID-19 need**
- Funds are applied in a **non-duplicative manner** compared to other federal COVID-19 funding

Allowable

- Proposed uses of funds fall within **at least one of the 15 ESSER II allowable uses**

Reasonable

- The district's plan for ESSER II funds is **sensical given district context** (e.g., number of students, areas of demonstrated need)

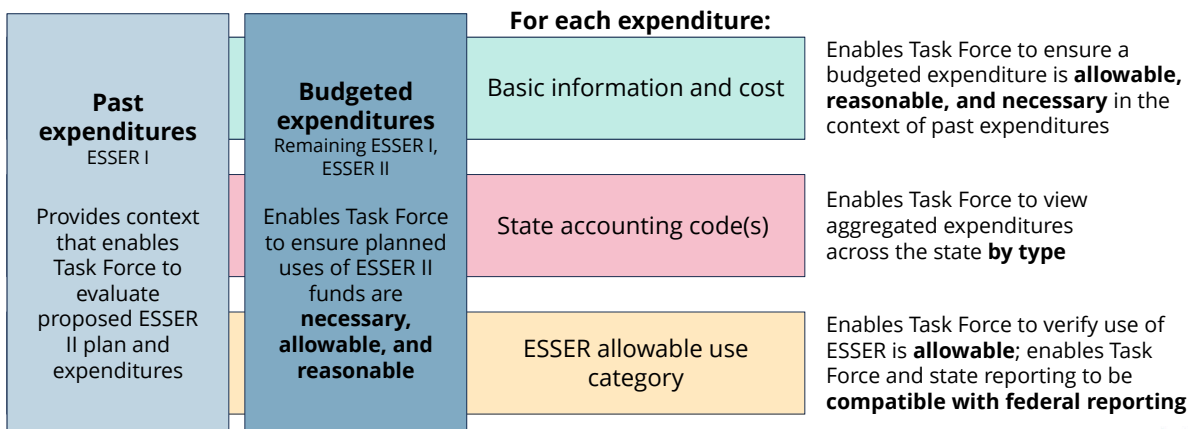

ESSER II application aims to gather information critical to ensuring use of funds are necessary, allowable, and reasonable

Application Components

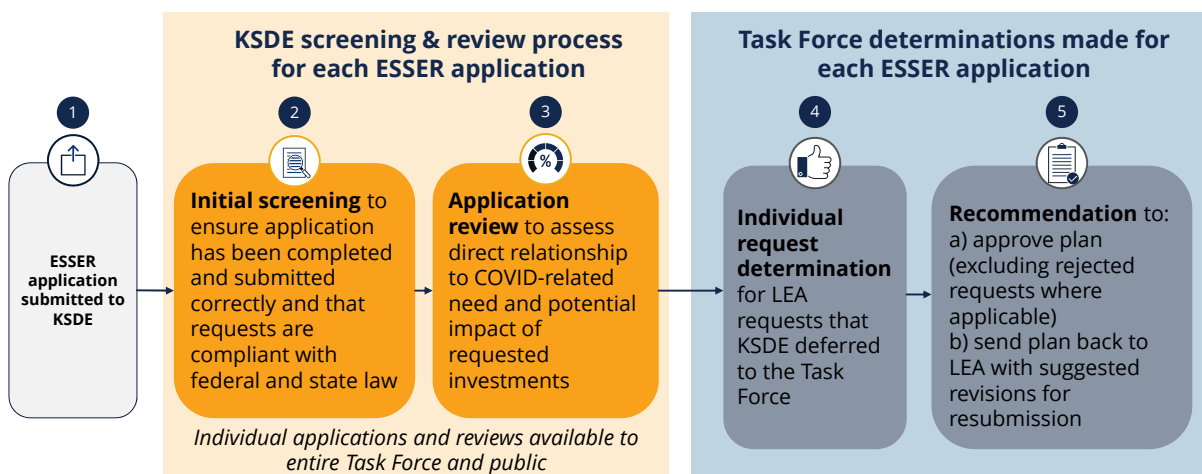

Key Topics Covered

A Basic District Information 5 questions	• District name, number, mailing address, authorized representative
B COVID-19 Impact and Previous Funding 2 free response	• Impact of COVID-19 on the district and students • Use of prior federal COVID-19 funding (CRF SPARK funds, ESSER I)
C Plan for Use of ESSER II Funds 2 free response + Excel	• Summary of district plan to spend ESSER II across allowable uses to address COVID-19 needs • District approach to determining the impact of ESSER II on students • Excel: Districts will provide line-item expenditures by funding stream and tag with ESSER II allowable uses (<i>see next page</i>)
D Assurances	• Statements requiring signatures

ESSER II application requires expenditure-level data to enable the Task Force to make informed decisions

ESSER applications to be reviewed by both KSDE and Task Force

ESSER III & EANS II update

ESSER III signed into law this week; overall similar to ESSER II with some key differences

	ESSER II	ESSER III
Kansas Allocation	\$370M	TBD¹
Awarded by	9/30/23	9/30/24
LEA set-asides	90% to LEAs: any allowable uses	90% to LEAs: 20% must be used for learning loss
Allowable uses	15 allowable use categories	Allowable use categories almost identical to ESSER II
SEA set-asides	9.5% to SEAs at their discretion; max 0.5% for administration	5% learning loss; 1% afterschool; 1% summer enrichment; 2.5% at SEA discretion; max 0.5% for administration
Reopening plans	N/A	LEA must publish reopening plan if it hasn't already, including public comment period

¹ Official state allocation still pending; total ESSER III amount of \$123B is ~2.25x the ESSER II amount of \$54B

EANS II also similar to EANS I, with similar amount; no reimbursements allowed

	EANS I	EANS II
Kansas Allocation	\$26.7M	TBD ¹
Awarded by	9/30/23	9/30/24
Prioritization	Low income & COVID need	Low income & COVID need
Reimbursement	Reimbursement allowed for some categories	No reimbursements allowed
Deadlines	30 days to launch app 30 days to respond to apps	<i>Receipt of funds date TBD</i> 30 days to launch app 30 days to respond to apps

¹ Official state allocation still pending; total EANS II amount of \$2.75B equivalent to total amount for EANS I

Kansas leads the world in the success of each student.

ESSER II
represents the
3rd source of
federal relief
funding for
Kansas LEAs

CRF

Portion of \$1B Coronavirus Relief Fund from federal CARES Act (03/20) to support states, **allocated by the Governor to counties** to support K-12 education

\$80M

ESSER I

Part of federal CARES Act (03/20) to support K-12, **allocated to State Education Agencies (SEAs)** to distribute to Local Education Agencies (LEAs)

\$85M

ESSER II

Part of federal CRRSA Act (12/20) to support K-12, **allocated to State Education Agencies (SEAs)** to distribute to Local Education Agencies (LEAs)

\$370M

ESSER III

Part of federal ARP Act (03/21) to support K-12, **allocated to State Education Agencies (SEAs)** to distribute to Local Education Agencies (LEAs)

TBD¹

¹ Official state allocation still pending; total ESSER III amount of \$123B is ~2.25x the ESSER II amount of \$54B

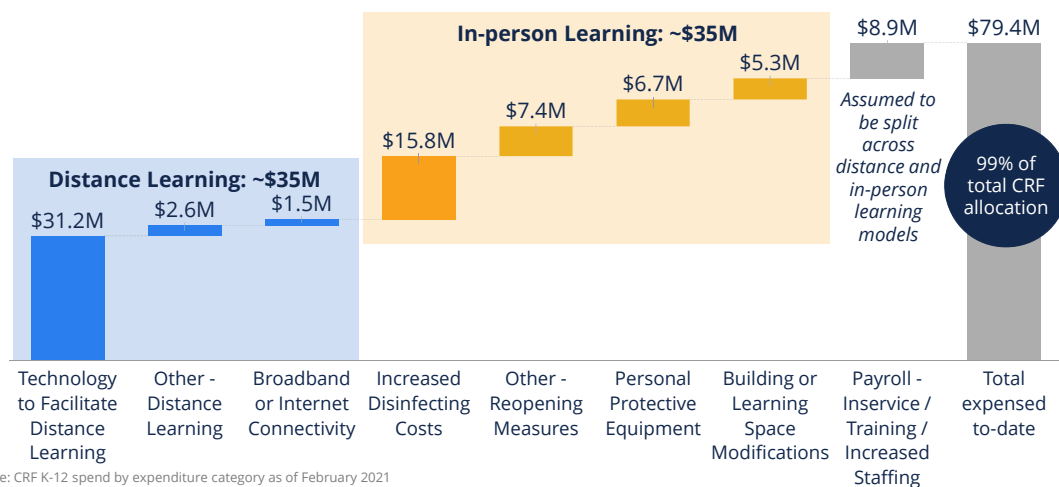

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

26

Prior funding: K-12 CRF almost entirely spent; focused on both distance and in-person relief efforts

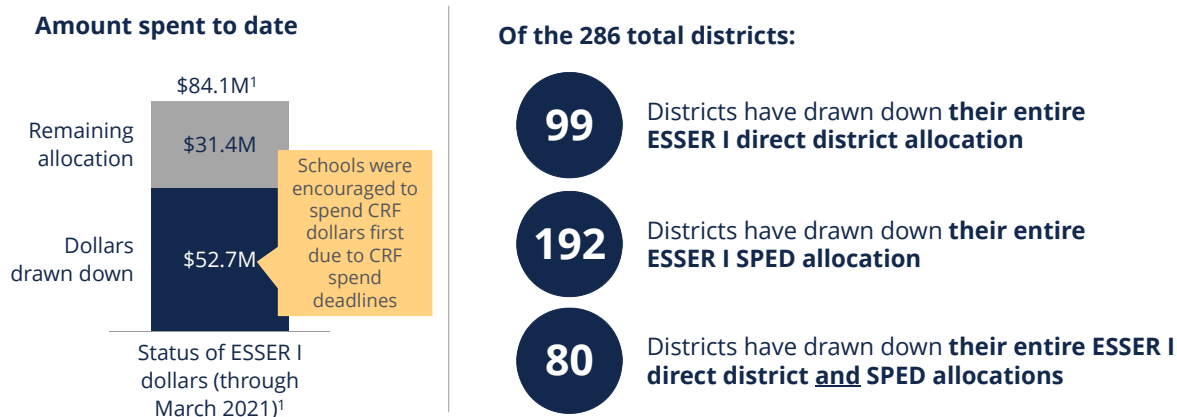

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

27

Prior funding: ESSER I spend providing much-needed relief; many districts have used all ESSER I allocations

1. Includes ESSER I direct district allocations and ESSER I SPED allocations from KSDE; does not include KSDE dollars set aside for grant administration

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

28

Appendix: maintenance of effort/equity

www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

ESSER III continues the maintenance of effort provisions from ESSER I and II...

Maintenance of Effort (ESSER I)

A State must maintain support for elementary and secondary education in each of **FY20 and FY21** at least at the **level** of the State's support that is the average of the support for elementary and secondary education provided in **FY17, FY18, and FY19**

Maintenance of Effort (ESSER II)

A State must maintain support for elementary and secondary education in **FY22** based on the **proportional share** of the State's support for elementary and secondary education relative to the state's overall spending averaged over **FY17, FY18, and FY19**

Maintenance of Effort (ESSER III)

A State must maintain support for elementary and secondary education in each of **FY22 and FY23** based on the **proportional share** of the State's support for elementary and secondary education relative to the state's overall spending averaged over **FY17, FY18, and FY19**

Kansas State Department of Education | www.ksde.org | #KansansCan

Kansas leads the world in the success of each student.

30

...and introduces additional maintenance of equity provisions for both the SEA and LEAs

Maintenance of Equity (SEA)

- States **cannot cut per-pupil spending for “high-need” LEAs** (group of LEAs that serve the highest percentages of low-income, which collectively serve at least 50% of state’s total student enrollment) in FY22 or FY23 **at a rate steeper than overall cuts in per-pupil spending** across all local education agencies.
- States **cannot fund “highest poverty” LEAs** (group of LEAs that serve highest percentages of low-income students which collectively serve at least 20% of state’s total student enrollment) in FY22 and FY23 **below their FY 2019 funding**.

Maintenance of Equity (LEA)

- LEAs **cannot cut per-pupil spending** in FY 22 and FY23 **for any high-poverty school at a rate steeper than overall cuts** in per-pupil spending across all schools served by the LEA.
- LEAs **cannot reduce per-pupil staffing** in FY22 and FY23 **for any high-poverty school at a rate steeper than overall cuts** in per-pupil staffing across all schools served by the LEA.
- The **provision does not apply** if an LEA serves **<1,000 students** or operates a **single school** or **serves all students in single grade span in one school** or is granted **waiver** by secretary of education due to exceptional circumstances.

P208	Improving ventilation systems, including portable air purification systems	Greenbush	HVAC Hygiene Assessment		HVAC hygiene assessments are performed by Certified IAQ Professional (CIAQP) Industrial Hygienists. Once all the data compiled and analyzed a detailed report is provided. The report outlines the conditions of the building and can make remedial recommendations should above baseline IAQ issues be found. Services can be customized by adding or omitting assays or field protocols depending on the scope of the investigation. There are also options for Infrared Thermography, Mold and Bacteria characterization and speciation, as well as 24 hour turnaround time. Contact Regina Martino, rmartino@tremcoinc.com	Tremco/W TI	Hourly rate	\$160.20 per hour for CIAQP hygienist; \$147.60 per hour for building scientist	\$0.00	Varies

					comfort during extended use. This Logitech USB headset is quick to install with a simple plug-and-play USB cable connection and no software installations required. Use this headset with a PC or Mac computer system. This headset features inline controls to volume, microphone mute and call answer and call end for quick answering and control of phone calls. True wideband audio gives people at both ends of the call a lifelike listening experience. Further establish a high-quality call connection by rotating and bending the microphone boom to find the optimal position for picking up the speaker's voice. Sound protection aids listening quality and comfort by safeguarding ears from sounds above 115 dBA. Work in comfort all day with the Logitech H570e on ear headset.

15 Authorized Uses for ESSER II Funds

AUTHORIZED USES FOR ESSER II FUNDS	EXAMPLES
1. Any activity authorized by the ESEA of 1965, including the Native Hawaiian Education Act and the Alaska Native Educational Equity, Support, and Assistance Act (20 U.S.C. 6301 et seq.), the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.) ("IDEA"), the Adult Education and Family Literacy Act (20 U.S.C. 1400 et seq.), the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 et seq.) ("the Perkins Act"), or subtitle B of title VII of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11431 et seq.)	• Expand Title 1 Program for learning loss. • Add staff to lower class sizes for COVID-related safety. (Cohorting, increasing physical space, etc.) • Create additional family engagement activities – surveys, etc. to provide feedback for program development. (Making connections outside of school hours.) • Establish a safe in-person environment for a limited number of students most in need of in-person support, even while most of the district may be remote. • Provide personal protective equipment and other resources to safely, send teachers to work with students in the home, when appropriate.
2. Coordination of preparedness and response efforts of local educational agencies with State, local, Tribal, and territorial public health departments, and other relevant agencies, to improve coordinated responses among such entities to prevent, prepare for, and respond to coronavirus.	• Assign staff to attend coordinating meetings. • Meet regularly with county health officials and emergency management staff. • Share resources and facilities with county health officials and emergency management staff.
3. Providing principals and others school leaders with the resources necessary to address the needs of their individual schools.	• Provide professional development on leading during a pandemic, addressing learning loss, etc. • Provide professional development on addressing mental health for staff and students. • Provide health care training for administrators and school leaders. • Develop remote learning strategies. • Provide training for communicating with parents, staff, and students during remote learning.

AUTHORIZED USES FOR ESSER II FUNDS	EXAMPLES
4. Activities to address the unique needs of low-income children or students, children with disabilities, English learners, racial and ethnic minorities, students experiencing homelessness, and foster care youth, including how outreach and service delivery will meet the needs of each population.	• Locate disengaged students and make sure they have access to education. • Connect families with community resources. • Translate materials for families. • Establish a safe in-person environment for a limited number of students most in need of in-person support, even while most of the district may be remote. Hold classes at different hours of the day to accommodate unusual family schedules. • Provide meals (sack lunches) for students who cannot safely come to school.
5. Developing and implementing procedures and systems to improve the preparedness and response efforts of local educational agencies.	• Pay staff for time outside of their contract to develop and implement necessary procedures in response to a health emergency, i.e. health protocols, mitigation of virus, cohorting procedures.
6. Training and professional development for staff of the local educational agency on sanitation and minimizing the spread of infectious diseases.	• Bring in health departments and other community health professionals to provide professional development on mitigation efforts, training on how to use tools/ technology, etc. • Train all school staff on appropriate sanitation. • Share school staff training with staff from other agencies such as hospitals, nursing homes, businesses, retail stores, etc. • Share school sanitation protocol training with parents.
7. Purchasing supplies to sanitize and clean the facilities of a local educational agency, including buildings operated by such agency.	• Purchase additional supplies or specialty equipment necessary to mitigate the virus within school buildings. • Purchase personal protective equipment; face masks, shields, gowns, gloves, etc.
8. Planning for, coordinating, and implementing activities during long-term closures, including providing meals to eligible students, providing technology for online learning to all students, providing guidance for carrying out requirements under the IDEA and ensuring other educational services can continue to be provided consistent with all Federal, State, and local requirements.	• Provide for the excess costs associated with nutritional services – delivery, additional distribution locations, additional sanitation protocols/equipment. • Provide remote learning sites, internet hotspots, etc. • Provide meals (sack lunches) for students who cannot safely come to school. • Provide training for parents, staff, and students on use of technology. • Provide training for parents, staff, and students on remote learning practices and strategies.

AUTHORIZED USES FOR ESSER II FUNDS	EXAMPLES
9. Purchasing educational technology (including hardware, software, and connectivity) for students who are served by the local educational agency that aids in regular and substantive educational interaction between students and their classroom instructors, including low-income students and children with disabilities, which may include assistive technology or adaptive equipment.	• Purchase additional technology such as tablets, laptops, screen readers etc. for remote teaching and remote learning. • Increase broadband for schools. • Purchase offsite internet security software to protect students and equipment. • Hire IT staff to implement and support additional technology. • Provide mental health services and supports.
10. Providing mental health services and supports.	• Contract with mental health agencies to provide counseling, social services, and access to mental health professionals for staff and students in response to COVID-19. • Provide professional development for counselors and social workers. • Develop and implement early warning systems/screeners to identify staff and student mental health needs. • Work with local mental health professionals to train school staff on mental health issues to watch for in students, staff, and parents; as well as how to respond appropriately.
11. Planning and implementing activities related to summer learning and supplemental after school programs, including providing classroom instruction or online learning during the summer months and addressing the needs of low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.	• Cover additional salaries/expenses for staff, utility bills, etc. associated with summer extended learning. • Cover expenses associated with providing student transportation to summer learning programs. • Cover expenses associated with additional learning materials to address specific needs created by or as a result of the pandemic. • Implement effective and impactful summer learning programs and after-school programs: Team teach, small classes, varied timeframes, curriculum tied to field trips and hands-on activities, multi-age student groupings, cross curricular instruction, etc.
