KANSAS STATE DEPARTMENT OF EDUCATION

Rubric for Determining Student Eligibility for the Kansas Alternate Assessment (DLM) for Students with the Most Significant Cognitive Disabilities

Student Name:	Date:
School:	Date of Birth:
Parent(s)/Guardian(s):	Grade:

This rubric is provided as a companion document to the *DLM Participation Guidelines* to assist Individualized Education Program (IEP) Teams in making appropriate decisions regarding student participation in the Kansas Alternate Assessment for Students with the most significant cognitive disabilities.

IEP Teams must use various data sets in review of a student's eligibility to take the Alternate Assessment which could include but is not limited to:

- Evaluation Team Reports
- Benchmark assessment data
- Diagnostic assessments
- Assistive Technology evaluation
- Speech and Language assessments that determine expressive/receptive language communication status.
- IEP goal/objectives progress data
- Both formative academic and transition assessment data
- Adaptive skills checklists/inventories
- Progress on functional, daily living and life skill standards
- Sensory and/or motor assessments describing access modes of communication, fine and gross motor tasks.

Evidence for the decision to participate in the Alternate Assessment is **NOT BASED** on:

- 1. A disability category or label
- 2. Poor attendance or extended absences
- 3. Native language/social, cultural or economic difference
- 4. Expected poor performance on the general education assessment
- 5. Academic and other services student receives
- 6. Educational environment or instructional setting
- 7. Percent of time receiving special education services
- 8. English Learner (EL) status
- 9. Low reading level/achievement level
- 10. Anticipated disruptive behavior
- 11. Impact of student scores on the accountability system
- 12. Administration decision
- 13. Anticipated emotional duress
- **14.** Need for accommodations (e.g., assistive technology/ Augmentative and Alternative Communication (AAC) to participate in the assessment process

Note: Intelligence quotient (IQ) scores are not a reliable measure to determining eligibility, as many of the assessment tools used to determine IQ are not fully accessible for learners with significant motor, communication and sensory complexities. IQ scores should never be used in isolation to determine eligibility.

Kansas leads the world in the success of each student.

Directions: Review a student's IEP, assessment data, and related documents to answer each question. Mark the column that best answers the question. Responses do not all need to be in the far-right column, but **most** should be in the ^{4th} column. Only a small number of learners, approximately 1.0 percent across the entire state, should qualify as meeting the criteria for the KS Alternate Assessment designed for Students with the most significant cognitive disabilities.

1. Does the student have a **current IEP**? (Skip question if this is for an Initial IEP. Questions regarding IEP content should be answered through supporting documentation)

No. Stop here, the student is not eligible for	Yes. Continue to question #2.
alternate assessment	·

2. Does the cognitive assessment data support a most significant cognitive disability (typically 2 ½ or more standard deviations below the mean as determined by district administered ability assessment, plus significant impairments to a person's ability to reason, plan, solve problems, think abstractly, comprehend complex ideas, learn quickly, and learn from experience? Students in the not limited and mild cognitive limitations stop here, the student is not eligible for the alternate assessment. The majority of the responses should be in the Most significant cognitive limitations column.

Verbal Intelligence/Cognition (related to language skills)

Not limited	Mild Cognitive	Moderate to Significant	Most Significant
	Limitations	Cognitive Limitations	Cognitive Limitations
Verbal intelligence in	Verbal Intelligence 1 to	Verbal Intelligence 2 to 2.5	Verbal Intelligence 2.5
average range or above	2 SD below mean	SD below mean	SD or more below mean
(85 IQ or above)	(84-71)	(70 - 64)	(63 or lower)

Nonverbal Intelligence/Cognition (related to visual-spatial skills)

Not limited	Mild Cognitive Limitations	Moderate to Significant Cognitive Limitations	Most Significant Cognitive Limitations
Non-verbal intelligence	Non-verbal Intelligence	Non-verbal Intelligence	Non-verbal Intelligence
in average range or	1 to 2 SD below mean	2 to 2.5 SD below mean	2.5 SD or more below
above (85 IQ or above)	(84-71)	(70 – 64)	mean (63 or lower)

Thinking/Reasoning/Problem-Solving

Not limited	Mild Cognitive	Moderate to Significant	Most Significant
	Limitations	Cognitive Limitations	Cognitive Limitations
Reasoning and problem- solving skills at age-level or within average range on an assessment.	Minimal assistance (e.g., general education interventions/supports) needed to carry out reasoning and problemsolving tasks	Requires special education services, including modifications and levels of scaffolding to complete reasoning and problem-solving tasks	Dependent on others for completing tasks that require reasoning and problem-solving

Executive Function/Attention/Memory

Not limited	Mild Cognitive	Moderate to Significant	Most Significant
	Limitations	Cognitive Limitations	Cognitive Limitations
Cognitive planning and working memory at age- level or within average range on an assessment	Minimal assistance (e.g., general education interventions/supports) needed to support cognitive planning and working memory	Requires special education services, including modifications and levels of scaffolding to support cognitive planning and working memory	Dependent on others for completing tasks that require cognitive planning and working memory

Learning

Not limited	Mild Cognitive	Moderate to Significant	Most Significant
	Limitations	Cognitive Limitations	Cognitive Limitations
Learning grade level academic skills	Learning grade level academics with general education supports	Learning general standards or mastering target or successor linkage level EEs with increasing levels of assistance from special education services and supports	Making progress on the Essential Elements (EEs) with moderate/maximal levels of supports

3. Does the adaptive assessment data support a most significant deficit in adaptive **behavior**? Does the student require systematic, direct instruction of adaptive behavior (an individual's ability to apply social and practical skills in everyday life) skills to be embedded within standards-based instruction? Students in the **not limited and mild to moderate deficits stop here**, the student is not eligible for the alternate assessment. The majority of the responses should be in the **Most significant deficits** column.

Conceptual skills. receptive and expressive language, reading and writing, money concepts, self- direction. *Social skills.* interpersonal, responsibility, self-esteem, follows rules, obeys laws, is not gullible, and avoids victimization.

Practical skills. personal activities of daily living such as eating, dressing, mobility and toileting; instrumental activities of daily living such as preparing meals, taking medication, using the telephone, managing money, using transportation and doing housekeeping activities, occupational skills; maintaining a safe environment.

Adaptive Behavior Scale

- 10.00 p 0.110 = 0.110.1110 : 0 000.11	-		
Not Limited	Mild to Moderate Deficits	Moderate to Significant Deficits	Most Significant Deficits
Overall adaptive behavior score in average range or above (standard score 85 or above)	Adaptive behavior 1 to 2 SD below mean (ss 84 - ss 71)	Adaptive behavior 2 to 2.5 SD below mean (ss 70 – ss 64)	Adaptive behavior 2.5 SD or more below mean (ss 63 or lower)

Conceptual

Not Limited	Mild to Moderate Deficits	Moderate to Significant Deficits	Most Significant Deficits
Age-level expressive and receptive communication skills	Communicates expressively and receptively with minimal prompting/assistance	Beginning to communicate wants/needs/preference s using assistive technology (augmentative device or symbols)	No formal communication system
Learning grade level academic skills	Learning grade level academics with general education supports	Mastering target or successor linkage level EEs; learning grade level academics with increasing levels of assistance	Making progress on the Essential Elements (EEs) with moderate/maximal levels of supports

Social

SOCIAL			
No instruction is needed on responsibility, following rules, interpersonal skills	General instruction addressed through MTSS and general education interventions for responsibility, following rules, and interpersonal skills	Systematic, direct instruction in responsibility, following rules, and interpersonal skills	Prescriptive, systematic, direct instruction relating to responsibility, following rules, and interpersonal skills (Prescriptive is specifically designed for one particular student based on his or her needs.)
Assessment and observation of skills related to responsibility, following rules, and interpersonal skills show student has adequate to excellent social skills.	Assessment and observation of skills related to responsibility, following rules, and interpersonal skills show the student would benefit from general classroom social skills instruction.	Assessment and observation of skills related to responsibility, following rules, and interpersonal skills show the student needs systematic instruction to improve social skills.	Assessment and observation of skills related to responsibility, following rules, and interpersonal skills show the student needs individually planned instruction designed to match his/her skills and weaknesses.
No curricular intervention needed	Social skills curriculum appropriate for whole classroom is sufficient.	Structured social skills curriculum designed for small groups, including direct instruction, is needed.	Individualized, step-by- step planned curriculum with extensive modeling and practice is essential.
At mastery prior to instruction	Large group instruction with differentiation is sufficient	Small group instruction with differentiation is needed	Individualized one-on-one instruction is needed
Practical			
No instruction needed on daily living skills or community living skills	Minimal assistance/supports for daily living skills and community living skills; student will likely be successful living independently and holding a job	Requires moderate assistance/supports to complete daily living skills and community living skills (e.g., meal prep, phone use, housekeeping); student will likely be successful in supportive living	Dependent on others for daily living skills and community living skills; student will likely need 24 hour supports as an adult

4. Do the student's PLAAFPs indicate adequate performance with KS curricular standards? **If yes, stop here.** If no, choose descriptor that best matches student performance.

Present levels of Academic and Functional Performance (PLAAFP) indicate that the learner's skills are closely aligned with general grade- level standard concepts and skills Stop here, the student is not eligible for alternate assessment	Student PLAAFPs indicate a level of performance still commensurate with general grade- level concepts but indicating some need for supports and scaffolding. Stop here, the student is not eligible for alternate assessment	Student PLAAFPs indicate ability to make adequate progress through the most complex alternate standards, with increasing levels of supports and scaffolding, and objectives that include alternate standard skills and concepts or learning progression steps that lead to grade-aligned performance target(s)	Student PLAAFPS indicate ability to make progress through alternate standards (Essential Elements) with maximal supports and scaffolding in order to make progress on concepts and skill targets on the least complex side of the range.
---	---	--	--

5. What level of support and instruction do the student's goals and objectives describe? What level of documentation is indicated in the evaluation portion of the goals and objectives?

Statements indicate	Statements indicate	Statements indicate	Statements
general levels of	minimal to moderate	increasing levels of	indicate <u>maximal</u>
academic support to	levels of support to	<u>support</u> to make	<u>levels of support</u> to
make adequate progress	make adequate	adequate progress	make adequate
through grade-level	progress through	through grade-level	progress through
standard concepts and	grade-level standard	standard concepts	grade-level
skills.	concepts and skills.	and skills.	standard concepts
			and skills.
Documentation consists	Documentation consists	Documentation consists	
of project rubrics, work	of project rubrics, work	of project rubrics, work	Documentation consists
samples, and/or	samples, and/or	samples, and/or	generally of checklists
portfolios, etc. showing	portfolios, etc. showing	portfolios, etc. showing	collected by teacher;
student <u>general</u>	student's need for	student's need for	documentation indicates
<u>independence</u> in	minimal, continual	increasing levels of	maximal levels of support

<u>Stop here</u> , the student is	academic progress.	making academic	academic progress.
not eligible for alternate	Stop here, the student is	progress.	
assessment.	not eligible for alternate		
	assessment.		

Summary Question: Were most ratings in the far right-hand (fourth) column?

The II	EP team used the above evaluation data analysis and discussion to determine:
	The student <u>DOES</u> meet the criteria to participate in the Kansas Alternate Assessment (DLM) for studen with the most significant cognitive disabilities. Make sure to go over the <u>Kansas Alternate Assessment</u>
	Notification with Parent/Guardian
	The student DOES NOT meet the criteria to participate in the Kansas Alternate Assessment (DLM)
	for students with the most significant cognitive disabilities.
	Parent/Guardian
	Parent/Guardian
	Administrator/Designee
	General Education Teacher
	Special Education Teacher
	Other

NOTE: If this report does not represent an individual team member's conclusion, that team member must submit a separate statement presenting the member's conclusions.
