## SUCCESS DEFINED

A successful Kansas high school graduate has the

- Academic preparation,
- Cognitive preparation,
- Technical skills,
- Employability skills and
- Civic engagement

to be successful in postsecondary education, in the attainment of an industry recognized certification or in the workforce, without the need for remediation.

## OUTCOMES

- Social-emotional growth
- Kindergarten readiness
- Individual Plan of Study
- Civic engagement
- Academically prepared for postsecondary
- High school graduation
- Postsecondary success

# FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

## REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

Dr. Randy Watson  
Kansas Commissioner of  
Education

September 2024 marked the last quarterly reporting period school districts could obligate the use of Federal COVID-19 relief funds for Kansas K-12 schools. This quarterly reporting extended through five school years since the onset of the global pandemic. What began as a global public health emergency in March 2020, continued to impact schools across Kansas and the country. Kansas educators, school administrators, support staff members, parents and students all faced unprecedented challenges. While the affects were still evident in the schools through this reporting period, the 2022-2023 school year, was the first more “typical” since the onset of the pandemic, **the new baseline**. The priority remained, as it has from the beginning - to keep Kansas students engaged in quality learning under extraordinary circumstances while ensuring the safety and well-being of all.

Throughout this entire period, the Kansas State Department of Education (KSDE) has provided guidance to public and private schools to help them navigate the disruption caused by the COVID-19 pandemic. KSDE support has included resource guides, technical assistance, direct financial support for targeted local needs, as well as assurance and oversight to maximize the benefits of the federal aid.

A series of timely resource guides were launched by the Continuous Learning Task Force<sup>1</sup> which was established in response to the global pandemic. The task force comprised of more than 50 volunteer educators and administrators, developed the first guide in only 72 hours to support learning through May 2020.

The promise of multiyear federal relief funds bolstered our resilient teachers and leaders across the state with the recognition that the many impacts of the pandemic would take time, tools and increased capacity to address. KSDE reallocated the majority of the state funds locally to ensure every district received a minimum level of financial relief and to strengthen support for students with disabilities. Thanks to reporting by our public and private schools, KSDE and the Kansas Office of Recovery present the fourteenth report on the utilization of federal COVID-19 crisis response, relief and recovery funds.

Federal relief funding continued to be critical to our schools through the final school year of financial support. Relief funds have served to facilitate learning recovery, following global pandemic disruptions, while staying focused on the Kansas State Board of Education’s ambitious vision of leading the world in the success of each student. We will submit one final report on the use of federal COVID-19 relief funds by K-12 Kansas schools. Despite the difficulties of the pandemic, I continue to believe that together Kansans Can.

Sincerely,

A handwritten signature in black ink, appearing to read 'Randy Watson', with a stylized flourish at the end.

Dr. Randy Watson  
Kansas Commissioner of Education

# FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

## REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

### Executive Summary

#### Spend At A Glance

#### Context of Reporting Period

March 2020-September 2024

#### QUARTERLY REPORTS

This report is the fifteenth in a series of quarterly updates on the cumulative use of federal COVID-19 relief funds by public and private K-12 education systems approved by the Kansas State Board of Education. These reports feature the most informative data available on expenditures by districts and schools, including the final draw down of federal funds once the full oversight process has been completed. Temporary discrepancies could be noted between district expenditures and final draw down, which reflected the time needed to implement federal accounting processes and fiscal oversight.

**Kansas public and private schools first experienced something close to a typical school year in 2022-2023, two and a half years after the onset of the global pandemic.** Educators, students and families had returned to school in the Fall of 2021 with high hopes, only to be sidetracked by two waves of COVID-19 variants that continued to disrupt **Learning Recovery** efforts. Fall of 2022 was approached with a renewed expectation for a greater degree of normalcy associated, in part, with the CDC approval of and access to a COVID-19 vaccine for children aged 6 months and older which became available in June 2022. Over the summers, school districts made use of multiple recovery opportunities for students, staff members and families. Districts offered accelerated learning and credit recovery for students across elementary, middle and high school. KSDE directed their ESSER funds for supplemental professional development LETRS coursework on reading and literacy, in keeping with the science of reading and free to teachers pre-K through third grade aside from district costs for substitute teachers. KSDE ESSER funds were also reallocated to offer the free Sunflower Summer enrichment program for Kansas youth and families across the state.

**KSDE established and refined a series of assurance processes over the course of the first year of the global pandemic to maximize potential benefits and assist public and private schools with the use of federal relief funds.** Federal aid could be drawn down incrementally through September 2024 (see Table 1, p. 13), following the state oversight process. Draw down of federal aid must be preceded by an oversight process that began with locally developed plans, submitted through a common state application and multistep approval process, followed by a state financial audit of the locally incurred expenses (see Table 3, p. 17). Relief funds flowed from three consecutive federal acts, authorized in March 2020, December 2020 and March 2021.

**The federal relief funds eligible for expenditures** were made available to schools incrementally. Public school districts were directed to expend all of their Elementary and Secondary Emergency Education Relief (ESSER) I related funds before tapping into their approved ESSER II award. Similarly, ESSER III funds were not be spent until districts depleted their ESSER II award, nor will private schools expend Emergency Assistance to Nonpublic Schools (EANS) II awards before EANS I funds have been depleted (see Table 1, p. 13).

## EXECUTIVE SUMMARY

The 2019 Coronavirus Relief Fund (CRF), provided directly to districts by the counties, was the **first source of federal relief funding and was completely drawn down (100% expended)** by March 2021 prior to this reporting period. Those expenditures are accounted for in Report 1<sup>1</sup>, and will not be repeated here.

**Public and private schools continued to navigate unprecedented supply chain disruptions, increased staffing demands and staff shortages.** Even while the federal government waived fees for school meals through July 2022, food services departments in districts across the state have been challenged. The combination of unfilled food supply orders, staff shortages and increased student demand has stressed districts' capacity for daily delivery of a hot lunch and breakfast. Shortages of classified staff members, including paraprofessionals, custodians, bus drivers and maintenance personnel, have disrupted services and added duties to existing staff. Pre-existing shortages of teachers and other certified staff members in some parts of the state further stressed capacity to deliver programs and services.

**Summer school opportunities were offered for credit recovery and to accelerate Learning Recovery.** Nearly three-quarters public school districts expended federal funds to offer summer school enrichment and credit recovery over the summers of 2022 and 2023.

## KANSAS EDUCATORS STEPPED UP

**Fifty educators** from across Kansas joined KSDE to develop an instructional **action plan** for the remainder of the 2020 school year within **72 hours** of school buildings being closed in the state and throughout the country. This team grew to **1,000 Kansans** over the summer of 2020 and produced the *Navigating Change Guide* to support learning into the fall of 2020, as the global pandemic raged on.

# TOTAL EXPENDITURES THROUGH SEPTEMBER 2024

Public and private schools made final budget reconciliations of federal relief fund expenditures through the last quarter of the program ending September 2024.

**Summary of Funding and Expenditures.** The last incremental funding sources available were ESSER III and EANS II funds, which districts obligated by Sept. 30, 2024. Funds had to be spent in order of availability, as required. The initial CRF, for example, was completely expended by March 2021. All of the ESSER I and ESSER II funds had been depleted as well as all of ESSER I SPED and ESSER II SPED funds as of this reporting period. Over \$1.2 billion of all available ESSER funds were expended, since March 20, 2020, and nearly \$28 million of all available EANS funds were obligated by private schools through Sept. 30, 2024.

Per pupil funding varies, in part, by federal relief package. The ESSER I fund allotted, on average, about \$186 per Kansas public school student, including administrative fees. The ESSER II fund award allotted about \$815, on average, per student attending public schools and about \$1,350 per student attending approved private school applicants (see also Table 1, p. 18).

Figure 1: Summary of Public School Funding and Expenditures

All the funding sources available to public schools had been expended or obligated by the end of this quarterly reporting period. As noted in Figure 1 in the dark blue portion of the pie charts, 100% of ESSER I funds and ESSER I SPED funds were expended by September 2022, as were 100% of ESSER II funds, and ESSER II SPED funds by September 2023, and finally the ESSER III awards by September 2024. Per pupil expenditures were estimated based on a total student count of 451,579 annually in public schools across Kansas and for which 46% on average were eligible for the free or reduced-priced lunch program (see Appendices, p. 45).

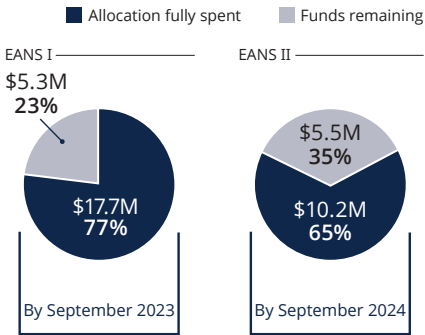

Figure 2 - Summary of Private School Funding and Expenditures

As noted in Figure 2, 77% of EANS I funds were expended or obligated as well as 65% of EANS II funds, as of September 2024. The remaining \$5 million of unclaimed private school EANS I funds were applied to other eligible programs, including the Governor's Emergency Education Relief Fund (GEER)<sup>2</sup>. The Kansas State Board of Education approved plans for nearly \$39 million total EANS funds for private schools. EANS I per pupil expenditures were estimated based on a total student count of 17,008 annually. On average, 25% of the private school students were eligible for the free or reduced-priced lunch program or received a scholarship, among the approved EANS I recipients (see Appendices, p. 101). Fewer private schools were eligible for EANS II funds, because of changes to the federal requirements that targeted a higher school population of at-risk students. EANS II recipients dropped to 26 private schools, 4,684 students, averaging 47% free and reduced lunch.

EXECUTIVE SUMMARY

# TOP USES OF FEDERAL RELIEF FUNDS

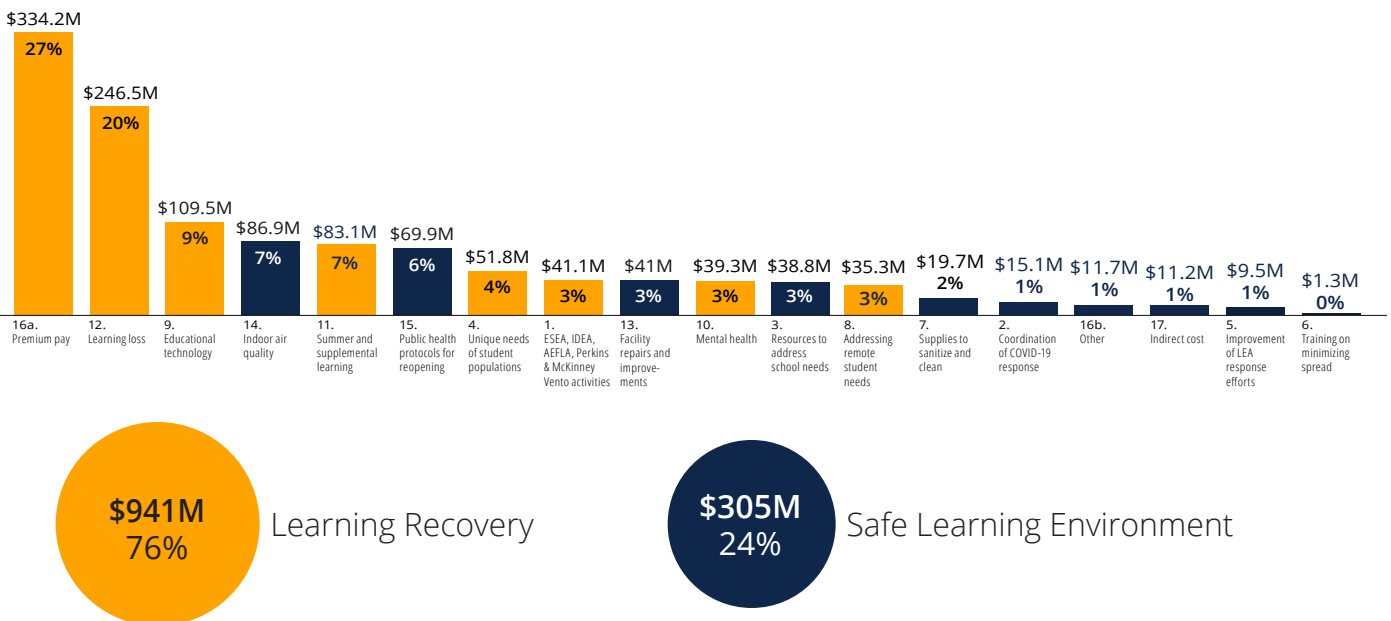

Local expenditures were restricted to the federally defined allowable use categories. The Commissioner’s Task Force<sup>3</sup> on ESSER and EANS was charged with oversight and guidance on the use of the federal funds. The Task Force identified two broad-use categories to better understand how pre-K-12 education is maximizing the allowable uses.

**Learning Recovery** are COVID-19-related expenditures that most directly impact students and support for student learning. **Safe Learning Environment** are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and pandemic-related sanitation demands. One allowable use, continuity of operations, reflects both broad types of expenditures and includes one-time premium payments for teachers and support staff members.

Initial demands on federal resources to establish and maintain a **Safe Learning Environment** for in-person learning mode were informed by time, research and public health experts. Following comprehensive access to vaccines and restored capacity to deploy standard communicable disease protocols, more resources were allocated to **Learning Recovery** in the latter school years. This was relevant particularly in districts with high population density.

**Figure 3 - Public and Private: Allowable Use Expenditures Across All Available Funds**

Of all available federal relief funds, ESSERs and EANS, combined, \$941 million, or about 76% of funds, were used to address **Learning Recovery**, and \$305 million, or 24%, were expended to ensure a **Safe Learning Environment**. The top four allowable use categories as of Sept. 30, 2024, included staff premium pay (27%), learning loss (20%), education technology (9%) and indoor air quality (7%).

Note: Categorization based on self-reported function/object codes and allowable uses from public and private schools; data include ESSER I, ESSER I SPED, ESSER II, ESSER II SPED, ESSER III, EANS I and EANS II expenditures.

KSDE has provided technical assistance to help support staff members of Greenbush Service Center and participating private schools meet reporting requirements.

## District Stories

USD 385 Andover has utilized ESSER funds to address learning loss using a variety of evidence-based strategies. Offering a robust summer learning programs in 2021 through 2024 for elementary and middle school students to remediate skills that were missed due to the pandemic. The summer learning was structured with reduced teacher-student ratios. Instruction was built on evidence-based curriculum in math and language arts aligned to standards and delivered through interactive and engaging lessons. The district added nurse and health aide support to ensure that there is adequate coverage to provide nursing services as we respond to the increased physical and emotional needs of students as a result of the pandemic. Permanent substitutes were also hired to provide continuity of instruction and academic rigor for students. These substitutes are experienced staff members who are familiar with our district processes and expectations. They have developed high-quality relationships with students, colleagues, and families, which results in a high-quality educational experience for students. Purchases were also completed for intervention resources and staff professional learning on how to identify and apply strategies for closing learning gaps for our students. Additional staff have been added to support these initiatives. The SPED allocation was used to pay staff for IEP revisions and work created by the pandemic as well as retention pay for returning staff to this challenging environment. It has also been utilized for additional nurse and health aide support and a small amount for air purifying, student support equipment and 2-way radios for security. ”

**EXECUTIVE SUMMARY**

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS  
**REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024**

**COVID-19 Context for Current Reporting Period**

March 2020-September 2024

**QUARTERLY REPORTING OF CUMULATIVE EXPENDITURES**

This report is the fifteenth in a series of quarterly reports documenting the cumulative use of federal COVID-19 relief funds by Kansas public and private schools (**Report 1**<sup>1</sup>). The series is intended to summarize the ways in which Kansas public and private schools have used federal COVID-19 funding to address pandemic-driven needs. **Report 1**<sup>2</sup> summarized district expenditures used to keep students and staff members safe while engaging youth in learning during the first four quarters of the global pandemic. **Report 2**<sup>3</sup> summarized cumulative expenditures through June 2021. **Report 3**<sup>4</sup> summarized cumulative expenditures through September 2021, **Report 4**<sup>5</sup> through December 2021, **Report 5**<sup>6</sup> through March 2022, **Report 6**<sup>7</sup> through June 2022, **Report 7**<sup>8</sup> through September 2022, **Report 8**<sup>9</sup> through December 2022, **Report 9**<sup>10</sup> through March 2023, **Report 10**<sup>11</sup> through June 2023, **Report 11**<sup>12</sup> through September 2023, **Report 12**<sup>13</sup> through December 2023, **Report 13**<sup>14</sup> through March 2024, and **Report 14**<sup>15</sup> through June 2024.

**THE GLOBAL PANDEMIC DURING THE REPORTING PERIOD**

Current fifth graders experienced COVID learning disruptions during critical formative years - grades K, 1 and 2.

In September 2024, Kansas public and private schools had just started their sixth school year of teaching and learning since the onset of the global pandemic in March 2020. This was also the first year since onset that federal COVID-19 relief funds were no longer available to support **Learning Recovery**. Some disruptions to learning still continued, but in the new form of lingering absenteeism among students and ongoing staffing shortages - both among certified personnel (e.g., teachers, principals, superintendents, social workers, counselors) and classified personnel (e.g., paraprofessionals, bus drivers, food service, custodians, maintenance).

**District Stories**

“A great deal of our ESSER funds have been used to help our students recover from the learning loss caused by Covid. We passed our SPED allocation on to our Interlocal who was instrumental in distributing the funds to staff to help pay for the additional requirements that were thrust upon them due to the burdensome epidemic.”

— Rose Hill USD 394

## THE GLOBAL PANDEMIC AT ONSET

At the onset of the global pandemic, Kansas public and private schools were approaching 2020 spring break. In a matter of days, the teaching and learning of over 500,000 Kansas youth were disrupted, along with 55 million students across the U.S. in 124,000 public and private schools. Nearly every state either ordered or recommended that buildings remain closed through the end of the 2020 school year until data could be gathered and in turn begin to inform safe practice<sup>16</sup>. Teachers and staff members suddenly had to redesign lesson plans for remote learning and find alternative ways to provide meals, counseling and other support services through May 2020. Students of all ages had to adapt to a new digital classroom where they no longer sat side-by-side with their peers. Parents had to adapt to changes on multiple fronts. This transition was difficult for communities without access to the technology and connectivity necessary for students and teachers to make use of alternate learning modes. It shined a spotlight on pre-existing barriers related to broadband access. More broadly, administrators were tasked with formulating plans to both effectively manage a remote way of operating and plan for a safe return to in-person learning.

## THE GLOBAL PANDEMIC AND DISRUPTIONS TO LEARNING

Since the onset of the global pandemic, disruptions of varying degree continued to interfere with educators' persistent efforts to fully engage students in **Learning Recovery**. A three percent drop in public and private school enrollment fall of 2020 indicated that some parents had the opportunity to keep their children home or in alternate learning modes while waiting for access to a vaccine, waiting for school masking policies to align with family preferences, and/or more information on the effectiveness of mitigation protocols. About a quarter of Kansas public school families chose to enroll their children in virtual and remote learning modes offered through their home districts during the 2020-2021 school year, even when the option for in-person learning was available. The following 2021-2022 school year demonstrated that COVID-19 was not wholly behind us as waves of the Delta and Omicron COVID-19 variants hit school communities. This new reality of continued disruptions was both a shared source of frustration across Kansas, as well as a testament of educators' sheer determination to find a way forward for students and families. Summer and fall 2022, were launched with cautious optimism for a more typical school year or at least a noticeable reduction in disruptions as efforts to facilitate **Learning Recovery** intensified. Disruptions to teaching and learning over the course of the global pandemic were associated with a variety of ongoing factors:

- The promise of a **Safe Learning Environment** for students, staff and their families in the first 28 months of the pandemic, during the wait for safe vaccines at all ages, required extraordinary measures. Families chose to enroll their children in virtual and remote learning modes, particularly in high population-density school districts where social distancing was not an easy option. Students returning to full in-person learning modes had to regain the focus and rhythm required to be engaged in school for seven to eight hours a day.
- Ongoing staff shortages added an extra demand on existing teachers, custodians, nurses, food service and maintenance staff, administrators and bus drivers left to cover essential services. No relief from staff shortages were in sight, as competing industries strengthened compensation packages for a smaller pool of eligible employees.
- The additional COVID-19 related job responsibilities of school nurses, needed to help keep students and staff members healthy, stretched the capacity of an already taxing role.
- Supply chain disruptions added an additional layer of complication and stress to the adults responsible for providing a hot lunch and breakfast to students (with demand on the rise following federal lunch fee waivers) or keeping sanitization and PPE supplies on hand, in addition to typical building supplies.
- Days out of school with coronavirus or in quarantine to minimize additional exposures removed students and staff members from the classroom, as did a rise in chronic absenteeism.
- Maintaining a **Safe Learning Environment** in order to keep school doors open required some reduction in extracurricular opportunities and extra time each day to implement risk mitigation protocols through school year 2022.

Steps to minimize disruptions called for extraordinary resource allocation across a variety of fronts:

- To hire additional counselors and teachers needed to accelerate.
- To recruit needed substitute teachers and paraprofessionals.
- To pay custodial overtime and purchase sanitation supplies.
- To hire additional nurses and health-related staff members through school year 2022.
- To secure aid time needed to cover socially distanced lunches through the school year ending 2022.
- To support and retain administrative and teaching staff, under extraordinary pressure to pivot on demand, maintain quality instruction, and be responsive to a stressed population of students, parents and patrons.

All these costs exceeded services being restored under the Gannon school finance resolution. These needs represented significant, incremental upfront costs on top of the regular operating expenses that districts incurred to continue providing services to students in the near-term and to address **Learning Recovery** in the medium- and long-term.

Topeka Public Schools (TPS) was most impacted by the abruptness of the COVID-19 pandemic. Our district paused for Spring Break 2020 in early March, expecting to return to a normal last quarter of learning in our school facilities. As the virus spread, it became clear that Kansas citizens would feel the brunt force of COVID. After state and local health officials enacted orders suspending classes (SNCO on March 16th) for what was thought would be a temporary period, schools began scrambling to respond. A majority of TPS students participate in district nutrition programs so TPS focused on delivering base requirements for nutrition to our school community. Without the ESSER funds to fill this need, many district students would have been left to fend for themselves, going without meals for extended periods of time. 38% of ESSER I resources have been used to address student nutritional needs from March 16 thru May 22. 24% of dollars have been used for sustaining existing transportation infrastructure and specialty routes. 6.8% of funds have been used to cover higher (extremely) than normal self-insured unemployment claims. 8.4 % of has provided PPE, 8% facility improvements such as touchless water bottle filling stations, 2% to internet services for students lacking broadband and 1.2% social messaging to minimize the spread of COVID. ESSER SPED dollars as well as Non-Public ESSER dollars have been spent on technology (software/hardware) to facilitate remote learning. Examples (non-exhaustive) would include: Tobii Dynavox, Readtopia, KAMI, Growth Mindset, GoTalk, IXL Math and ELA, Learning AZ, SeeSaw, Voyager Sopris.”

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS  
REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

Federal Funding Sources

**Federal relief funding has been essential** to Kansas public and private schools in their efforts to minimize disruptions to learning while keeping students and staff members safe though the global pandemic and waves of community spread. A summary of all the COVID-19 federal relief funds for public and private schools is provided here (see Table 1). More details on the different funds can be found in **Report 1<sup>1</sup>** of this series and on the **KSDE website<sup>2</sup>**. During a 12-month period, the federal government passed three consecutive COVID-19 relief packages, all of which included funding set aside for pre-K-12 education. These incremental funding streams provide critical resources needed, above and beyond restoration of state funds, to address the aspirational goals of the Kansans Can Vision. Private school systems were also eligible for the Paycheck Protection Program (PPP)<sup>3</sup> to address educational needs immediately following the time of COVID-19 onset. However, after December 2020, private schools had to choose either PPP or EANS I federal aid to address continued learning disruptions caused by the global pandemic.

**The first federal COVID-19 funding streams** for Kansas pre-K-12 education were established under the CARES Act<sup>4</sup> on March 27, 2020. The CARES Act included specific funding for public and private schools, known as CRF and ESSER I. These two streams represented the only incremental funding sources for Kansas school districts in 2020. Districts were expected to manage these funds without the assumption of further relief. Uncertainty about the continuation of federal aid and their allowable uses persisted for school leaders nearly a year into the pandemic until the passage of the CRRSA Act<sup>5</sup> by Congress on Dec. 27, 2020 (H.R. 133). The CRRSA Act included specific funding for EANS I for private schools and ESSER II for public schools. ESSER funds were required to be allocated to public school districts through the Title I formula, where 90% of the award flows directly to Unified School Districts (USD) and 10% may be allocated at the discretion of the state. EANS funds were distributed on a competitive application process per federal guidelines to eligible private schools, based in part on poverty levels, defined as a function of free and reduced-price lunch participation or scholarship recipient.

The last round of funding for districts and private schools was signed into law March 11, 2021, through the ARP Act<sup>6</sup>, which included EANS II and ESSER III. These funds were intended to be used primarily in school years 2022-2023 and 2023-2024. The state approval process for this last program has experienced some delays, in part, because of changes in the federal guidelines. Public and private schools, for example, were required to gather and address additional community input for the local district plans prior to submitting ESSER III applications for approval. Opportunities to ensure more community input took additional time to administer and incorporate into the final applications. The federal eligibility criteria for EANS II funds were also revised with stricter poverty guidelines.

This reporting period includes cumulative expenditures from district ESSER III funds and EANS II expenditures by private schools. School districts and private school systems have one year to obligate the funding after it is received. All CRSSA Act funds had to be drawn down by September 2023 and all ARP Act funds must be drawn down by September 2024. Funding appropriately obligated for grant activities that extend beyond the obligation date is allowable.

QUICK REFERENCE

<b>ARP Act</b>	American Rescue Plan Act
<b>CARES Act</b>	Coronavirus Aid, Relief and Economic Security Act
<b>CRRSA Act</b>	Coronavirus Response and Relief Supplemental Appropriations Act
<b>EANS</b>	Emergency Assistance to Nonpublic Schools
<b>ESSER</b>	Elementary and Secondary School Emergency Relief Funds

## FEDERAL FUNDING SOURCES

Table 1 - Summary of COVID-19 Federal Education Relief Funding

## Coronavirus Relief and Economic Security (CARES) Act

\$164M total for Kansas. Signed into law on March 27, 2020.

CARES ACT	ALLOCATION TYPE	DESCRIPTION	ALLOCATION \$164M	SPEND DEADLINE	PER PUPIL BY AWARD
CRF	Discretionary	Coronavirus Relief Fund <b>SPARK</b> <sup>7</sup> (Strengthening People and Revitalizing Kansas) funding allocated to districts by counties to address: <ul style="list-style-type: none"> <li>● COVID-19-related needs.</li> <li>● Statewide reporting required.</li> <li>● Eight allowable uses.</li> </ul> * These funds are not administered through KSDE.	\$ 80M	Originally December 2020 Extended to March 2021	
ESSER I	Formula	Elementary and Secondary School Emergency Relief (ESSER) federal funding allocated according to the federal Title I formula directly to districts, 15 federal allowable uses.	\$ 76M	September 2022	\$ 186
ESSER I SPED	Discretionary	The portion of state education agency (SEA) discretionary funding allocated to districts by the Kansas State Board of Education (KSBE) for special education purposes, subject to the same 15 federal allowable uses.	\$ 8M	September 2022	

## Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act

Allocation: \$ 385M total for Kansas. Signed into law on December 2020.

CRRSA ACT	ALLOCATION TYPE	DESCRIPTION	ALLOCATION \$397M	SPEND DEADLINE	PER PUPIL BY AWARD
EANS I	Competitive	Emergency Assistance for Nonpublic Schools (EANS) funding for private schools administered by the SEA with a more restrictive set of federal allowable uses.	\$ 27M	September 2023	\$ 1,350
ESSER II	Formula	ESSER federal funding allocated according to the federal Title I formula directly to districts after spending plans approved by KSBE, 15 federal allowable uses.	\$ 333M	September 2023	\$ 815
ESSER II SPED	Discretionary	The portion of SEA discretionary funding allocated to districts by KSBE for special education purposes, subject to the same 15 federal allowable uses.	\$ 24M	September 2023	
ESSER II True Up	Discretionary	KSBE directed supplement to formula aid that ensures all school districts receive no less than \$ 300 per student.	\$ 11M	September 2023	

## American Rescue Plan (ARP) Act

\$856M total for Kansas. Signed into law on March 2021.

ARP ACT	ALLOCATION TYPE	DESCRIPTION	ALLOCATION \$856M	SPEND DEADLINE	PER PUPIL BY AWARD
EANS II	Discretionary	EANS funding for private schools administered by the SEA with a more restrictive set of federal allowable uses.	\$ 25M	September 2024	\$ 2,769
ESSER III	Formula	ESSER federal funding allocated according to the federal Title I formula directly to districts after spending plans approved by KSBE, 15 federal allowable uses.	\$ 748M	September 2024	\$ 1,701
ESSER III True Up	Discretionary	KSBE directed supplement to formula aid that ensures all school districts receive no less than \$625 per student.	\$ 20M	September 2024	

**Note: Discretionary grants:** Funding may be directed by state agency, within limitations established by Congress.**Competitive:** Awarded using priority criteria established by Congress. **Formula grants:** Disbursed using formulas determined by Congress (such as Title I). **The SPARK (Strengthening People and Revitalizing Kansas) Task Force** determined investment priorities for the CRF funding received by the state.

**FEDERAL FUNDING SOURCES**

**The use of COVID-19 relief aid is restricted to a federally defined list of categories**, as noted in the CRRSA Act and carried through the ARP Act (see Table 2). The allowable use categories for public school districts under ESSER and for private school systems under EANS were somewhat similar. Substantial overlap existed in allowable supports, but they were separate programs with different parameters governing the use of funds. One main difference stemmed from general restrictions on use of federal dollars. Under the ESSER program, public school districts received direct funding, and all equipment and supplies utilized to support the schools remain the property of the public agency. Nonpublic schools can only receive public funds indirectly, and equipment must be returned at the end of the program. The EANS program provided services, supports and assistance through a competitive application process to eligible nonpublic schools to address educational disruptions associated with COVID-19. The ESSER program distributed all funds through the Title I formula and regulations. All public school districts and private schools were required to submit plans for approval by the State Board of Education.

In Kansas, the Commissioner’s Task Force on ESSER and EANS was charged with providing oversight and guidance on the use of these funds, along with the Kansas State Department of Education. The Task Force grouped the long list of categories into two broad types of expenditures to better understand and maximize use of funds.

- **Learning Recovery** are COVID-19-related expenditures that most directly impact students and support for student learning.
- **Safe Learning Environment** are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and daily sanitization demands.

The color coding in Table 2 indicates the eight gold allowable uses aligned with **Learning Recovery** and the nine blue allowable uses aligned with **Safe Learning Environment**. One allowable use, Continuity of Operations, was reflected in both groups of expenditures.

## District Stories

The district has used the funds to address learning loss through tutoring, summer school, and instructional resources. In addition, the ESSER funds have provided us an opportunity to hire an additional nurse, instructional coaches in all buildings, and a college and career advocate. The focus of all of our funds have been improving student engagement, including students with disabilities. ... When students are engaged, they are more likely to ask questions, share ideas, and take ownership of their learning, leading to better academic outcomes.”

– Bonner Springs–Edwardsville USD 204

We spent the remaining balance of our ESSER 3 allocation on air quality improvement. We replaced the HVAC units with superior modern filtration on two buildings. The cost exceeded the remainder of our allocation and we are aware that we will need to pay the difference with local funds. If an option exists for the total cost to be reimbursed, we would like to inquire how to apply for the overage.”

– Elkhart USD 218

## FEDERAL FUNDING SOURCES

Table 2: Federal Allowable Use Categories

USE TYPE		
● Learning Recovery ● Safe Learning Environment		
ESSER	EANS	ALLOWABLE USE CATEGORIES
1	—	<b>ESEA, IDEA, AEFLA, Perkins, and McKinney Vento Activities:</b> Any activity authorized by the ESEA of 1965.
2	2	<b>Coordination of COVID-19 Response:</b> Coordination of preparedness and response efforts of local educational agencies with relevant agencies.
3	—	<b>Resources to Address School Needs:</b> Provide school leaders with the resources necessary to address the needs of their individual schools.
4	—	<b>Unique Needs of Student Populations:</b> Activities to address the unique needs of student populations with special needs.
5	—	<b>Improvement of LEA Response Efforts:</b> Developing and implementing procedures and systems to improve the preparedness and response.
6	6	<b>Training on Minimizing Spread:</b> Training and professional development for local staff on sanitation and minimizing the spread of infectious diseases.
7	7	<b>Supplies to Sanitize and Clean:</b> Purchasing supplies to sanitize and clean the facilities of a local educational agency, including purchase of personal protective equipment (PPE) and other materials or supplies for reopening and safe operations.
8	8	<b>Addressing Remote Student Needs:</b> Plan and coordinate for long-term closures, including meals, technology, IDEA, consistency with requirements.
9	9	<b>Educational Technology:</b> Purchasing educational technology, including hardware, software and connectivity for students.
10	10	<b>Mental Health:</b> Providing mental health services and supports.
11	11	<b>Summer and Supplemental Learning:</b> Plan and implement activities related to summer learning and supplemental after-school programs, including reasonable transportation costs.
12	12	<b>Learning Loss:</b> Address the academic impact of lost instructional time among a local educational agency's students, including redeveloping instructional plans or initiating and maintaining education and support services.
13	13	<b>Facility Repairs and Improvements:</b> School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission, including physical barriers to facilitate social distancing, create signage and leasing space.
14	14	<b>Indoor Air Quality:</b> Inspection, testing, maintenance, repair, replacement and upgrade projects to improve the indoor air quality in school facilities, including portable ventilation systems.
15	15	<b>Public Health Protocols for Reopening:</b> Developing strategies and implementing public health protocols in line with CDC guidance, expanding capacity to administer COVID testings, including hiring nurses.
16a	16a	<b>Premium pay for building staff.</b>
16b	16b	<b>Continuity of Operations:</b> Other activities that are necessary to maintain the operation of and continuity of services.

**Note:** All 16 authorized use categories are allowable under the ESSER program. The EANS programs includes some of the same use categories, but not all are allowable by nonpublic schools.

**FEDERAL FUNDING SOURCES**

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS  
REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

KSDE Oversight and Supports

From the onset of the global pandemic and throughout these reporting periods, KSDE has provided oversight, financial support and guidance to pre-K-12 public and private schools.

Table 3: KSDE Supports for Schools

KSDE Assurance Process

A series of checks were put in place and refined over the course of the first year of the global pandemic to assure public school districts and private school systems used federal relief funds as intended. Kansas Commissioner of Education Dr. Randy Watson created the Commissioner's Task Force on ESSER and EANS in February 2021 to offer guidance and oversight of plans developed for expenditure of federal funds. Details on the Task Force can be found on the [KSDE website](#).<sup>1</sup> An application process, developed by KSDE, was implemented to gather the information necessary to help schools comply with state and federal law, approve applications, and report regularly on the use of EANS and ESSER funding.

The Task Force was established to review applications in recorded public meetings and ensure all information entered in the application is made available for public disclosure. During Task Force meetings, applications were reviewed for recommendations to the Kansas State Board of Education for final review and approval. The public school application window has been rolling, in part, to manage the volume of applicants. The private school application window was first opened just weeks after the award notice and closed early April 2021 and again in April 2022. It was competitive, in accordance with federal requirements.

Expenses incurred by public school districts are self-reported by allowable use categories and submitted to KSDE monthly for financial audit prior to release of federal allocations for draw down. Oversight of expenses incurred by and for private school use is managed by Greenbush Service Center. The Service Center then submitted expenses to KSDE for audit and drawn down of EANS funds.

KSDE Finance Support for Schools

Ten percent of each successive ESSER fund was awarded to state departments of education, with 0.5% of the funds set aside for administration.<sup>2</sup> KSDE directed significant portions of its allocation to support COVID-19 related needs of local special education services. This included state funds to bolster support for USD special education services, \$8 million ESSER I SPED and \$24 million ESSER II SPED to be used over a two-year period, through September 2023. Another portion of the state's ESSER funds was allocated to public school districts that did not qualify for federal relief aid through Title I criteria, referred to as a True Up. Every USD received a minimum of \$300 per pupil regardless of their free lunch participation rate, with the addition of ESSER II True Up of \$11 million total and ESSER III True Up of \$20 million, also to be used over a two-year period through September 2024.

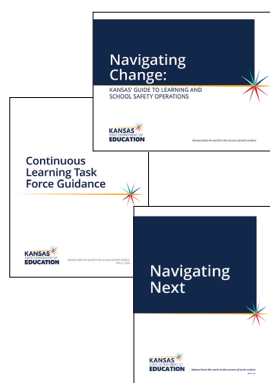

**Table 3: KSDE Supports for Schools**

## KSDE Resources and Supports

Timely instructional support was also provided by KSDE and lead educators including:

- The Continuous Learning Task Force Guidance <sup>3</sup>
- Navigating Change: Kansas' Guide to Learning and School Safety Operations <sup>4</sup>
- Navigating Next <sup>5</sup>
- Sunflower Summer Program <sup>6</sup>
- Kansas LEADS <sup>7</sup>
- LETRS® (Language Essentials for Teachers of Reading and Spelling) <sup>8</sup>

KSDE state Elementary and Secondary School Emergency Relief (ESSER) funds were allocated to support the development of three resource guides. The **Continuous Learning Task Force Guidance**<sup>3</sup> was developed in just 72 hours in mid-March of 2020 by 50 educators convened by KSDE. The rapid deployment of this guidance enabled districts to pivot quickly to remote-learning environments.

During the summer of 2020, KSDE worked with nearly 1,000 Kansans to develop **Navigating Change: Kansas' Guide to Learning and School Safety Operations**<sup>4</sup>. This comprehensive document was designed to help schools continue supporting students across multiple learning environments, with details on core competencies, assessments and implementation across learning topics by grade level.

In the second half of the 2020-2021 school year, KSDE developed **Navigating Next**<sup>5</sup>, an education action plan to guide districts through the completion of the school year and preparation for the 2021-2022 school year.

KSDE reached out to statewide partners and leveraged federal funds to augment local summer learning opportunities. This partnership generated the Sunflower Summer enrichment program for all Kansas youth and their families. The Sunflower Summer Program gives students a chance to learn while visiting attractions across Kansas, including zoos, museums, historic landmarks, libraries and outdoor locations. Families download a free app to begin education adventures.

The **Sunflower Summer Program**<sup>6</sup> has grown each year, expanding to 90 tourism attractions in 2022, to over 220 attractions across Kansas for the 2024 summer. The program was open to all students in preschool through grade 12, children with disabilities enrolled in the 18-21 program and up to two adults. This innovative program was designed to help children and families stay engaged in learning throughout the summer months. Kansans from every county participated, with at least 200,000 children, parents and caretakers visiting the different sites since the program was launched on July 1, 2021.

The **Kansas LEADS**<sup>7</sup> (Linking Educators Across Districts) Conference was launched in 2022 to expand a teacher leadership network across Kansas. A team of Kansas Teachers of the Year (KTOY) designed staff development to assist teachers in learning how to teach differently because of issues related to the pandemic. A LEADS conference was designed, led by educators from across the state, and offered two times per year through 2024. More can be found [here](#)<sup>7</sup> on Kansas LEADS.

## KSDE OVERSIGHT AND SUPPORTS

Table 3: KSDE Supports for Schools

LETRS® is a professional learning course from Lexia® for instructors of reading, spelling and related skills. LETRS® stands for Language Essentials for Teachers of Reading and Spelling. State ESSER funds were allocated to allow Kansas teachers of grades pre-K-3 to take this course, free of charge. This professional learning enhancement opportunity was launched in August 2021 and is completed over a one- to two-year period. Cumulatively, over 10,000 teachers have participated. The course addresses fundamentals of reading instruction including phonological awareness, phonics, fluency, vocabulary, comprehension, writing and language, customized for K-12 teachers in LETRS®, as well as LETRS® for Early Childhood and LETRS® for Administrators. The course is designed for novice and veteran teachers to strengthen professional knowledge of language structure, development of the reading brain, and how to nurture the development of foundational literacy skills. More can be found [here](#)<sup>8</sup> on LETRS®.™

## District Stories

This draw - which constitutes the final draw against the 'true-up' funds - was a continuation of the programs and initiatives the district has pursued since the beginning of the pandemic. Funds were used to have at least one long term substitute teacher assigned to every school during the school year, which helped the district remain open and operational throughout the pandemic, and in the later years where our teacher absences due to illness still run higher than they did pre-pandemic. Additionally these funds covered the balance of any salary and related payroll taxes and benefits along with supplies related to our summer extended learning programs - which includes both enrichment and at-risk programs.”

– Goddard USD 265

**KSDE OVERSIGHT AND SUPPORTS**

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS  
REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

Summary of Expenditures

March 2020-September 2024

This summary provides a closer look at expenditures by the **Learning Recovery** allowable uses, by the five ESSER funds, by the two EANS funds, by special education and by demographics of the school communities.

When considering the cadence of relief fund expenditures, it is important to note that **a lag occurred between the initial district spending and the draw down of federal funds** for reimbursement. Districts spending plans had to be approved by KSDE and could only draw down reimbursement for allowable uses after costs are incurred. The cumulative expenditures reported by district in the Appendices only include those expenditures that have been reimbursed by the federal funds. However, the body of this report includes all district expenditures, including those that await reimbursement. Recognizing this lag time allows KSDE to prepare quarterly reports, maximizing the use of the most relevant data available.

Expenditures were self-reported by public and private schools, in accordance with federally defined allowable uses, through a reporting process administered by KSDE with support for private schools from Greenbush Service Center.

The **cumulative expenditures** by Kansas public school districts reached \$1,218 million of available ESSER funds (excluding the initial \$80 million of CRF Spark<sup>1</sup> funding), and expenditures by private schools reached nearly \$28 million of available EANS funds.

**Per pupil funding** reported as a function of the total federal relief allotment varies by fund and ranges between \$186 to \$2,769 per student. While the total award for students in public schools is larger, the average per pupil allocation for private school students is greater. The actual per pupil expenditure fluctuates as funds are spent and are reported in the Appendices each quarter, by fund and by school district or private school.

Per Pupil Allotment by Fund

PUBLIC SCHOOL FUND		PER PUPIL ALLOCATION		PRIVATE SCHOOL FUND		PER PUPIL ALLOCATION	
ESSER I		\$	186	EANS I		\$	1,350
ESSER II		\$	815	EANS II*		\$	2,769
ESSER III*		\$	1,701				

**Note:** Private, nonpublic schools were eligible for PPP federal relief funds during the time period immediately following onset of the global pandemic.

\*The ESSER III and EANS II funds are intended to be used over a two-year period.

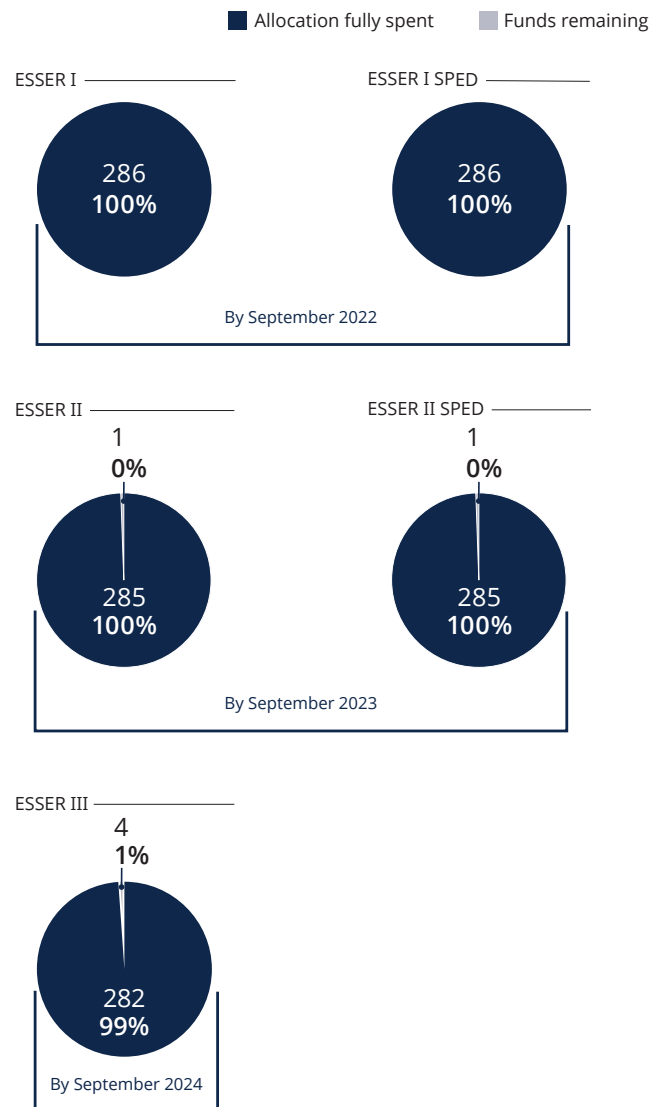

## SUMMARY OF EXPENDITURES

**Figure 4 - Public: Number of Districts that have Drawn Down All their Allocation by Fund —**

**Rate of fund depletion** as of Sept. 30, 2024, reflected the incremental nature of the awards. Of the 286 Kansas public school districts (see Figure 4):

- 100% had drawn down their entire ESSER I allotment.
- 100% had drawn down all SPED I funds.
- 100% had drawn down the entirety of the more recent ESSER II funds.
- 100% had expended all of their ESSER II SPED allotment.
- 99% of districts had depleted all of their ESSER III award.

Note: ESSER III funds were awarded with the intent of supporting intervention for 24 months through September 2024.

## District Story

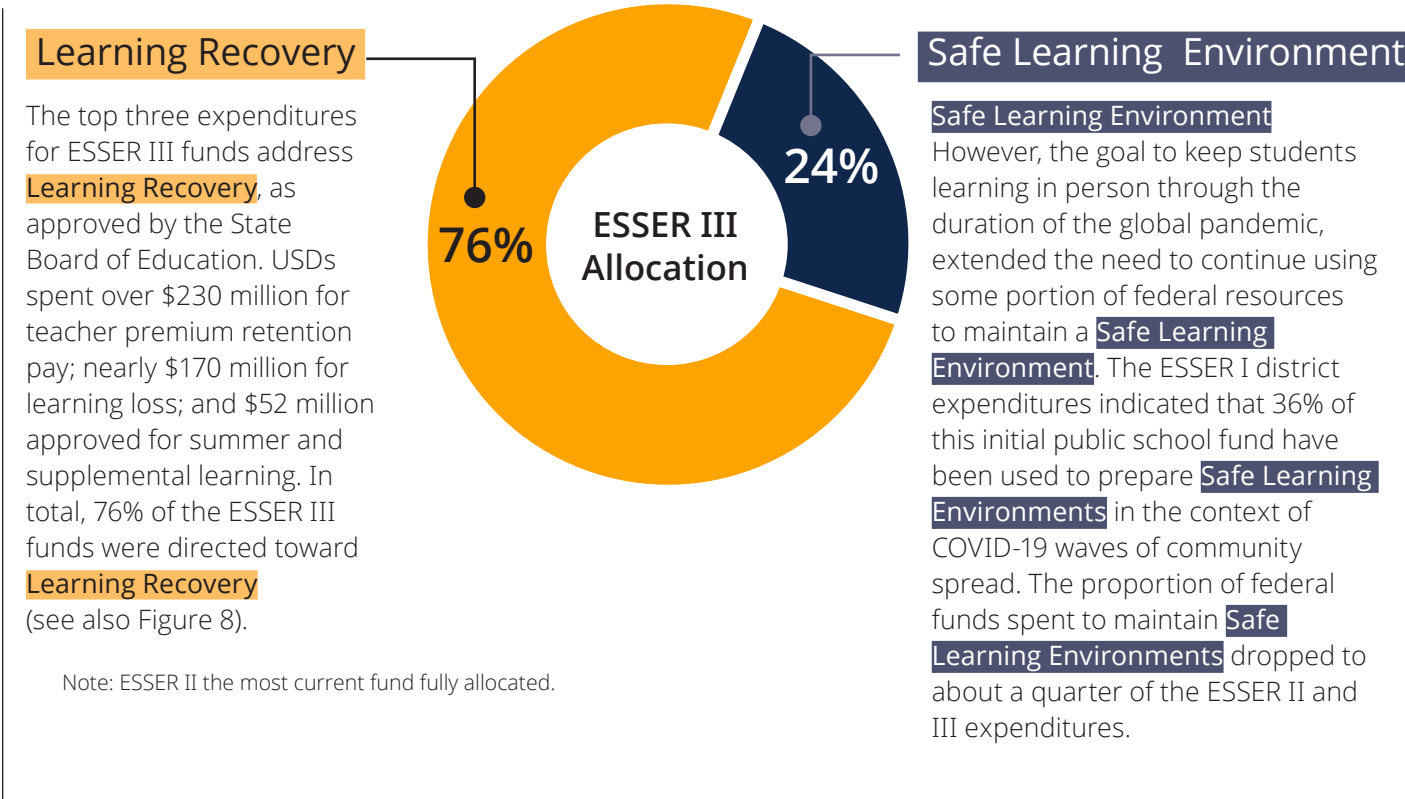

ESSER III funds were used to purchase educational technology software to target learning loss due to attendance issues associated with the COVID pandemic. Three teaching positions were added to assist with learning loss in the targeted areas of title program, early childhood, and secondary alternative/credit recovery program. A monthly newsletter was also established to provide information on safety protocols and learning opportunities.”

– Bluestem USD 205

# Learning Recovery

The portion of federal relief funds being used for **Learning Recovery** increased from about two-thirds to about three quarters since the initial onset of the global pandemic. While the need to maintain a **Safe Learning Environment** remained, resource allocation to achieve this safety goal was sustained with fewer investment dropping from 36% of ESSER I allocations, to 27% of ESSER II, to 24% of ESSER III allocations. This shift in need over time freed up more funds for **Learning Recovery** - up to 76% of ESSER III allocation<sup>2</sup> for **Learning Recovery** (see Figure 5).

Figure 5 - ESSER District Funds

## District Story

“Expenditures related to academic support include the hiring of more elementary teachers and ten math teachers at middle and high school. This reduced class sizes and increased opportunities for personalized attention to student learning. Additional Instructional Coaches were also hired who provide job-embedded professional learning. With this addition, ALL staff will have full-time access to an instructional coach. This includes instructional coaching and English language support with our early childhood programs. We also expanded and enhanced intervention resources for reading and math support at the secondary level, particularly where students may be at-risk for course failure and/or for not graduating on time. Resources were implemented for professional learning designed to accelerate engagement with RTI and PLC protocols and resources for Pre-K-12. Finally, academic-focused expenditures will be allocated to provide scholarships for district provided summer programs, ensuring equitable access to these opportunities. Expenditures related to social/emotional wellness include the addition of seven social worker positions and four high school counseling positions. This includes support for dedicated building substitutes so that teacher teams have increased flex time to collaborate to diagnose student needs and plan for instruction and intervention. Dedicated building subs also have had time to develop relationships with students so that high-quality instruction and support continues even in the teacher’s absence.”

– Shawnee Mission USD 512

## SUMMARY OF EXPENDITURES

## ESSER Public School District Expenditures

Only one of the five incremental ESSER funds remained available to Kansas public school districts during this final reporting period. The cumulative expenditures reached \$1,218 million of all ESSER funds. As noted previously, \$914 million or 75% of funds, was used to address **Learning Recovery** and \$304 million or 25%, were expended to ensure a **Safe Learning Environment**.

### ESSER I EXPENDITURES

By the federal encumbrance deadline of Sept. 30, 2022, districts self-reported that expenses for all of the \$76 million allocated under ESSER I funds had been obligated with all funds liquidated (e.g., bills paid) by Dec. 31, 2022. Nearly three-quarters of the expenditures were mapped to the following four allowable uses (see Figure 6):

- **Educational technology:** \$25.4 million (33%)
- **Supplies to sanitize and clean facilities:** \$10.9 million (14%)
- **Addressing remote student needs:** \$9.8 million (13%)
- **Premium pay:** \$7.5 million (10%)

Of ESSER I expenditures, 64% of allowable uses were on **Learning Recovery**, with 36% associated with **Safe Learning Environment**.

**Figure 6 - Public: Allowable Use Expenditures across Available ESSER I Funds**

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER I expenditures.

## ESSER I SPED EXPENDITURES

By the federal encumbrance deadline of Sept. 30, 2022, public school districts self-reported that expenses for the \$8 million in the ESSER I SPED allocation had been obligated, with all bills paid by Dec. 31, 2022. Just over half of the expenditures were mapped to the following three allowable uses (see Figure 7):

- **IDEA:** \$1.8 million (22%)
- **Premium pay:** \$1.4 million (18%)
- **Unique needs of special populations:** \$1.2 million (15%)

Of ESSER I SPED expenditures, 86% of allowable uses were on **Learning Recovery** and 14% associated with **Safe Learning Environment**.

Figure 7 - Allowable Use Expenditures across Available ESSER I SPED Funds

### District Stories

“ESSER SPED was transferred to our contracted interlocal (#638) and helped pay for services such as premium pay for staff during the pandemic, wage support for additional support staff, and professional training for emotional poverty tied to pandemic mental health constraints from families.”

– Douglass USD 369

## SUMMARY OF EXPENDITURES

## ESSER II EXPENDITURES

By the federal encumbrance deadline of Sept. 30, 2023, public school districts had obligated expenses for the \$344 million ESSER II allocation with all bills paid by Dec. 31, 2023. More than half of expenditures were mapped to the following three allowable uses (see Figure 8):

- **Premium pay:** \$89.1 million (26%)
- **Learning loss:** \$67.9 million (20%)
- **Educational technology:** \$39.8 million (12%)

Of ESSER II expenditures, 73% of allowable uses were on **Learning Recovery** and 27% associated with **Safe Learning Environment**.

Figure 8 - Allowable Use Expenditures across Available ESSER II Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER II expenditures.

## District Stories

We spent ESSER II Direct funds on IT equipment to support our 1:1 iPad program and to support hot spots for students and staff who do not have full internet accessibility outside of the school setting.”

– Manhattan USD 383

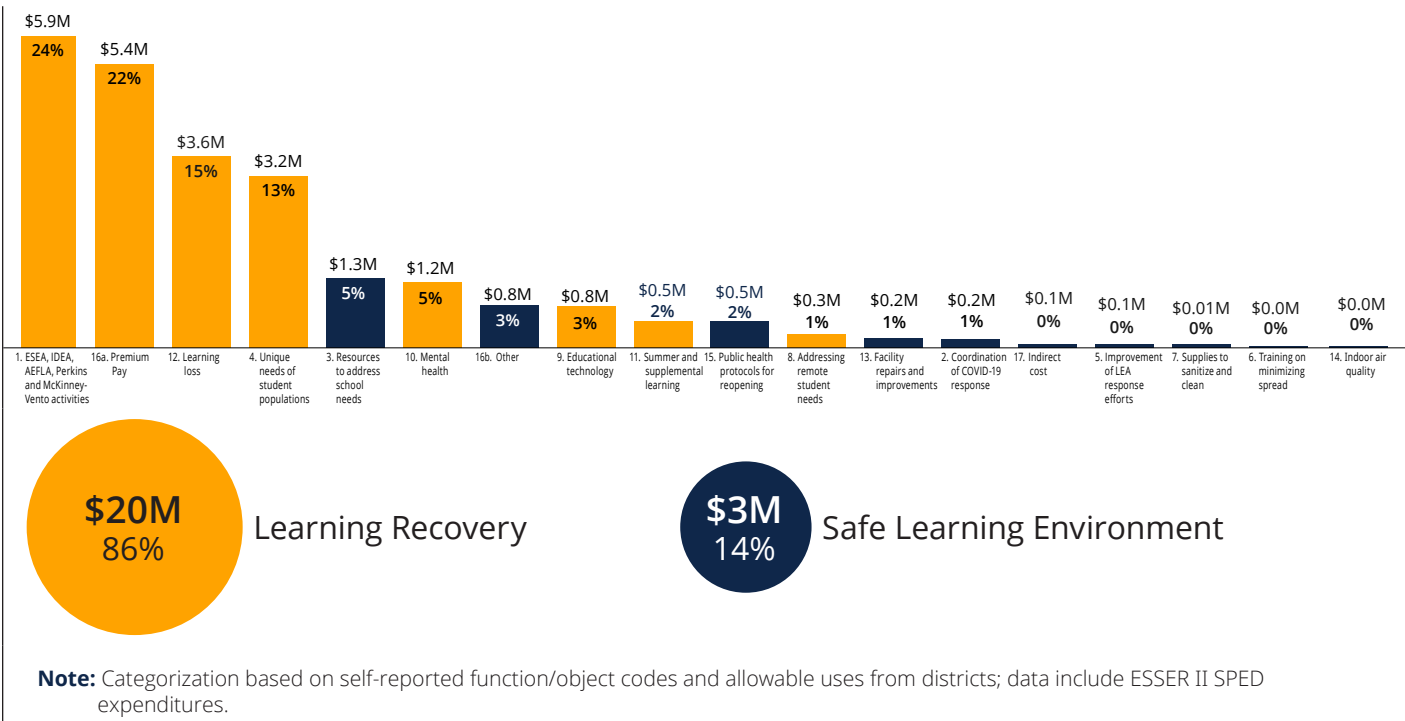

## ESSER II SPED EXPENDITURES

By the federal encumbrance deadline of Sept. 30, 2023, districts had expended or obligated nearly \$24 million in ESSER II SPED allocation, over a period of 24 months, with all bills paid by Dec. 31, 2023. The majority of expenditures were mapped to the following four allowable uses (see Figure 9):

- **IDEA:** \$5.9 million (25%)
- **Premium pay:** \$4.8 million (21%)
- **Learning loss:** \$3.6 million (15%)
- **Unique needs of student populations:** \$3.2 million (14%)

Of ESSER II SPED expenditures, 87% of allowable uses were on **Learning Recovery** and 13% associated with **Safe Learning Environment**.

Figure 9 - Allowable Use Expenditures across Available ESSER II SPED Funds

### District Stories

ESSER II SPED has been used to provide services to virtual school students with disabilities as well as retention and recruitment stipends for special education staff.”

– Olathe USD 233

## SUMMARY OF EXPENDITURES

## ESSER III EXPENDITURES

By the encumbrance deadline of Sept. 30, 2024, public school districts expended or obligated \$767 million in ESSER III allocations over 24 months. Districts has until Dec. 31, 2024 to liquidate (e.g., pay all bills) those federal funds. The top expenditures were mapped to the following four allowable uses (see Figure 10):

- **Premium pay:** \$231.3 million (30%)
- **Learning loss:** \$168.9 million (22%)
- **Indoor air quality:** \$75.2 million (10%)
- **Summer and supplemental learning:** \$51.5 million (7%)

Of ESSER III expenditures, 76% of allowable uses were on **Learning Recovery** and 24% were associated with **Safe Learning Environment**.

Figure 10 - Allowable Use Expenditures across Available ESSER III Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER III expenditures.

## District Stories

This quarter ESSER III funds were primarily targeted toward closing the gap in learning loss for students. Funds provided salary, unemployment, and social security benefits for non-certified instructional positions created in response to Covid-19. In addition, some funds were used to update HVAC air filters and drinking fountain repairs to reduce the risk of virus transmission, to increase opportunities for addressing student learning needs through collaboration and data review, and purchasing curriculum to increase effectiveness in bridging learning loss in the areas of ELA and math and to be used for summer school. Finally, funds were used to compensate existing staff for ESSER reporting services, janitorial, and food service needs in response to the pandemic.”

– Fowler USD 225

## EANS Private School Expenditures

One incremental EANS fund was available to Kansas private schools during this final reporting period. The cumulative expenditures reached nearly \$28 million of the total \$38.7 million approved EANS funds. Of all EANS I and II funds expended, \$26.5 million, or 95% of funds, have been used to address **Learning Recovery** and \$1.4 million, or 5%, were used to ensure a **Safe Learning Environment**. Note that 94% of the EANS I recipients were private schools with small enrollments and small enough class sizes to social distance within existing classrooms.

One other point of difference between the EANS and ESSER programs is that four of the allowable use categories were not applicable: 1 ESEA, IDEA, AEFLA, Perkins and McKinney-Vento activities, 3 Resources to Address School Needs, 4 Unique Needs of Student Populations, and 5 Improvement of LEA Response Efforts. Six others allowable use categories were either not used and not reported out separately due to EANS coding protocols: 2 Coordination of COVID-19 Response, 6 Training on Minimizing Spread, 10 Mental Health, 11 Summer and Supplemental Learning, 16a Continuity of Operations - Premium Pay and 16b Continuity of Operations – Other.

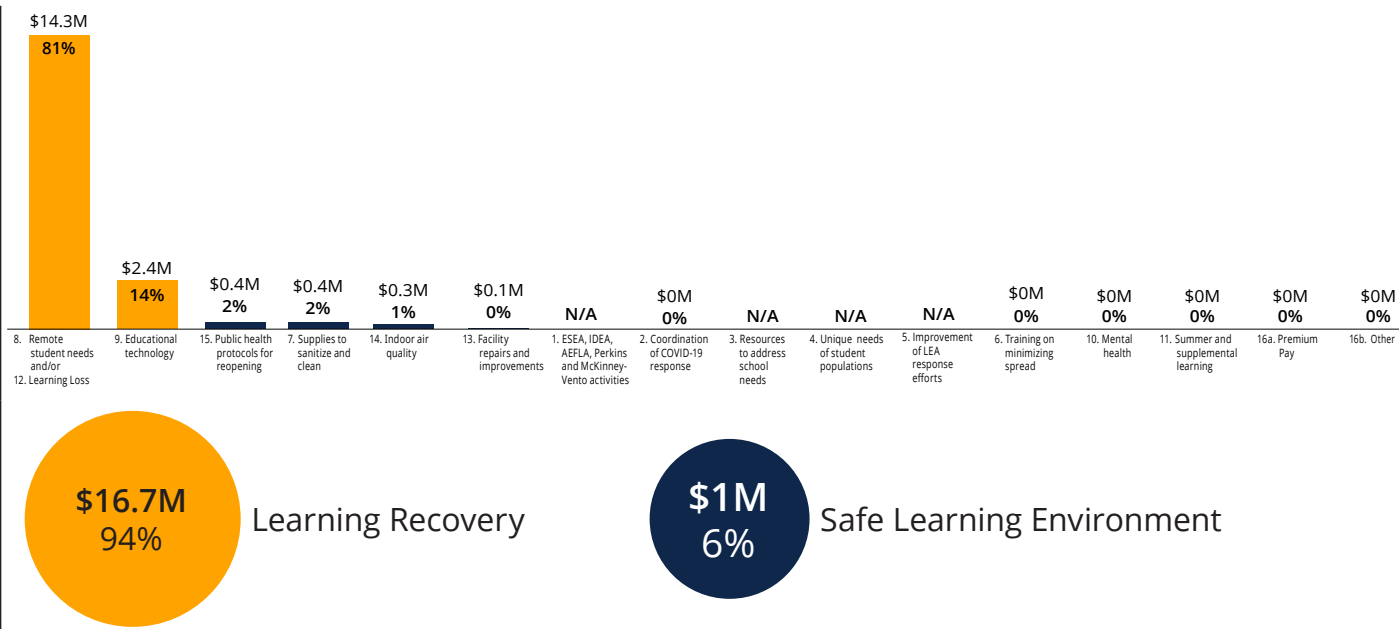

### EANS I EXPENDITURES

By the federal encumbrance deadline of Sept. 30, 2021, private schools had expended or obligated over \$17 million of the \$23 million in EANS I funds approved by the Commissioner’s Task Force, with all funds liquidated by Dec. 31, 2021.

- **Remote student needs** and/or **Learning Loss**: \$14.3 million (81%)
- **Educational technology**: \$2.4 million (14%)

Of EANS I expenditures, 94% of allowable uses were on **Learning Recovery**, with 6% associated with **Safe Learning Environment**.

Figure 11 - Allowable Use Expenditures across Available EANS I Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses by private schools; data include EANS I expenditures. Note that four of the federal relief fund Use Categories are not applicable (N/A) for private school use, due to program differences.

Almost all the expenditures were mapped to just three allowable uses. Note also that the private school reporting procedures coded expenditures on two of the federal allowable use categories under the same code, such that expenditures on remote student needs and on learning loss are not differentiated (see Figure 11).

## EANS II EXPENDITURES

By the federal encumbrance date of Sept. 30, 2024, private schools had expended or obligated over \$10 million of the \$15.7 million in EANS II funds approved by the Commissioner's Task Force. Districts have until Dec. 31, 2024 to liquidate these funds. Again, almost all the expenditures were mapped to just three allowable uses. Also, private school reporting procedures continued to combine two of the federal allowable use categories under the same code, such that expenditures on remote student needs and on learning loss are not differentiated (see Figure 12):

- **Remote student needs** and/or **Learning Loss**: \$9.41 million (92%)
- **Educational technology**: \$0.44 million (4%)

Of EANS I expenditures, 97% of allowable uses were on **Learning Recovery**, with 3% associated with **Safe Learning Environment**.

Figure 12 - Allowable Use Expenditures across Available EANS I Funds

## SUMMARY OF EXPENDITURES

## Special Education

KSDE directed a total of \$32 million of the state's portion of ESSER funds back to local school districts for support of special education services impacted by the global pandemic. Districts targeted these funds to strengthen support for the unique needs of students with disabilities. Together, 86% of the ESSER SPED expenditures were for **Learning Recovery** uses, including (see Figure 13):

- **IDEA:** \$7.6 million
- **Premium pay:** \$6.3 million
- **Unique needs of special populations:** \$4.5 million
- **Learning loss:** \$4.2 million
- **Educational technology:** \$1.6 million

Figure 13 - ESSER I and II SPED Funds by Allowable Use by Categories

### District Stories

SPED funds were allocated towards summer stipends for training and to develop and collaborate with parents on contingency IEP plans for virtual, hybrid, in-person, and quarantine learning modes. In addition, funds were expended on DocuSign to facilitate signing of special education paperwork while meeting virtually, summer curriculum work to design early childhood instruction for students not able to attend school, a subscription to Presence Learning to provide Related Services through distance learning, PPE to address special situations, and extended hours of ESY to address learning loss and provide compensatory services. We also have some SPED funds for our non-public schools related to addressing learning loss amongst SPED students (e.g., Reading wonderworks) and non-public purchase of Adobe Sign Software.”

– Blue Valley USD 229

## SUMMARY OF EXPENDITURES

## Expenditures by District and School Demographics

District enrollment and poverty level are two key factors that influenced federal relief fund expenditures (see Table 4). Profiles of public and private school expenditures are provided, based on the number of students enrolled in 2020-2021, the percentage of students eligible for free or reduced-price lunch and allowable uses. Demographically, the private schools approved for EANS I funds were similar to public school districts of small-to-medium enrollment and low-to-medium poverty. Only 31% of public school students, compared to 94% of private school students, were enrolled in schools of this setting - smaller enrollment and low rates of poverty. The public school districts with these characteristics were less likely to have used remote and hybrid learning modes and less likely to have spent federal relief funds on the remote needs allowable use category.

**Table 4: District or Schools Expenditures by Enrollment and Poverty**

	Enrollment small/medium and poverty low/medium		Enrollment small/medium and poverty high		Enrollment high and poverty low/medium		Enrollment high and poverty high	
	PUBLIC	PRIVATE	PUBLIC	PRIVATE	PUBLIC	PRIVATE	PUBLIC	PRIVATE
% of districts or schools	76%	90%	14%	10%	8%	0%	3%	0%
# of districts or schools	216	64	39	7	22	0	9	0
% of students	31%	94%	5%	6%	40%	0%	24%	0%
# of students	141K	16K	24K	<1K	179K	0	107K	0
% of students in remote or hybrid at peak spread	31%	Unknown	23%	Unknown	86%	N/A	91%	N/A
% Total allocation	34%	87%	9%	13%	23%	N/A	34%	N/A
\$ Allocation	\$40M	\$20M	\$10M	\$3M	\$27M	N/A	\$40M	N/A
% Spent on remote learning	28%	N/A	33%	N/A	11%	N/A	38%	N/A

**Notes:**

- **High poverty level:** 60-88% students approved for free/reduced-price lunch.
- **Low/medium poverty level:** <60% students approved for free/reduced-price lunch.
- **High enrollment:** 3K-47K students.
- **Small/medium enrollment:** < 3K students.
- **Student count:** Unweighted, nonvirtual full-time enrollment (FTE).

While COVID-19 drove significant incremental needs across all Kansas districts, high-poverty districts were particularly impacted by the transition to remote and hybrid learning modes. Federal aid was especially critical for students in high-poverty districts who were more likely to lack the technology and connectivity to access classes during remote learning, as reflected in Table 4.

- **High-poverty public school districts, regardless of enrollment, spent more proportionally on remote learning than districts with lower poverty levels**, with 33% high poverty vs. 22% low poverty in small/medium districts and 38% high poverty vs. 11% low poverty in high-enrollment districts.
- **Larger districts were more likely to have used remote and hybrid learning modes** in the 2020-2021 school year, including 91% of large, high-poverty districts and 86% of large, low-to-medium poverty districts at a peak time of community spread. This rate of remote and hybrid learning modes compared to 23% and 31% respectively of low- and high-poverty districts with small/medium enrollment.

**SUMMARY OF EXPENDITURES**

This Kansas trend compares to national data (NTPS, 2022) in which public school teachers in cities and suburbs (86% and 87%) reported such learning mode shifts at higher rates during the onset of the pandemic in spring 2020, compared to teachers in towns and rural areas (75% and 77%).<sup>3</sup> Transitioning to in-person learning in places where the rate of COVID-19 transmission was higher carried significant risks, especially considering the large volume of students and staff members who occupied the buildings. Adequate social distancing in classrooms was difficult to achieve given the large class sizes and limited square footage. Many students and families chose to remain partially or fully remote throughout the entire 2020-2021 school year. For the large, high-poverty districts, the additional educational needs of the student population were reflected in the faster rate of expenditures.

**District Stories**

Address academic impact of [disrupted] instructional time. SPED allocation, additional personnel support for academic intervention, additional instructional material resources that are evidence-based and align with the district strategic goals, improved instructional materials, continued support expansion of social emotional learning, mental health services curriculum, after-school tutoring programs, additional Social Worker. Implementation of MTSS Tiered Intervention with evidence-based resources materials. 20-21, USD 289 was onsite and in-person for most of the academic year. Parents were provided with a Parent Choice to Remote Learning option, less than 10% of our students K-12 opted for this. 21-22 school year, operating in person and onsite for all students. While we had small gains the past year our data showed student learning loss with a significant impact on primary grades. Fall academic screening data from Fastbridge indicated 44% were at some or high risk, 56% of students were on track in reading. Fastbridge math screening, saw similar results with 41% at some high risk and 59% of students on track. Biggest gaps exist in the primary grades in reading and secondary grades in math. We continued to see high levels of staff students out sick, in quarantine. This contributed to low attendance rates, chronic absenteeism, learning loss, overall disengagement with learning. Data also showed an impact on mental health of students and students' families. Impacts of learning loss and mental health continued to impact our various subgroup and at-risk populations”

– Wellsville USD 289

## FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

# Looking Ahead: Future Needs and COVID-19 Funding

## INCREMENTAL STEPS FORWARD

Districts continued to prioritize academic and social-emotional recovery for students and staff, with the understanding that this priority has required sustained and incremental investment over multiple years. Learning recovery time for students, as well as social-emotional and mental health resources were, and will continue to be, key to ensuring students are supported through the educational disruptions associated with the global pandemic. Use of adaptive assessments and other metrics informed educators about the day-to-day learning needs of at-risk students.

The sense of urgency to address **Learning Recovery** has been shared by educators, parents and students alike. Persistence and paced expectations for progress have been an important mindset throughout these school years, including those supported by federal relief funds and beyond. This reporting period ending September 2024 is marked by a renewed expectation that the worst of COVID-19 related disruptions are in the past. And that an intensified focus on **Learning Recovery** is moving forward, driving growth from the new baseline of student performance. The commitment to full-time, in-person learning for Kansas youth, who are required by law to attend school, also required continued monitoring of health and safety of students and staff. A **Safe Learning Environment** was especially critical when young students did not have access to a vaccine and during peak periods of community spread - particularly in large districts and high population density communities.

## PANDEMIC IMPACT ON CONTINUITY OF EDUCATION LEADERSHIP

The global pandemic has coincided with a spike in retirements across business and industry. Education has not been spared this trend. Superintendents and district administrators in Kansas and across the country continued to retire at notably higher rates, as did general and special education teachers. In the fall of 2021, districts reported a total of about 1,250 teacher vacancies, which grew to about 1,630 vacancies by fall 2022 and through spring 2023. About 500 of the spring 2022 job openings had no applicants, and another 640 vacancies were left unfilled because the applicants were not fully qualified in the teaching endorsement area. In Spring 2024, schools faced 1,514 unfilled teacher vacancies, including 361 special education teachers. The 2021-2022 school year was also noted for 63 superintendent changes from the previous school year and another 66 by June 2023, and another 58 by June 2024.<sup>1</sup> This meant that 20% of Kansas public school districts any given year were under new leadership during an incredibly challenging time for pre-K-12 education systems. Implications for the educational system extend well beyond the local communities impacted, complicated by staffing shortages and high inflation eroding the purchasing power of district budgets. Grow-your-own programs and continued collaboration and expanding partnerships were essential across disciplines and sectors. Recruitment of qualified candidates into education administration higher education programs, along with recruitment and retention of teachers, calls for attention and continued support for higher education. Where we find challenge, we will continue to exercise grit - the drive, stamina and fortitude to push through challenges and obstacles until success is achieved.

## District Stories

We implemented assessment tools for students, and we implemented a partnership with Visible Learning to evaluate teacher effectiveness in closing our achievement gap. This support provided intensive assessment, professional development, and on-site coaching for all staff to solidify tier 1 instruction, which will close the largest achievement gaps for all students, especially at-risk students and special education students. Also added a data analyst that provides support to PLCs, staff, and administration across the district with multiple data sources aligned to provide the best interventions for students. Summer school intercessions were offered to all students grades pre-K through 12.

After school tutoring support with transportation was provided as well as a tutoring hotline that supported English, Math, and elementary learners.

Special education ESSER funds, spend to date, was primarily used for co-teaching training provided by Baybridge and a virtual seminar by Discipline Associates. The co-teaching training and the virtual seminar provided professional development for teachers and other school staff to enable such personnel to deliver scientifically based academic and behavioral interventions, where appropriate, as these behaviors have increased as a result of COVID. ”

– Atchison USD 409

# FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

## REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024

### Glossary

#### A

**Adult Education and Family Literacy Act (AEFLA):** Federal act and state grant program that supports adult education and English language training.

**Allocation:** For the purposes of Kansas ESSER reporting, refers to funding reserved for each school district to use within the set of ESSER allowable uses to address incremental COVID-19 needs. Under ESSER, school districts are allocated funding for discretionary use across a set of allowable uses. This funding is theirs to spend through the duration of the program.

**Allowable Uses:** Set of eligible uses defined by the U.S. Department of Education for the federal COVID-19 elementary and secondary school funding. ESSER and EANS each have their own set of allowable uses. Districts must use their allocation within the allowable uses under ESSER, and nonpublic schools may only be approved for requested services or assistance that are eligible under EANS allowable uses. Eligible uses of funding must fall within the set of allowable uses and also address an incremental COVID-19 need.

**American Rescue Plan (ARP):** Federal COVID-19 relief package enacted March 11, 2021, which included additional funding for public schools (ESSER III) and private schools (EANS II).

#### C

**CARES (Coronavirus Aid, Relief and Economic Security) Act:** Federal COVID-19 relief package passed on March 27, 2020, which included the first COVID-19-related federal funding programs specifically for pre-K-12 education (ESSER I), as well as state discretionary funding that was partially allocated to pre-K-12 education (CRF).

**Continuous Learning Task Force Guidance:** Document developed by more than 50 Kansas educators to guide schools and school districts on how to continue to provide services for students in the immediate aftermath of school shutdowns in Spring of 2020.

**Coronavirus Relief Fund (CRF):** Funding the state of Kansas received from the federal CARES Act. A portion of this funding was allocated directly to Kansas counties that were directed to allocate a portion to local school districts as discretionary funding. School districts received \$80 million in CRF discretionary funding.

**Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act:** Federal COVID-19 relief package passed Dec. 27, 2020, which included additional funding specifically for public schools (ESSER II) and private schools (EANS I).

#### E

**EANS (Emergency Assistance to Nonpublic Schools):** Federal funding awarded to the governor and administered by the State Educational Agency (SEA) to assist nonpublic schools with COVID-19-related needs.

**Elementary and Secondary Education Act (ESEA):** Federal education law enacted to provide all children significant opportunity to receive a fair, equitable and high-quality education and to close educational achievement gaps.

**Elementary and Secondary School Emergency Relief (ESSER):** Federal funding awarded to State Educational Agencies (SEAs) for the purpose of providing local educational agencies (LEAs) with emergency relief funds to address the impact of COVID-19 on elementary and secondary schools.

## GLOSSARY

**Eligible Value:** For the purposes of Kansas EANS reporting, refers to funding for approved, eligible requests for services and assistance for nonpublic schools. Under EANS, nonpublic schools are not allocated funding for discretionary use, but instead may apply for services and assistance to address COVID-19 needs. The value of the approved services and assistance is tracked as eligible value but is not a set dollar amount allocation; if services and assistance are fulfilled for less than the original estimated cost, the remaining amount returns to the EANS funding program.

**ESSER Formula Allocation:** Portion of the state's ESSER allocation that is reserved for distribution to LEAs. Under federal law, 90% of ESSER funds are granted to LEAs by formula based on ESEA Title I, Part A allocations. This funding can then be used at the district's discretion within the set of ESSER allowable uses to address incremental COVID-19 needs.

**ESSER SPED:** Supplemental discretionary aid from Kansas' ESSER I and ESSER II allocation that the Kansas State Department of Education (KSDE) allocated to LEAs specifically to support special education services and students with disabilities.

**Expenditure:** For the purposes of Kansas CRF, ESSER, and EANS reporting, refers to funding that has been used to date by districts, interlocals or schools out of the total amount allocated or value approved.

## F

**Full-Time Equivalent (FTE):** Captures the number of full-time equivalent students by accounting for parttime students to the nearest tenth. Nonweighted, nonvirtual FTE enrollment is used to track district size in CRF and ESSER reporting.

**Headcount Enrollment:** Captures the number of total students enrolled based on headcount with no adjustments for part-time students. KSDE uses headcount enrollment to track the number of students approved for free or reduced-price lunch. This data is used as a proxy for district poverty level in CRF, ESSER, and EANS reporting.

## I

**Individuals with Disabilities Education Act (IDEA):** Federal law that ensures all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment and independent living.

## K

**Kansas Interlocals/Special Education Cooperatives:** Public education organizations that provide educational services, which may include special education services to students, in partnership with school districts.

## L

**Lag time:** A period of time between the initial district expenditure and the draw down from federal funds. This report utilizes finalized, lag data. Districts follow three steps when using federal aid to purchase goods, services or employ staff members:

1. The district budgets for the costs from the federal aid.
2. The district pays the provider or employee out of local funds once the product is received or as the work is completed. Most districts manage cash flow using reserve funds.
3. Only then may the district draw down federal aid to reimburse the expense.

Only expenses that have completed all three steps by the close of the reporting period are included in the report. Budgeted and unreimbursed expenses are captured in future reports.

## GLOSSARY

**Local Educational Agency (LEA):** A public board of education or other public authority within a state that maintains administrative control of public or secondary schools in a subdivision of a state. In Kansas, refers to Kansas school districts and interlocals.

## M

**McKinney-Vento (McKinney-Vento Homeless Assistance Act):** Federal act that authorizes the federal Education for Homeless Child and Youth Program, which provides public resources and programs in a more coordinated manner to meet the critically urgent needs of the homeless.

## N

**Navigating Change:** Document and resources developed by nearly 1,000 Kansas educators, health officials, policymakers and other stakeholders to help schools support students across remote, hybrid and inperson learning environments as they prepared for the 2020-2021 school year.

**Navigating Next:** Document developed by KSDE with updated guidance on how to support students through the end of the 2020-2021 school year and how to prepare for the 2021-2022 school year.

## P

**Perkins (Carl D. Perkins Career and Technical Education Act):** Federal act and source of federal funding to states for the improvement of secondary and postsecondary career and technical education programs.

## S

**SEA (State Educational Agency):** State agency primarily responsible for the state supervision of public elementary and secondary schools. In Kansas, refers to the Kansas State Department of Education (KSDE).

**SPARK (Strengthening People and Revitalizing Kansas) Taskforce:** Created in 2020 by Gov. Laura Kelly, this task force was a coalition of business, community and legislative stakeholders who determined investment priorities and oversaw spending of CRF dollars. In 2021, the Kansas Legislature amended the make-up of the SPARK Taskforce and refined the oversight process. SPARK will continue to play a role in the allocation of state discretionary dollars received from ARP.

## T

**True-Up:** Supplemental discretionary allocation of COVID-19 federal relief funds, as determined by the state, which provides public school districts a minimum amount of per pupil ESSER aid.

FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

**REPORT 15: EXPENDITURES AS OF SEPTEMBER 2024**

**Appendix**

The Appendix catalogues the allocations and expenditures by district for each source of federal COVID-19 relief funding utilized through the end of the reporting period. The “CRF and ESSER Aggregate” report tracks cumulative spending by district for all federal COVID-19 relief funds and is followed by reports that break out cumulative spending by district in each distinct federal funding stream. Expenditures reported in this Appendix lag behind the reporting on local expenses incurred due to federal draw down rules and the time needed for fiscal oversight and processing at state and local levels.
