# Federal COVID-19 Funding for Kansas Public and Private Schools

REPORT 3:

EXPENDITURES AS OF SEPTEMBER 30, 2021

**QUARTER SIX** 

Kansas leads the world in the success of each student.

# **REPORT 3: SEP. 2021 Q6**

Dr. Randy Watson Kansas Commissioner of Education

Since March 2020, Kansas educators, school administrators, support staff, parents, and students have faced unprecedented challenges due to the global COVID-19 pandemic. Our top priority remains, as it has from the beginning, to ensure the safety and well-being of our students while keeping them engaged in quality learning under extraordinary circumstances. We have had to navigate uncharted waters together and respond to conditions that changed frequently.

Throughout this period, the Kansas State Department of Education (KSDE) has provided guidance to public and private schools to help them navigate the disruption caused by the COVID-19 pandemic. KSDE support has included resources guides, technical assistance, direct financial support for targeted local needs and well as assurance and oversight to maximize the benefits of the federal aid.

A series of timely resource guides were launched by the Continuous Learning Task Force<sup>1</sup>, established in response to the global pandemic and comprised of over 50 volunteer educators and administrators, which developed the first guide in only 72 hours. During the summer of 2020, KSDE worked with nearly 1,000 administrators, educators, legislators, and health officials to develop Navigating Change<sup>2</sup>, a set of comprehensive guidelines developed to continue supporting students through the 2020-2021 school year, across the range of the learning environments required for safety. In the second half of the 2020-2021 school year, KSDE developed Navigating Next<sup>3</sup>: an education action plan to guide districts through the completion of the school year and preparation for the future. The use of technology was leveraged largely by our districts serving more densely populated communities, to balance safety and equitable access to a quality education for all students through hybrid and remote learning modes.

The promise of multi-year federal relief funds bolstered our resilient teachers and leaders, across the state, with the recognition that the many impacts of the pandemic would take time, tools and increased capacity to address. KSDE re-allocated the majority of the state funds locally to ensure every district received a minimum level of financial relief and to strengthen support for students with disabilities. Thanks to reporting by our public and private schools, the Kansas State Department of Education, and the Kansas Office of Recovery, we present the third report on the utilization of federal COVID-19 crisis response, relief, and recovery funds. The data summarized are cumulative through Sep. 2021.

Federal relief funding was, and will continue to be, critical to our schools over the next several years, as they manage the ongoing COVID-19 crisis while staying focused on the Kansas State Board of Education's ambitious vision of leading the world in the success of each student. We will report quarterly on the cumulative use of funding, as Kansas continues to support student learning and growth. Despite the difficulties of the pandemic, I believe now more than ever that when we come together, Kansans Can.

Sincerely,

Dr. Randy Watson

Kansas Commissioner of Education

# REPORT 3: SEPTEMBER 2021 Q6

# Executive Summary Spend At A Glance

Context of Reporting Period July 2021-September 2021

#### **QUARTERLY REPORTS**

This report is the third in a series of quarterly updates on the cumulative use of federal COVID-19 relief funds by public and private K-12 education, approved by the Kansas State Board of Education. Note that the final draw down of federal funds lags behind school expenditures, as can be seen in the Appendices. This temporary discrepancy reflects the time needed to implement federal accounting processes and fiscal oversight.

By September 2021, Kansas public and private schools were starting their third school year of teaching and learning during a global pandemic. This quarterly reporting period (Q6) also marked the first opportunity for districts to allocate federal relief dollars for learning recovery through summer school. Protocols to manage the spread of COVID-19 for the coming school year were updated with input from public health officials and adapted for local implementation. In-person and virtual learning modes were the two options available to students and parents. Remote learning was restricted by the Kansas Legislature to 40 hours per year, per student, effective fall 2021¹. The challenge of providing an in-person learning environment that was safe and minimized disruptions to learning tended to impact districts differentially. High-enrollment districts were more likely to rely on the full range of mitigation protocols, including masking requirements, volunteer vaccinations, testing, social-distancing, exclusions and sanitization.

**Kansas State Department of Education established and refined a series of assurance processes** over the course of the first year of the global pandemic to maximize potential benefits and assist public and private school use of federal relief funds as intended. Approved use of federal aid can be drawn down incrementally and is intended for use through September 2024 (see Table 1). Draw down of federal aid was preceded by an oversight process that began with locally developed plans, submitted through common state application and multi-step approval process, and then followed by a state financial audit of locally incurred expenses (see Table 3). Relief funds flow from three consecutive federal acts, authorized in March 2020, December 2020 and March 2021.

**The federal relief funds eligible for expenditures** during this reporting period included Elementary and Secondary Emergency Education Relief (ESSER) I, ESSER I Special Education (SPED), ESSER II and ESSER II SPED for public schools and Emergency Assistance to Nonpublic Schools (EANS) I for private schools (see Table 1). Public school districts must first expend all of their ESSER I related funds before tapping into their approved ESSER II award.

The Coronavirus Relief Fund (CRF), provided directly to districts by the counties and the **first source of federal relief funding, was completely drawn down (100% expended)** by March 2021 prior to this reporting period. Those expenditures are accounted for in Report 1<sup>2</sup> and will not be repeated here.

**Districts continued to navigate unprecedented supply chain disruptions, increased staffing demands and staff shortages.** While the federal government waived fees for school meals for a second year, food services departments in districts across the state have been challenged. The combination of unfilled food supply orders, staff shortages, and increased student demand has stressed districts' capacity for daily delivery of a hot lunch and breakfast. Shortages of classified staff members, including paraprofessionals, custodians, bus drivers and maintenance personnel have disrupted transportation services and added duties to existing staff. Shortages of teachers and other certified staff members in some parts of the state stressed capacity to deliver programs and services.

**Needed summer learning recovery was offered in balance with staff and student mental health needs.** More than half of public school districts, and at least a third of participating private schools expended federal funds to offer summer school enrichment and credit recovery. The urgency to begin student **learning recovery** also created challenges. In addition to shortages of qualified staff members, some school leaders had to balance the immediate mental health needs of educators and students in need of a break after a stressful 15 months, with the opportunity to begin the long-term process of **learning recovery**.

**Most districts operated in-person throughout the 2020-2021 school year.** At least three-quarters of public school students in Kansas were either in-person full-time or in-person part-time via hybrid learning mode. All Kansas districts offered in-person learning by March 31, 2021, while a portion of Kansas public school students and families chose to remain in remote learning mode all throughout last year.

# TOTAL EXPENDITURES THROUGH SEPTEMBER 2021 Q6

Public and private schools continued to leverage federal relief funds through the summer and fall of 2021. During this reporting period, education services were delivered at a time when the wave in COVID-19 community spread was low statewide but began a rapid upturn because of the Delta variant.<sup>3</sup>

**Summary of Funding and Expenditures.** Multiple incremental funding sources were available during this sixth quarter reporting period, ending Sept. 30, 2021. However, the funds are expended in order of availability. The initial Coronavirus Relief Fund (CRF), for example, has been completely expended, while just 7% of the more recent ESSER II funds have been depleted. Cumulative ESSER funds expended through this reporting period were \$155 million by public school districts and \$3.2 million of EANS funds by private schools.

Per pupil funding varies, in part, by federal relief package. The ESSER I fund allotted, on average, about \$186 per Kansas public school student, including administrative fees. The ESSER II fund award allotted about \$788, on average, per student attending public schools and about \$1,350 per student attending approved private school applicants (see also Table 1).

#### Figure 1: Summary of Public School Funding and Expenditures (Q6)

Four incremental funding sources were available to public schools during this sixth quarter reporting period, ending Sept. 30, 2021. As noted in Figure 1, 96% of ESSER I funds were expended, 86% of ESSER I SPED were expended, 14% of ESSER II were expended, and 4% of ESSER II SPED were expended as of September 2021. Cumulative draw down from all public school funds averaged \$447 per pupil as of September 2021, including the initial \$80 million CRF funds that were completely expended by Q4. Per pupil expenditures were estimated based on a total student count of 451,579 annually in public schools across Kansas and for which 46% on average were eligible for free or reduced-priced lunch program (see Appendices, p. 47).

Figure 2 - Summary of Private School Funding and Expenditures (Q6)

One of the two incremental funding sources were available to private schools and expended during this sixth quarter reporting period. **As noted in Figure 2, about 14% of EANS I have been expended**. The Kansas State Board of Education approved plans for \$22.3 million of the \$27 million EANS I allotment through Q6. Cumulative draw down from private school EANS I funds averaged \$201 per pupil as of Sept. 30, 2021, an estimate based on a total student count of 17,008 annually. On average, 25% of the private school students were eligible for free or reduced priced lunch program or received a scholarship, among the approved EANS I recipients (see Appendices, p. 103).

Note: About \$4M of the state's \$27M EANS I award was still available for approval through Q6.

#### TOP USES OF FEDERAL RELIEF FUNDS

Local expenditures were self-reported by the federally defined allowable use categories. The Commissioner's Task Force on ESSER and EANS<sup>4</sup>, charged with oversight and guidance on the use of these federal funds, identified two broad use categories to better understand how pre-K-12 education is maximizing the allowable uses. Learning Recovery are COVID-19-related expenditures that most directly impact students and support for student learning. Safe Learning Environment are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and daily sanitization demands. One allowable use, Continuity of Operations, reflects both broad types of expenditures and includes one-time premium payments for teachers and support staff members.

All had hoped to focus primarily on learning recovery heading into this third school year, but continuation of the global pandemic extended the need to continue using a portion of federal resources to maintain a safe learning environment of in-person learning mode. Public health professionals continued to partner with education leaders to refine and implement risk mitigation protocols to reduce transmission, keeping students and staff safe and in school to the extent possible.

Figure 3 - Public: Allowable Use Expenditures across All Available ESSER Funds (Q6) -

Of all available ESSER funds combined and approved<sup>5</sup> for drawn down, \$91 million, or nearly 60% of funds, have been used to address **learning recovery**, and \$41 million, or 26%, were expended to ensure a **safe learning environment**. The top two allowable use categories as of Sept. 30, 2021 accounted for 44% of public school district expenditures (\$68.3 million), including **education technology** (29%) and **continuity of operations** (15%). Another third of all ESSER funds expended spanned four additional use categories: summer and supplemental learning (9%), supplies to sanitize and clean schools (9%), learning loss (8%) and remote student needs (7%).

Note: Categorization based on self-reported function/object codes and allowable uses from districts; data includes ESSER I, ESSER I SPED, ESSER II, and ESSER II SPED expenditures.

Figure 4 - Private: Allowable Use Expenditures for All Available EANS Funds (Q6)

Of the EANS funds approved<sup>6</sup> for drawn down, \$3 million, or 90% of funds, have been used to address learning recovery and \$0.3 million, or 10%, were expended to ensure a safe learning environment. The top two uses as of Sept. 30, 2021 accounted for 74% of private school expenditures (\$2.4 million), including learning loss (40%) and educational technology (34%). The remaining uses accounted for a quarter of the expenditures, primarily for summer learning (16%). EANS I expenditures to address mental health needs tended to be self-reported as "redeveloping instructional plans" or "initiating and maintaining education and support services" to address learning loss, coded under use category 12 Learning Loss.

Note: Categorization based on self-reported allowable uses from private schools, where \*10 Mental Health related expenditures coded as 12 Learning Loss; data include EANS I expenditures.

# **REPORT 3: SEPTEMBER 2021 Q6**

# **COVID-19 Context for Current Reporting Period**

July 2021-September 2021

# QUARTERLY REPORTING OF CUMULATIVE EXPENDITURES

This report is the third in a series of quarterly reports documenting the cumulative use of federal COVID-19 relief funds by Kansas public and private schools (Report 3, Q6). The series is intended to summarize the ways in which Kansas public and private schools have used federal COVID-19 funding to address pandemic-driven needs. Federal funds available to districts through September 2021 (Q6) include ESSER I, ESSER I SPED, ESSER II and ESSER II SPED for public education and EANS I for private schools. Report 1 (Q1-Q4)¹ summarizes district expenditures used to keep students and staff members safe while engaging youth in learning, during the first four quarters of the global pandemic. Report 2 (Q5)² summarizes cumulative expenditures through June 2021. Report 4 (Q7) will be released in April 2022, accounting for cumulative expenditures through December 2021.

## ONSET OF THE GLOBAL PANDEMIC

Kansas public and private schools were approaching 2020 spring break when the COVID-19 pandemic took hold. In a matter of days, schools across Kansas shut down in-person classes and campus operations, but teaching and learning continued. Teachers and staff members suddenly had to redesign lesson plans for remote learning and find alternative ways to provide meals, counseling, and other support services. Students of all ages found themselves adapting to a new digital classroom where they no longer sat side-by-side with their peers. This transition was more difficult for students without access to the technology and connectivity necessary to attend their classes. More broadly, administrators were tasked with formulating plans to both effectively manage the new remote way of operating and plan for a safe return to in-person learning. Kansas schools were facing a crisis that was unfolding across the country: effectively meeting student needs against the rapidly changing backdrop of a global pandemic.

#### **District Stories**

ESSER II funding has primarily been used to provide supports around learning loss and social-emotional supports to students, as well as supporting our new virtual school. ESSER II SPED has been used to provide services to virtual school students with disabilities.

- Olathe USD 233

#### **CONTINUATION OF COVID-19**

As the unprecedented 2020-2021 school year came to an end, school administrators persisted and prepared for summer school. Needed summer learning recovery was offered in balance with meeting staff members and student mental health needs.

• Over 50% (151) of public school districts used federal funds to offer summer enrichment and credit recovery to well over half of all public school students, and at least 36% (27) of private schools allocated funds to support summer enrichment.

The urgency to begin student learning recovery also created challenges. In addition to shortages of qualified staff, some school leaders had to balance the immediate mental health needs of educators and students in need of a break after a stressful 15 months, with the opportunity to begin the long-term process of learning recovery. KSDE reached out to statewide partners and leveraged federal funds to augment local summer learning recovery opportunities. This partnership generated the Summer Sunflower enrichment program<sup>3</sup> for all Kansas youth and their families (see Table 1 for more information).

#### **District Stories**

This quarter, we utilized the funding to support our summer school for K-12. This included using 16 staff members for 19 days at four hrs/ day. Targeting 180 students in need. We also purchased reading instructional supplies to address the learning loss among students, including vulnerable populations in pre-K-12 during the regular school year. These two instructional supplies are SONDAY and Really Great Reading. 99

- Holton USD 336

#### **District Stories**

Sunflower Summer program gives students chance to learn while visiting attractions. Families can download app to begin educational adventures across Kansas." All for free. Sunflower Summer Program | Washington County Schools (usd108. org)4.99

- Washington County Schools USD 108

#### **COVID-19 CONTEXT FOR CURRENT REPORTING PERIOD**

While the option for in-person learning was available in every public school district by the end of March 2021, pre-K-12 education did not return to *normal*. Fall 2021 kicked off with the recognition that COVID-19 was not wholly behind us, both a shared source of frustration across Kansas, as well as, a testament of educators' sheer determination to find a way forward for students and families. **Disruptions to teaching and learning continued due to a variety of factors.** 

- Those students returning from nearly a year and a half of virtual and remote learning modes struggled to regain the focus and rhythm required to be engaged in school for seven to eight hours a day.
- Staff shortages added an extra demand on existing teachers, custodians, nurses, food service and maintenance staff, administrators and bus drivers left to cover essential services.
- Supply chain disruptions added an additional layer of complication and stress to the adults responsible for providing a hot lunch and breakfast to students (with demand on the rise following federal lunch fee waivers) or keeping sanitization and PPE supplies on hand, in addition to typical building supplies.
- Days out of school with the coronavirus or in quarantine to minimize additional exposures, removed students and staff members from the classroom, as did a rise of chronic absenteeism.
- Maintaining a safe learning environment and school doors open required some reduction in extracurricular opportunities and time each day to implement risk mitigation protocols.
- School districts in Kansas and across the country saw a marked increase in retirements among superintendents and district administrators, noticeably greater than the typical rate, triggering changes in district leadership at a critical juncture.

Steps to minimize disruptions called for extraordinary resource allocation across a variety of fronts: to pay custodial overtime and purchase sanitation supplies; to recruit needed substitute teachers and paraprofessionals; to secure aid time needed to cover social distancing during lunch period; and to hire additional counselors and teachers needed to begin learning recovery. All these costs exceeded services being restored under the Gannon resolution. **These needs represented significant, incremental upfront costs on top of the regular operating expenses** that districts incurred to continue providing services to students in the near-term and to begin addressing **learning recovery** in the medium- and long-term.

The 4th graders today have not had a typical school year since they were in 1st grade.

# REPORT 3: SEPTEMBER 2021 Q6

# **Federal Funding Sources**

Federal relief funding has been essential to Kansas public and private schools in their efforts to minimize disruptions to learning, while keeping students and staff safe though the global pandemic and waves of community spread. A summary of all the COVID-19 federal relief funds for public and private schools is provided here (see Table 1). More details on the different funds can be found in Report 1 of this series and on the KSDE website<sup>1</sup>. During a 12-month period, the federal government passed three consecutive COVID-19 relief packages, all of which included funding set aside for pre-K-12 education. These incremental funding streams provide critical resources needed, above and beyond restoration of state funds needed to address the aspirational goals of the Kansans Can Vision. Private school systems were also eligible for the Paycheck Protection Program (PPP)<sup>2</sup> to address educational needs immediately following the time of COVID-19 onset. After December 2020 however, private schools had to choose either PPP or EANS I federal aid to address. learning disruptions caused by the global pandemic.

QUICK F	REFERENCE
ARP Act	American Rescue Plan Act
CARES Act	Coronavirus Aid, Relief, and Economic Security Act
CRRSA Act	Coronavirus Response and Relief Supplemental Appropriations Act
EANS	Emergency Assistance to Nonpublic Schools
ESSER	Elementary and Secondary School Emergency Relief Funds

The first federal COVID-19 funding streams for Kansas pre-K-12 education were established under the CARES Act<sup>3</sup> on March 27, 2020. The CARES Act included specific funding for public and private schools, known as the CRF and ESSER I. These two streams represented the only incremental funding sources for Kansas school districts in 2020. Districts were expected to manage these funds, without the assumption of further relief. Uncertainty about the continuation of federal aid and their allowable uses persisted for school leaders nearly a year into the pandemic, until the passage of the CRRSA Act<sup>4</sup> by Congress on Dec. 27, 2020 (H.R. 133). The CRRSA Act included specific funding for EANS I for private schools and ESSER II for public schools, ESSER funds are required to be allocated to public school districts through the Title I formula, where 90% of the award flows directly to USDs and 10% may be allocated at the discretion of the state. EANS I funds were distributed on a competitive application process per federal guidelines to eligible private schools, based in part on poverty levels, defined as a function of free and reduced-price lunch participation or scholarship recipient. Additional funding for districts and private schools was signed into law March 11, 2021, through the ARP Act<sup>5</sup>, including EANS II and ESSER III. Eligibility for EANS II funds must follow stricter federal poverty guidelines. Summer of 2021 was the first time district leaders could assess medium-term and long-term needs with the assurance of resources to craft a more measured, strategic approach to their learning recovery plan and ongoing impacts of the global pandemic on pre-K-12 education.

**This reporting period** includes expenditures from district ESSER I and ESSER II funds, along with the state's portion of funds released by KSDE to support local special education services, referred to as ESSER I SPED and ESSER II SPED. All CARES Act funds must be draw down by September 2022, with authorization to reimburse COVID-related expenditures dating back to March 12, 2020. All CRSSA Act funds must be draw down by September 2023. School districts and private school systems have one year to obligate the funding after it is received. Funding appropriately obligated for grant activities that extend beyond the obligation date is allowable.

#### Table 1 - Summary of COVID-19 Federal Education Relief Funding —

#### Coronavirus Relief and Economic Security (CARES) Act

\$164M total for Kansas. Signed into law on March 27, 2020.

CARES ACT		DESCRIPTION	ALLO \$164	CATION M	SPEND DEADLINE	 PUPIL WARD
CRF	Discretionary	Coronavirus Relief Fund SPARK <sup>6</sup> (Strengthening People and Revitalizing Kansas) funding allocated to districts by counties to address:  • COVID-19-related needs.  • Statewide reporting required.  • Eight allowable uses.  * These funds are not administered through KSDE.	\$	80M	Originally Dec. 2020 Extended to March 2021	
ESSER I	Formula	Elementary and Secondary School Emergency Relief (ESSER) federal funding allocated according to the federal Title I formula directly to districts, 15 federal allowable uses.	\$	76M	Sept. 2022	\$ 186
ESSER I SPED	Discretionary	The portion of state education agency (SEA) discretionary funding, allocated to districts by the Kansas State Board of Education (KSBE) for special education purposes, subject to the same 15 federal allowable uses.	\$	8M	Sept. 2022	

#### Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act

Allocation: \$385M total for Kansas. Signed into law on December 2020.

CRRSA ACT		DESCRIPTION	ALLOCATION \$385M	SPEND DEADLINE	PER PUPIL BY AWARD
EANS I	Competitive	Emergency Assistance for Nonpublic Schools (EANS) funding for private schools administered by the SEA with a more restrictive set of federal allowable uses.	\$ 27M	Sept. 2023	\$ 1,350
ESSER II	Formula	ESSER federal funding allocated according to the federal Title I formula directly to districts after spending plans approved by KSBE, 15 federal allowable uses.	\$ 333M	Sept. 2023	\$ 815
ESSER II SPED	Discretionary	The portion of SEA discretionary funding, allocated to districts by KSBE for special education purposes, subject to the same 15 federal allowable uses.	\$ 12M	Sept. 2023	
ESSER II True Up	Discretionary	KSBE directed supplement to formula aid that ensures all school districts receive no less than \$300 per student.	\$ 11M	Sept. 2023	

#### American Rescue Plan (ARP) Act

\$856M total for Kansas. Signed into law on March 2021.

ARP ACT	ALLOCATION TYPE	DESCRIPTION	ALLOCATION \$856M	SPEND DEADLINE	PER PUPIL BY AWARD
EANS II	Discretionary	EANS funding for private schools, administered by the SEA with a more restrictive set of federal allowable uses.	\$ 25M	Sept. 2024	\$ 2,769
ESSER III		ESSER federal funding allocated according to the federal Title I formula directly to districts after spending plans approved by KSBE 15 federal allowable uses.	\$ 748M	Sept. 2024	\$ 1,701
ESSER III True Up	Discretionary	KSBE directed supplement to formula aid that ensures all school districts receive no less than \$625 per student ESSER III.	\$ 20M	Sept. 2024	

Note: Discretionary grants: Funding may be directed by state agency, within limitations established by Congress. Competitive: Awarded using priority criteria established by Congress. Formula grants: Disbursed using formulas determined by Congress (such as Title I). The SPARK (Strengthening People and Revitalizing Kansas) Task Force determined investment priorities for the CRF funding received by the state.

The use of COVID-19 relief aid is restricted to **federally defined list of categories**, as noted in the CRRSA Act and carried through the ARP Act5 (see Table 2). The Allowable Use categories under ESSER for public school districts and under EANS for private school systems are somewhat similar. Substantial overlap exists in allowable supports, but they are separate programs with different parameters governing the use of funds. One main difference stems from general restrictions on use of federal dollars. Under the ESSER program, public school districts receive direct funding and all equipment and supplies utilized to support the schools remain the property of the public agency. Nonpublic schools can only receive public funds indirectly and equipment must be returned at the end of the program. The EANS program provides services, supports, and assistance through a competitive application process to eligible nonpublic schools to address educational disruptions caused by COVID-19. The ESSER program distributes all funds through the Title I formula, with no additional restrictions beyond the identified allowable use categories. All public school districts and private schools must submit plans for approval by the State Board of Education

In Kansas, the Commissioner's Task Force on ESSER and EANS is charged with providing oversight and guidance on the use of these funds. The Task Force has grouped the long list of categories into two broad types of expenditures to better understand and maximize use of funds. Learning Recovery are COVID-19-related expenditures that most directly impact students and support for student learning. Safe Learning Environment are expenditures more closely aligned with COVID-19 safety coordination, mitigation protocols and pandemic-related facility modifications and daily sanitization demands. The color coding in Table 3 indicates the seven gold allowable uses aligned with **Learning Recovery** and the eight blue allowable uses aligned with Safe Learning Environment. One allowable use, Continuity of Operations, reflects both broad types of expenditures.

#### **District Stories**

With the submission of [this] report, USD 466 exhausts all of our ESSER I funds. The funds were used in response to COVID (supplies, masks, sanitation), to prevent the spread of viruses (indoor air quality work), and to address student recovery (summer school). Each of these three areas were positively influenced with the extra financial support via ESSER.

- Scott County USD 466

The ESSER II funds for the quarter consist of providing summer school at our elementary, middle, and high schools. Teachers and paras were paid to provide instruction and intervention to students to address learning loss and loss of credits due to COVID. We also provided bus transportation and meals, so funds were used to pay bus drivers and kitchen staff. Funds were also used to purchase professional development for teachers to address learning loss due to COVID, as well as purchasing curriculum to address learning loss, credit recovery, and social and emotional issues. due to the trauma from COVID. Professional development was provided in reading and dyslexia for Journeys and Sonday (Orton Gillingham). Curriculum purchased was Edgenuity, Panorama, and Second Step.

- Tonganoxie USD 464

### **Table 2: Federal Allowable Use Categories**

US	E TYPE	Learning Recovery  Safe Learning Environment Combination of Both
ESSER	EANS	ALLOWABLE USE CATEGORIES
1	_	<b>ESEA, IDEA, AEFLA, Perkins, and McKinney Vento Activities:</b> Any activity authorized by the ESEA of 1965.
2	2	<b>Coordination of COVID-19 Response:</b> Coordination of preparedness and response efforts of local educational agencies with relevant agencies.
3	_	<b>Resources to Address School Needs:</b> Provide school leaders with the resources necessary to address the needs of their individual schools.
4	_	<b>Unique Needs of Student Populations:</b> Activities to address the unique needs of student populations with special needs.
5	_	<b>Improvement of LEA Response Efforts:</b> Developing and implementing procedures and systems to improve the preparedness and response.
6	6	<b>Training on Minimizing Spread:</b> Training and professional development for local staff on sanitation and minimizing the spread of infectious diseases.
7	7	<b>Supplies to Sanitize and Clean:</b> Purchasing supplies to sanitize and clean the facilities of a local educational agency, including purchase of personal protective equipment (PPE) and other materials or supplies for reopening and safe operations.
8	8	<b>Addressing Remote Student Needs:</b> Plan and coordinate for long-term closures, including meals, technology, IDEA, consistency with requirements.
9	9	<b>Educational Technology:</b> Purchasing educational technology, including hardware, software, and connectivity for students.
10	10	Mental Health: Providing mental health services and supports.
11	11	<b>Summer and Supplemental Learning:</b> Plan and implement activities related to summer learning and supplemental afterschool programs, including reasonable transportation costs.
12	12	<b>Learning Loss:</b> Address the academic impact of lost instructional time among a local educational agency's students, including redeveloping instructional plans or initiating and maintaining education and support services.
13	13	<b>Facility Repairs and Improvements:</b> School facility repairs and improvements to enable operation of schools to reduce risk of virus transmission, including physical barriers to facilitate social distancing, create signage and leasing space.
14	14	<b>Indoor Air Quality:</b> Inspection, testing, maintenance, repair, replacement, and upgrade projects to improve the indoor air quality in school facilities, including portable ventilation systems.
15	15	<b>Public Health Protocols for Reopening:</b> Developing strategies and implementing public health protocols in line with CDC guidance, expanding capacity to administer COVID testings, including hiring nurses.
16	_	<b>Continuity of Operations:</b> Other activities that are necessary to maintain the operation of and continuity of services and employ existing staff.

**Note:** All 16 authorized use categories are allowable under the ESSER program. The EANS programs includes some of the same use categories, but not all are allowable by nonpublic schools.

This page blank for printing purposes.

# REPORT 3: SEPTEMBER 2021 Q6

# **KSDE Oversight and Supports**

From the beginning of shutdowns and throughout the global pandemic for this reporting period, Kansas State Department of Education (KSDE) has provided oversight, financial support and guidance to pre-K-12 public and private schools.

#### Table 3. KSDE Support for Schools

#### **KSDE Assurance Process**

A series of checks were put in place and refined over the course of the first year of the global pandemic to assure public school districts and private school systems used federal relief funds as intended. Commissioner of Education, Dr. Randy Watson created the Commissioner's Task Force on ESSER and EANS in February 2021 to offer guidance and oversight of plans developed for expenditure of federal funds. Details on the Task Force can be found on the KSDE website. An application process, developed by the KSDE, was implemented to gather the information necessary to help schools comply with state and federal law, approve applications, and report regularly on the use of EANS and ESSER funding. The Task Force was established to review applications in recorded public meetings, and ensure all information entered in the application is made available for public disclosure. During Task Force weekly meetings, applications were reviewed for recommendations to the Kansas State Board of Education for final review and approval. The public school application window has been rolling, in part, to manage the volume of applicants. The private school application window was opened just weeks after the award notice and closed early April 2021, and was competitive. The State Board of Education held a special meeting in mid-April to expedite the review, award approval or allow appeal with revisions by last week of April. Expenses incurred by public school districts are self-reported by allowable use categories and submitted to KSDE monthly for financial audit prior to release of federal allocations for drawn down. Oversite of expenses incurred by and for private school use is managed by Greenbush Service Center. The Service Center then submitted expenses to KSDE for audit and drawn down of FANS funds.

#### **KSDE Finance Support for Schools**

Ten percent of each successive ESSER fund was awarded to KSDE, with 0.5% of the funds set aside for administration. KSDE directed significant portion of their allocation through this reporting period to support COVID-19 related needs of local special education services.

- **ESSER SPED I and II.** KSDE directed portion of state's funds to bolster support for USD special education services, \$8 million ESSER I SPED and \$12 million ESSER II SPED. This funding can be used by districts across the same set of ESSER allowable use categories and in the same timeframe but must be specifically targeted to special education.
- **ESSER True Up II and III.** Another portion of the state's ESSER funds were allocated to public school districts who did not qualify for federal relief aid through Title I criteria, referred to as a True Up (see Glossary). Every USDs received a minimum of \$300 per pupil for ESSER II True Up (\$11 million total) and a \$625 minimum per pupil for ESSER III True Up (\$20 million total). The Kansas State Schools for the Deaf and the Blind also received \$150,000 for eligible COVID-19 related expenditures.<sup>2</sup>

#### Table 3. KSDE Support for Schools

#### KSDE Resource Guides

The Continuous Learning Task Force Guidance<sup>3</sup> was developed in just 72 hours in mid-March of 2020 by 50 educators convened by KSDE. The rapid deployment of this guidance enabled districts to pivot quickly to their new remote-learning environments while minimizing disruptions to learning. During the summer of 2020, KSDE worked with nearly 1,000 Kansans to develop Navigating Change: Kansas' Guide to Learning and School Safety Operations<sup>4</sup>. This comprehensive document was designed to help schools continue supporting students across multiple learning environments, with details on core competencies, assessments, and implementation across learning topics by grade level. In the second half of the 2020-2021 school year, KSDE developed Navigating Next<sup>5</sup>, an education action plan to guide districts through the completion of the school year and preparation for the next.

# REPORT 3: SEPTEMBER 2021 Q6 Summary of Expenditures

July 2021-September 2021

When considering the cadence of relief fund expenditures, it is important to note that **a lag occurs between the initial district spending and the draw down of federal funds** for reimbursement. Reimbursement for allowable uses may only be drawn down after district costs are incurred. Draw down on ESSER I funds were rapid between July and September of 2020 as districts prepared for the upcoming school year. Since then, draw downs have maintained a relatively consistent pace.

This summary of expenditures provides brief analyses by ESSER funds, EANS funds, summer and supplemental learning recovery, special education, and by demographics of the districts and private schools.

Expenditures were self-reported by public and private schools, in accordance with federally defined allowable uses, through a reporting process administered by KSDE with support for private schools from Greenbush Service Center. The **cumulative expenditures** by Kansas public school districts exceeded \$155 million of available ESSER funds, and expenditures by private schools reached \$3.2 million of available EANS funds.

**Per pupil funding** reported as a function of the total federal relief allotment, varies by fund and ranges between \$186 to \$2,769 per student. While the total award for students in public schools is larger, the average per pupil allocation for private school students is greater. The actual per pupil expenditure fluctuates as funds are spent and are reported in the Appendices each quarter, by fund and by school district or private school.

#### Per Pupil Allotment by Fund

PUBLIC SCHOOL FUND	PER PUPIL	ALLOCATION	PRIVATE SCHOOL FUND	PER PUPIL	ALLOCATION
ESSER I	\$	186	_	\$	_
ESSER II	\$	815	EANS I	\$	1,350
ESSER III	\$	1,701	EANS II	\$	2,769

**Note:** Private, nonpublic schools were eligible for PPP federal relief funds during the time period immediately following onset of the global pandemic

**Rate of fund depletion** as of Sept. 30, 2021, reflects the incremental nature of the awards. Of the 286 Kansas public school districts, 96% had drawn down their entire ESSER I allotment, 93% had drawn down all SPED I funds, while just 18% of USDs had spent the entirety of the more recent ESSER II funds, and only 13% of USDs having expended all of their ESSER II SPED allotment (see Figure 5). As EANS funds became available for use just prior to this reporting period, none of the private schools expended their allotment in Q6 (see Figure 6).

Figure 5 - Public: Number of Districts That Have Used All Their Allocation by Fund —

Figure 6 - Private: Number of Schools That Have Used All Their Allocation by Fund -

# **ESSER Public School District Expenditures**

Four incremental ESSER funds were available to Kansas public school districts during this reporting period. The cumulative expenditures exceeded \$155 million of available ESSER funds. As noted previously, \$91 million, or nearly 60% of funds, have been used to address **Learning Recovery** and \$41 million, or 26%, were expended to ensure a **Safe Learning Environment** (refer back to Figure 3).

#### **ESSER I EXPENDITURES**

As of Sept. 31, 2021, districts had incurred expenses for \$73 million of the \$76 million they were allocated under ESSER I funds. The majority of expenditures (96%) were mapped to the following four allowable uses (see Figure 7):

- Educational technology: \$23 million (31%)
- Supplies to sanitize and clean facilities: \$12 million (16%)
- Addressing remote student needs: \$10 million (13%)
- Continuity of operations: \$10 million (13%)

Of ESSER I expenditures, 51% of allowable uses were on Learning Recovery, with 36% associated with Safe Learning Environment. Continuity of Operations represents 13% of expenditures for allowable uses in both categories, including one-time premium pay.

Figure 7 - Public: Allowable Use Expenditures across Available ESSER I Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER I expenditures.

#### **District Stories**

Funding was spent to address distinct learning needs to students with summer school for grades K-12. Additional staffing was appropriated for COVID-19 screenings, contact tracing, instructional support, summer school teachers, administration, administration support, transportation, etc. Instructional and technology materials were purchased to enhance the instruction provided, provide instructional/emotional support regarding students who have fallen behind.

- Wamego USD 320

#### ESSER I SPED EXPENDITURES

As of Sept. 30, 2021, public school districts had incurred expenses for \$7 million of the \$8 million of ESSER I SPED allocation. The majority of expenditures (56%) were mapped to the following three allowable uses (see Figure 8):

• **IDEA:** \$1.4 million (22%)

• Continuity of Operations: \$1.2 million (19%)

• Unique Needs of Special Populations: \$1 million (15%)

Of ESSER I SPED expenditures, 68% of allowable uses were on Learning Recovery, with 13% associated with Safe Learning Environment. Continuity of Operations represents 19% of expenditures for allowable uses in both categories, including one-time premium pay.

\$1.4M 22% \$1.2M \$6.4M total expended through Q6 19% \$1M 15% \$0.6M \$0.6M 9% 9% \$0.4M \$0.4M \$0.3M 6% \$0.2M 6% \$0.1M \$0.1M \$0.07M \$0.1M \$0.4M \$0.01M \$0.01M 1% 1% <1% <1% 1. Figure 8 - Allowable Use Expenditures across Available ESSER I SPED Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER I SPED expenditures.

#### **District Stories**

For the ESSER I SPED allocation, we hired two new SPED teaching positions to help meet the needs of our students. These two positions are estimated to be around \$55,000 each with salary and benefits for a total cost of \$110,000. As of March 31, we had paid out just over \$65,000 in actually salary and benefits, which covers the \$62,070 allotment. We plan to assign the difference to ESSER II funding.

- Spring Hill USD 230

#### **District Stories**

ESSER I SPED has been used as well for the same two primary focuses. Additional specialized personal protective equipment was purchased for staff working in-person with students with disabilities. An exclusive resource teacher has been dedicated to students with disabilities learning remotely and electronic signature software was acquired to facilitate requirements of IDEA.

- Olathe USD 233

#### **District Stories**

ESSER I SPED funds have been used to purchase PPE materials and MacBooks for paras to allow for remote instruction.

Shawnee
 Mission
 USD 512

#### **ESSER II EXPENDITURES**

As of Sept.30, 2021, public school districts had incurred expenses for \$75 million of their \$344 million ESSER II allocation. The majority of expenditures (75%) were mapped to the following four allowable uses (see Figure 9):

- Educational Technology: \$22 million (29%)
- Continuity of Operations: \$12 million (16%)
- Summer and Supplemental Learning: \$12 million (16%)
- Learning Recovery: \$11 million (14%)

Of ESSER II expenditures, 65% of allowable uses were on Learning Recovery, with 19% associated with Safe Learning Environment. Continuity of Operations represents 16% of expenditures for allowable uses in both categories, including one-time premium pay.

Figure 9 - Allowable Use Expenditures across Available ESSER II Funds

**Note:** Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER II expenditures.

#### ESSER II SPED EXPENDITURES

As of Sept. 30, 2021, districts had incurred expenses for \$1 million of the State's \$24 million ESSER II SPED allocation. The majority of expenditures (60%) were mapped to the following three allowable uses (see Figure 10):

• **IDEA:** \$0.4 million (25%)

• Continuity of operations: \$0.2 million (19%)

• **Learning Loss:** \$0.2 million (17%)

Of ESSER I SPED expenditures, 71% of allowable uses were on Learning Recovery, with 10% associated with Safe Learning Environment. Continuity of Operations represents 19% of expenditures for allowable uses in both categories, including one-time premium pay.

Figure 10 - Allowable Use Expenditures across Available ESSER II SPED Funds

Note: Categorization based on self-reported function/object codes and allowable uses from districts; data include ESSER II SPED expenditures.

#### **District Stories**

During the COVID pandemic Keystone Learning Services (KLS) found deficiencies in our K-12 reading curriculum, and in our ability to provide reliable access to instruction when students are not in the traditional classroom. We also found that periodic separation due to the pandemic resulted in learning loss of critical social-emotional skills. Students with disabilities were disproportionately affected by the pandemic. Therefore, the ESSER II SPED funds allocated to KLS targeted research validated reading curriculum, an online curriculum to ensure consistent access when students are quarantined, and summer school sessions to help students recoup any lost or delayed skills. In addition, an instructional coach and social/emotional consultant were obtained to teach staff how to analyze data and adapt instruction to help close achievement gaps. Finally, headphones to reduce disruptions while working remotely or on an individualized computer curriculum were also purchased with these important funds, 99

- Pleasant Ridge USD 449

# **EANS Private School Expenditures**

One of the two incremental EANS funds were available to private schools during this reporting period. The cumulative expenditures of \$3.3 million of nearly \$23 million of approved EANS I funds were reported. As noted previously, \$3 million, or 90% of funds, have been used to address Learning Recovery and \$0.3 million, or 10%, were expended to ensure a Safe Learning Environment (refer back to Figure 4). The top two allowable uses included learning loss (40%) and educational technology (34%).

#### **Private School Stories**

Summer school teacher for 25 days of summer school four hours a day for 15 primary level students identified as needing learning recovery due to lose of instructional time.

- Resurrection Catholic School, Wichita

#### **Private School Stories**

As we try to meet the individual needs of students, doing more with the MTSS process is complicating the schedule, so having an additional person will allow us to meet the needs of the all the students in the building.

- Sacred Heart of Jesus Catholic School, Shawnee

#### **Private School Stories**

Full-time nurse to support students by monitoring Covid symptoms/quarantines and students with health issues that may be due to Covid exposure.

- St. Paul Catholic School, Olathe

# Summer and Supplemental Learning Recovery

Nearly 60% of all ESSER public school expenditures were for allowable uses related to **Learning Recovery** and 90% of EANS I funds, as of Sept. 30, 2021. Public school districts incurred expenses for nearly \$14 million for summer and supplemental learning and \$12.5 million under the learning loss allowable use category. While some districts may have offered summer school out of their general fund budgets which is not reflected in this report, over half of USDs (151 of 286, 53%) reported using federal ESSER funds to cover expenses incurred for summer school and another 44 (15%) districts incurred expenses for after-school supports for COVID-19 **learning recovery** during this reporting period. At least a third of participating private schools expended federal funds to offer summer school enrichment and credit recovery.

Note that the top three planned expenditures for ESSER II funds address **Learning Recovery**, as approved by KSBE through this reporting period. USDs have targeted \$84 million cumulatively for learning loss, \$30.5 million approved for summer and supplemental learning, and nearly \$30 million for educational technology.<sup>1</sup>

The urgency to offer enrichment and credit recovery in the summer of 2021 also created challenges. In addition to shortages of qualified staff, some school leaders had to balance the immediate mental health needs of educators and students in need of a break after a stressful 15 months, with the opportunity to begin the long-term process of learning recovery.

KSDE reached out to statewide partners and leveraged federal funds to augment local summer learning opportunities. This partnership generated the Sunflower Summer enrichment program for all Kansas youth and their families.

The Sunflower Summer Program<sup>2</sup> gave students a chance to learn while visiting attractions across Kansas, including zoos, museums, historic landmarks, libraries and outdoor locations. Families could download a free app to begin education adventures. The 2021 Sunflower Summer included 71 different venues or locations across Kansas. The program was open to all students in preschool through grade 12, children with disabilities enrolled in the 18-21 program, and up to two adults. This new program was designed to help children and families stay engaged in learning throughout the summer months. Kansans from every county participated, with a total of 43,120 children and 28,108 adults visiting the different sites between July 1 and Aug. 15.

The program is a collaboration between the KSDE, Kansas Department of Commerce, the Kansas Department of Wildlife, Parks and Tourism, Kansas Children's Cabinet and Trust Fund, KU Center for Public Partnerships and Research, and Greenbush Education Service Center.

#### **District Stories**

We utilized ESSER II funds to provide a robust summer school program and purchased textbooks to address student learning loss. The district has hired additional nursing staff and a bus camera system for contact tracing and student safety.

- Kansas City Kansas USD 500

# **Special Education**

KSDE directed a total of \$32 million of the state's portion of ESSER funds back to local school districts for support of special education services, impacted by the global pandemic. Districts reserved these funds specifically for students with disabilities. As of Sept. 30, 2021, districts had spent more than \$6 million of the \$8 million ESSER I SPED allocation and nearly \$1 million of the \$24 million ESSER II SPED. Cumulatively, 22% of the ESSER SPED funds have been expended and over two-thirds of the expenditures were for learning recovery uses:

• IDEA: \$1.8 million

• Unique needs of special populations: \$1.0 million

• **Learning Loss:** \$0.5 million

• Educational Technology: \$0.7 million

Figure 11 - ESSER I and II SPED Funds by Allowable Use by Categories

#### **District Story**

The special education allocation was used for additional staff for Extended School Year and additional hours and incentive wages. iPads and assistive technology were purchased. PPE was purchased to help keep staff and students safe. These purchases resulted in a direct impact to students with disabilities to receive summer learning opportunities in a safe and sanitized educational environment for students and educators. The technology purchases supported personalized learning for students to ensure continued educational services consistent with all Federal, State and local requirements.

- Baldwin City USD 348

# **Expenditures by District and School Demographics**

District enrollment and poverty level are two key factors that influenced federal relief fund expenditures (see Table 4). Profiles of public and private school expenditures are provided based on the number of students enrolled in 2020-2021 and the percentage of students approved for free or reduced-price lunch for all funds and allowable uses. Demographically, the private schools approved for EANS I funds were similar public school districts of small-to-medium enrollment and low-to-medium poverty. The public school districts with these characteristics were less likely to have used remote and hybrid learning modes and less likely to have spent federal relief funds on the Remote Needs allowable use category.

While COVID-19 drove significant incremental needs across all Kansas districts, high-poverty districts were particularly impacted by the transition to remote and hybrid learning modes. Federal aid was especially critical for students in high poverty districts who were more likely to lack the technology and connectivity to access classes during remote learning. High-poverty public school districts, regardless of enrollment, spent more proportionally on remote learning than districts with lower poverty levels (33% high poverty vs. 22% low poverty in small/medium districts, 38% high poverty vs. 11% low poverty in high-enrollment districts).

Larger districts were more likely to have used remote and hybrid learning modes (91% high poverty and 86% low/ medium poverty districts), as reflected in December 2020, a peak time of community spread (compared to 23% and 31% respectively of students in small/medium enrollment districts). Transitioning to in-person learning in places where the rate of COVID-19 transmission was higher carried significant risks, especially considering the large volume of students who occupied the buildings. Adequate social distancing in classrooms was difficult to achieve, given the large class sizes and limited square footage. Given the added complexities of returning to in-person learning for these districts, many students and families chose to remain partially or fully remote throughout the entire 2020-2021 school year. For the large, high-poverty districts, the additional educational needs of the student population were reflected in the faster rate of expenditures.

#### **District Stories**

Emerging evidence shows that the pandemic has negatively affected academic growth, widening pre-existing disparities. In core subjects like math and reading, there are worrisome signs that students might be falling even further behind prepandemic expectations in some grades. The indications come from student grades, standardized test scores, and other diagnostic tools used at multiple levels to monitor student academic performance. Haysville USD 261's Plan for ESSER II fund use includes the following strategies. Institute Premium Incentive Pay for all employees hired for a position over the 2021-2022 school year of \$1,000. This incentive pay will be paid monthly over ten months to retain staff over the year. Hire additional staff, including full-time substitute teachers, additional testing/ educational paraeducators, and social works to serve students and staff districtwide. This extra support will provide our students with other educational and mental health services. ??

- Haysville USD 261

#### **SUMMARY OF EXPENDITURES**

Table 4: District or Schools Expenditures by Enrollment and Poverty —

	Small/Medium Enrollment and Low/ Medium Poverty Level		Small/Mediur and High Pov	m Enrollment erty Level	High Enrollment and Low/ Medium Poverty Level		High Enrollment and High Poverty Level

#### FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

REPORT 3: SEPTEMBER 2021 Q6

# Looking Ahead: Future Needs and COVID-19 Funding

KSDE will continue to report on the use of federal COVID-19 funding on a quarterly basis. EANS II and ESSER III funds will be included in subsequent reports as they are spent by public and private schools.

#### PANDEMIC DURATION AND LEARNING RECOVERY

The sense of urgency to address the learning recovery needs of students whose pre-K-12 education has been disrupted for 18 months and three school years is shared by educators, parents and students alike. Persistence of the global pandemic has been a shared source of frustration and stress. Continued disruptions will slow the pace of recovery. Persistence and paced expectations for progress will be an important mind-set in the coming school years. Implementing full-time, in-person learning for the vast majority of students, especially for students who are not yet vaccinated, is requiring continued investment in health and safety supplies and additional staff. As vaccination rates plateau ,and if community COVID-19 infection continues to mutate and spread, the need to remain committed to layered mitigation protocols will persist – at least in large districts and high population density communities. The likelihood of continued disruptions to learning could impact the pace of learning recovery. Districts are prioritizing academic and social-emotional recovery for students and staff members, which requires sustained investment during the next several years. Providing additional learning time to students, as well as social-emotional and mental health resources is, and will continue to be, key to ensuring students are well-supported.

### PANDEMIC IMPACT ON CONTINUITY OF EDUCATION LEADERSHIP

The global pandemic has coincided with a spike in retirements across business and industry. Education has not sidestepped this trend. Superintendents and district administrators in Kansas and across the country have retired and are retiring at notably higher rates. By Fall 2022, an atypical number of Kansas public school districts will be under new leadership and during an incredibly challenging time for pre-K-12 education systems. Understanding the reasons for this turnover may be helpful, in part, for those stepping into the superintendent's seat. Implications for the educational system extend well beyond the local communities impacted, complicated by staffing shortages and the ongoing global pandemic. Continued collaboration and expanding partnerships will be essential, across disciplines and sectors. Recruitment of qualified candidates into education administration higher education programs, along with recruitment and retention of teachers calls for attention and support for higher education. Where we find challenge, we will continue to exercise our grit - the drive, stamina and fortitude to push through challenge and obstacles until success is achieved.

#### FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

## REPORT 3: SEPTEMBER 2021 Q6 Glossary

#### Α

**Adult Education and Family Literacy Act (AEFLA):** Federal act and state grant program that supports adult education and English language training.

**Allocation:** For the purposes of Kansas ESSER reporting, refers to funding reserved for each school district to use within the set of ESSER allowable uses to address incremental COVID-19 needs. Under ESSER, school districts are allocated funding for discretionary use across a set of allowable uses. This funding is theirs to spend through the duration of the program.

**Allowable Uses:** Set of eligible uses defined by the U.S. Department of Education for the federal COVID-19 elementary and secondary school funding. ESSER and EANS each have their own set of allowable uses. Districts must use their allocation within the allowable uses under ESSER, and nonpublic schools may only be approved for requested services or assistance that are eligible under EANS allowable uses. Eligible uses of funding must fall within the set of allowable uses and also address an incremental COVID-19 need.

**American Rescue Plan (ARP):** Federal COVID-19 relief package enacted March 11, 2021, which included additional funding for public schools (ESSER III) and private schools (EANS II).

C CARES (Coronavirus Aid, Relief and Economic Security) Act: Federal COVID-19 relief package passed on March 27, 2020, which included the first COVID-19-related federal funding programs specifically for pre-K-12 education (ESSER I), as well as state discretionary funding that was partially allocated to pre-K-12 education (CRF).

**Continuous Learning Task Force Guidance:** Document developed by more than 50 Kansas educators to guide schools and school districts on how to continue to provide services for students in the immediate aftermath of school shutdowns in Spring of 2020.

**Coronavirus Relief Fund (CRF):** Funding the state of Kansas received from the federal CARES Act. A portion of this funding was allocated directly to Kansas counties that were directed to allocate a portion to local school districts as discretionary funding. School districts received \$80 million in CRF discretionary funding.

**Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act:** Federal COVID-19 relief package passed Dec. 27, 2020, which included additional funding specifically for public schools (ESSER II) and private schools (EANS I).

**EANS (Emergency Assistance to Nonpublic Schools):** Federal funding awarded to the governor and administered by the State Educational Agency (SEA) to assist nonpublic schools with COVID-19-related needs.

**Elementary and Secondary Education Act (ESEA):** Federal education law enacted to provide all children significant opportunity to receive a fair, equitable and high-quality education and to close educational achievement gaps.

**Elementary and Secondary School Emergency Relief (ESSER):** Federal funding awarded to State Educational Agencies (SEAs) for the purpose of providing local educational agencies (LEAs) with

41

emergency relief funds to address the impact of COVID-19 on elementary and secondary schools.

**Eligible Value:** For the purposes of Kansas EANS reporting, refers to funding for approved, eligible requests for services and assistance for nonpublic schools. Under EANS, nonpublic schools are not allocated funding for discretionary use, but instead may apply for services and assistance to address COVID-19 needs. The value of the approved services and assistance is tracked as eligible value but is not a set dollar amount allocation; if services and assistance are fulfilled for less than the original estimated cost, the remaining amount returns to the EANS funding program.

**ESSER Formula Allocation:** Portion of the state's ESSER allocation that is reserved for distribution to LEAs. Under federal law, 90% of ESSER funds are granted to LEAs by formula based on ESEA Title I, Part A allocations. This funding can then be used at the district's discretion within the set of ESSER allowable uses to address incremental COVID-19 needs.

**ESSER SPED:** Supplemental discretionary aid from Kansas' ESSER I and ESSER II allocation that the Kansas State Department of Education (KSDE) allocated to LEAs specifically to support special education services and students with disabilities.

**Expenditure:** For the purposes of Kansas CRF, ESSER, and EANS reporting, refers to funding that has been used to date by districts, interlocals or schools out of the total amount allocated or value approved.

F

**Full-Time Equivalent (FTE):** Captures the number of full-time equivalent students by accounting for parttime students to the nearest tenth. Nonweighted, nonvirtual FTE enrollment is used to track district size in CRF and ESSER reporting.

**Headcount Enrollment:** Captures the number of total students enrolled based on headcount with no adjustments for part-time students. KSDE uses headcount enrollment to track the number of students approved for free or reduced-price lunch. This data is used as a proxy for district poverty level in CRF, ESSER, and EANS reporting.

Ι

**Individuals with Disabilities Education Act (IDEA):** Federal law that ensures all children with disabilities have available to them a free appropriate public education that emphasizes special education and related services designed to meet their unique needs and prepare them for further education, employment and independent living.

K

**Kansas Interlocals/Special Education Cooperatives:** Public education organizations that provide educational services, which may include special education services to students, in partnership with school districts.

L

**Lag time:** A period of time between the initial district expenditure and the draw down from federal funds. This report utilizes finalized, lag data. Districts follow three steps when using federal aid to purchase goods, services or employ staff members:

- 1. The district budgets for the costs from the federal aid.
- 2. The district pays the provider or employee out of local funds once the product is received or as the work is completed. Most districts manage cash flow using reserve funds.
- 3. Only then may the district draw down federal aid to reimburse the expense.

Only expenses that have completed all three steps by the close of the reporting period are included in

the report. Budgeted and unreimbursed expenses are captured in future reports.

**Local Educational Agency (LEA):** A public board of education or other public authority within a state that maintains administrative control of public or secondary schools in a subdivision of a state. In Kansas, refers to Kansas school districts and interlocals.

#### M

**McKinney-Vento (McKinney-Vento Homeless Assistance Act):** Federal act that authorizes the federal Education for Homeless Child and Youth Program, which provides public resources and programs in a more coordinated manner to meet the critically urgent needs of the homeless.

#### N

**Navigating Change:** Document and resources developed by nearly 1,000 Kansas educators, health officials, policymakers and other stakeholders to help schools support students across remote, hybrid and inperson learning environments as they prepared for the 2020-2021 school year.

**Navigating Next:** Document developed by KSDE with updated guidance on how to support students through the end of the 2020-2021 school year and how to prepare for the 2021-2022 school year.

#### P

**Perkins (Carl D. Perkins Career and Technical Education Act): Fe**deral act and source of federal funding to states for the improvement of secondary and postsecondary career and technical education programs.

#### S

**SEA (State Educational Agency): St**ate agency primarily responsible for the state supervision of public elementary and secondary schools. In Kansas, refers to the Kansas State Department of Education (KSDE).

**SPARK (Strengthening People and Revitalizing Kansas) Taskforce:** Created in 2020 by Gov. Laura Kelly, this task force was a coalition of business, community and legislative stakeholders who determined investment priorities and oversaw spending of CRF dollars. In 2021, the Kansas Legislature amended the make-up of the SPARK Taskforce and refined the oversight process. SPARK will continue to play a role in the allocation of state discretionary dollars received from ARP.

#### Т

**True-Up:** Supplemental discretionary allocation of COVID-19 federal relief funds, as determined by the state, which provides public school districts a minimum amount of per pupil ESSER aid.

**GLOSSARY**

#### FEDERAL COVID-19 FUNDING FOR KANSAS PUBLIC AND PRIVATE SCHOOLS

# REPORT 3: SEPTEMBER 2021 Q6 Appendix

The Appendix catalogues the allocations and expenditures by district for each source of federal COVID-19 relief funding utilized through the end of the reporting period. The "CRF and ESSER Aggregate" report tracks cumulative spending by district for all federal COVID-19 relief funds and is followed by reports that break out cumulative spending by district in each distinct federal funding stream. Expenditures reported in this Appendix lag behind the reporting on local expenses incurred due to federal draw down rules and the time needed for fiscal oversight and processing at state and local levels.

TOTAL ALLOCATIONS AND EXPENDITURES	47
