

DLM Webinar #3: How do I prepare my students for the DLM?

October 9, 2025

Kansas State Department of Education | www.ksde.gov

Kansas leads the world in the success of each student.

Instructionally Embedded Assessment

Assessment Cycle

Linkage Levels: ELA and Mathematics

Items within a single testlet align to only one linkage level.

Linkage Levels

Initial Precursor (IP)

Distal Precursor (DP)

Proximal Precursor (PP)

Target (T)

Successor (S)

Least Complex

Most Complex

Linkage Levels: Science

Items within a single testlet align to only one linkage level.

Linkage Levels

Initial (I)

Precursor (P)

Target (T)

Least Complex

Most Complex

Understanding the Testlets

Kansas State Department of Education | www.ksde.gov

Kansas leads the world in the success of each student.

Kite Suite

Educator Portal- teachers

The image shows the login interface for the Kite Educator Portal. At the top is the Kite logo, which consists of the word "Kite" in a black serif font and a colorful kite icon to its right. Below the logo is a white rectangular box containing a red "Reminder" text: "Do not give out, loan, or share your password with anyone. Allowing others access to your Educator Portal account may cause unauthorized access to private information. Access to educational records is governed by federal and state law." Below this box is another white box titled "SIGN IN TO EDUCATOR PORTAL". It contains two input fields: "USERNAME:" and "PASSWORD:". At the bottom of this box is a green "Sign In »" button and a link for "Forgot Password?". The background of the entire page is a light blue sky with white clouds.

Student Portal- students

Testlet Structure and Types

Every testlet has an engagement activity and test items/questions

Computer-Delivered

- Intended for the student to interact with the computer independently or with support.
- NOT assessing the student's ability to use the technology.
- Most common.

Teacher- Administered

- Used at lower linkage levels or when the content is not easily accessed with on-screen info.
- Provide the test administrator with a script to follow.

Using DLM Mini-Maps to Plan Instruction

M.EE.NBT.2

Demonstrate understanding of place value to tens.

Testlet Information Page

This is a secure testing document. Do not reproduce or redistribute. Shred after use.

DYNAMIC[®]
LEARNING MAPS

FALL ELA RI.3.2 IP 10651

Testlet Information Page: ELA10651

Testlet Type: Teacher-administered

Number of Items: 3

Materials Needed: Engagement Activity: three familiar objects. Item 1: one familiar object. Item 2: one familiar object not used in the previous item. Item 3: one familiar object not used in the previous items.

Materials Use: The student will seek a familiar object, once the object has been removed from immediate touch or view.

Suggested Substitute Materials: None

DLM Text Title: Fun on the Bus

Type of Text: Reading Informational Text

Familiar or Unfamiliar? Familiar

DLM Source Book: Ramona Quimby, Age 8

Accessibility supports NOT allowed:

This is a secure testing document. Do not reproduce or redistribute. Shred after use.

DYNAMIC[®]
LEARNING MAPS

FALL Math 3.G.2 PP 1638

Testlet Information Page: Math1638

Testlet Type: Computer-delivered

Number of Items: 3

Materials Needed: See attached pages for alternate text and materials for administration to students who are blind or who have visual impairments and have difficulty with on-screen content.

Materials Use: None

Suggested Substitute Materials: None

Calculator Use Allowed: Not Applicable

Math Vocabulary Used in the Testlet: rectangle, circle, row, column, equal

Accessibility supports NOT allowed:

Definitions (see "Other Comments")

Other Comments: Test administrator should not define the following word(s): divide.

Supports for the DLM Assessment

Three categories

1. Provided in Kite® Student Portal
2. Requiring additional materials
3. Provided by the test administrator

Category 1 Accessibility Supports

Category 1 Supports	In Combination with Other Supports?
Contrast Color: white background with green or red font; black background with gray or yellow font	Do not use Contrast Color AND Invert Color Choice or Overlay Color.
Invert Color Choice: black background with white font	Use Contrast Color or Invert Color Choice but not both. Do not use Overlay Color with Invert Color Choice.
Magnification: 2x, 3x, 4x, or 5x	The larger the magnification, the more scrolling is necessary. Consider projecting on a whiteboard.
Overlay Color: blue, gray, green, pink, and yellow options; font remains black	Do not use with Contrast Color or Invert Color Choice.
Spoken Audio: text only, text and graphics, or nonvisual (Text is highlighted in yellow as it is spoken.)	Do not choose Invert Color Choice or yellow for Overlay Color. Other colors in Contrast Color and Color Overlay may not be easy to see given the highlighted spoken text.

Category 2 Accessibility Supports

Category 2 Supports	In Combination with Other Supports?
Alternate Form-Visual Impairment	This can be used in conjunction with Braille or with any of the Category 1 supports.
Braille	Select Alternate Form-Visual Impairment as well as Braille. No other Category 1 supports are necessary.
Calculator	OK
Individualized Manipulatives	OK
Single-Switch System (Switch is used to scan and highlight each response option in yellow.)	Do not choose Invert Color Choice or yellow for Overlay Color. Other colors in Contrast Color and Color Overlay may not be easy to see given the highlighted text.
Two-Switch System (One switch is used to scan and highlight each response option in yellow. The other switch is used to enter the chosen response option.)	Do not choose Invert Color Choice or yellow for Overlay Color. Other colors in Contrast Color and Color Overlay may not be easy to see given the highlighted text. If using Spoken Audio as well, the test administrator would activate the Spoken Audio.

Category 3 Accessibility Supports

Category 3 Supports	In Conjunction with Other Supports?
Human Read Aloud	This can be used in conjunction with or instead of Spoken Audio. If the student has a visual impairment, TIPs contain alternate text descriptions for any visual components in testlets.
Language Translation	Spoken Audio is moot if using Language Translation.
Partner-Assisted Scanning (Test administrator points to and/or reads each item and response option to the student.)	This can be used instead of Spoken Audio. Human Read Aloud may be selected as well.
Sign Interpretation of Text	Sign Interpretation is akin to Language Translation. Spoken Audio is moot if using Sign Interpretation. The Alternate Form-Visual Impairment may be useful when signing for students with deaf-blindness.
Test Administrator Entering Student Responses	OK

Accessibility Manual

- Examples of accessibility supports
- Further guidance
- Common accessibility issues and example solutions
- Supports not allowed

A dark blue background with a light blue vertical bar on the left and abstract geometric shapes in teal, orange, and red on the right.

Overview of the KSDE and DLM Website Resources

KSDE DLM website

Dynamic Learning Maps (DLM) & Essential Elements

The DLM® project is guided by the core belief that all students should have access to challenging grade-level content. The DLM Alternate Assessment System will let students with significant cognitive disabilities show what they know in ways that traditional multiple-choice tests cannot. The DLM system is designed to map a student's learning throughout the year. The system will use items and tasks that are embedded in day-to-day instruction. In this way, testing happens as part of instruction, which both informs teaching and benefits students.

Dynamic Learning Maps for Kansas: <http://dynamiclearningmaps.org/kansas> (external link)

Resources on Manuals and Blueprints, Videos, Training, and Educator Resources, Templates, Scoring & Reporting, and more.

Essential Elements are grade-level-specific expectations about what students with the most significant cognitive disabilities should know and be able to do. Essential Elements are related to college- and career-readiness standards for students in the general population at a reduced depth, breadth, and complexity.

Webinars

The KSDE SETS team will continue to provide communication for special education teachers administering the DLM during the current school year. Communication will occur via an online meeting platform using Zoom. Participants will be asked to log in to view and download materials and engage with presenters. There will be opportunities for questions and the webinars will be recorded for future reference or for those unable to attend. The recordings will be posted on the KSDE website.

Brid Schwaetz will produce the webinars and provide technical support as needed.

Instructional Resources for IE States

Instructional Resources for IE Model States

Looking for resources for your state? Go to your state's page directly:

Select your state

Does my state use the IE or YE model?

The instructional resources on this page are for states using the **Instructionally Embedded model**.

An asterisk (*) by the resource means your state may offer a custom version. To check for custom resources, go to your state's DLM webpage and filter on *Instructional Resources*.

Important notice for states that assess Science: The 2025–2026 school year is a transition year for DLM science. The two science tabs below are included to help with this transition.

- The "Science" tab contains the original set of science Essential Elements, which are used for the spring 2026 operational assessment testlets
- Go to the "Science - Spring 2027" tab for the revised and expanded set of science Essential Elements, which will be the bases for the testlets in the embedded science field test in spring 2026 and the operational science testlets in the spring 2027 DLM Science Alternate Assessment.

Testlets

About Familiar Texts

DLM Familiar Texts are an important part of DLM Alternate Assessments in English language arts (ELA). The DLM Familiar Texts are used in all testlets that assess Essential Elements in reading at the Initial Precursor linkage level and in some testlets at other linkage levels. Students are expected to interact with and learn about the texts during ongoing instruction before they encounter them in the assessment. The topics of many DLM Familiar Texts are drawn from texts that are often used in general education. Information about the source books that informed the Familiar Texts can be found in the [Dynamic Learning Maps ELA Source Books \(pdf\)](#) document.

Accessing DLM Familiar Texts

DLM Familiar Texts can be accessed through the Monarch Reader website. Lists of DLM Familiar Texts used in DLM ELA assessments can be accessed following the links below. With each grade level list, you will also find important documents called About Grade Level Texts. These documents provide information about how each DLM Familiar Text connects to DLM Essential Elements and linkage levels.

About Monarch Reader

The DLM Familiar Texts were developed using DLM text development guidelines adopted by DLM states. They are delivered through Monarch Reader because it offers a fully accessible, open-source solution. Most of the books on the Monarch Reader site were written by teachers, students, parents, and others from all over the world. Some books are "Rated M/Mature," and others may not be appropriate for your students or classroom. Teachers can avoid books that they might find offensive by limiting their search to books that are "Rated E/Everybody" while avoiding books "Rated M/Mature."

Using DLM Familiar Texts

DLM Familiar Texts are provided for use during shared reading instruction. During shared reading instruction, adults work to maximize student engagement and interaction, while asking very few direct questions. This is especially important for students who are completing DLM testlets at the Initial Precursor linkage level. These students struggle with engagement and communication. You will find example Familiar Text Lessons for use with students working at the Initial Precursor link level in the grade level resources linked below. You can learn about using these lessons by viewing this video: [DLM Familiar Text Lessons](#)

You can learn more about shared reading by completing these DLM Professional Development modules:

Grade 4 Familiar Texts for Instructionally Embedded Model States

DLM Familiar Texts are provided for use during shared reading instruction. During shared reading instruction, adults work to maximize student engagement and interaction, while asking very few direct questions. This is especially important for students who are completing DLM testlets at the Initial Precursor linkage level. These students struggle with engagement and communication. As such, adults have to work to recruit and sustain student interest and engagement while teaching them to communicate using gestures, images in the book, and objects. Shared reading interactions can also help students learn to respond to simple yes/no questions using a gesture or movement (e.g., head shake/nod, looking up/down, hand up/down).

You can learn more about shared reading by completing these DLM Professional Development modules:
[Shared Reading Online Self-directed Module](#)^{CS}
[Shared Reading Facilitated Module Materials for Groups](#)^{CS}

Or the modules and supports provided by our partners at the University of North Carolina at Chapel Hill at <https://sharedreader.org>^{CS}

[About Grade 4 Familiar Texts \(pdf\)](#)

Texts with an asterisk (*) contain material that some students may find sensitive.

- ▼ The Birchbark House
- ▼ Bud, Not Buddy
- ▼ Tales of a Fourth Grade Nothing

ELA.EE.RL.4.1

Use details from the text to recount what the text says.

Initial Precursor | Can identify familiar people, objects, places, and events

General Text Description

Texts include plots in mostly familiar settings such as home, school, or neighborhood. People, objects, and events are associated with these familiar settings. Home includes family members and home-based routines, like getting ready in the morning or helping with dinner. School includes teachers, friends, and school-based routines like packing a bag. The neighborhood includes friends, neighbors, and play routines, like taking a walk or going to the park.

DLM-Specific Text Descriptions

Collection Source Books	Corresponding DLM Book Title	DLM Book Summary
The Birchbark House	Learning from Family	Omakayas was a young girl who was adopted by a Native American family. Mom and Dad worked very hard and traded goods in the village. Omakayas learned from Mom and Dad how to make and trade goods.
Bud, Not Buddy	Searching for Herman*	Bud was a young boy who was looking for his father. Bud planned out his trip at the library and then packed a bag for his trip.
Tales of a Fourth Grade Nothing	The School Project	Peter was a boy in the fourth grade. He and his classmates were assigned a group project at school. They worked together to complete the assignment.
Tales of a Fourth Grade Nothing	Fudge's Birthday	Fudge was a little boy who was turning three. Peter was Fudge's older brother. Mom planned a birthday party for Fudge. Grandma helped Fudge get dressed for his party. Example DLM Familiar Text Lesson: Fudge's Birthday
Tales of a Fourth Grade Nothing	Fudge's New Shoes	Fudge went to the shoe store with his mom and brother, Peter. Fudge needed a new pair of sandals. Peter helped Fudge pick out sandals that fit just right.

Familiar Text Lesson Resources

*Pages marked with an asterisk specifically address the intent of the linkage level node.

Text	Teacher Directions
Cover Text: Fudge's Birthday	Spoken comment: <i>This text is called Fudge's Birthday.</i> <i>It is about getting ready for Fudge's birthday party.</i> Pause & Wait

Text	Teacher Directions
Page 2 Text: It was Fudge's birthday	Pause & Wait Read the text Pause & Wait Spoken Comment: <i>SOME people have birthday cakes on their birthday.</i> (Point to the AAC symbol SOME. Then point to the illustration.) Pause & Wait AAC Comment: <i>You could say SOME.</i> (Point to the AAC symbol SOME.) Pause & Wait Student Question: <i>DO YOU have cake ON your birthday?</i> (Point to the AAC symbols DO YOU ON. Then watch the student for any response.) Pause & Wait
*Page 3 Text: Fudge was a little boy. He was turning three years old.	Pause & Wait Read the text Pause & Wait Spoken Comment: <i>HE is a little boy</i> (Point to the AAC symbol HE. Then point to the illustration.) Pause & Wait AAC Comment: <i>You could say HE.</i> (Point to the AAC symbol HE.) Pause & Wait Student Directive: <i>Fudge is a boy. Look at/point to/show me the picture of the boy.</i> (Gesture to the illustration.) Pause & Wait

Sarah, Plain and Tall by Patricia MacLachlan

[Home](#). A list of different things a home can be for people.

[Homesteaders](#). A book about homesteaders and how they lived.

[Sarah, Plain and Tall](#). A retelling of the book *Sarah, Plain and Tall*.

[Sarah, Plain and Tall Vocabulary](#). Vocabulary from the book *Sarah, Plain and Tall*, with definitions.

[Then and Now](#). A book comparing a boy's life to the life of his grandfather.

[Writing a Letter](#). A list of items needed to write a letter.

Conditions of Literacy Learning Success

Important Conditions of Learning Success

- Knowledgeable others
- Means of communication and interaction
- Repetition with variety
- Cognitive engagement
- Cognitive clarity
- Personal connection to the curriculum
- Encouragement of risk-taking
- Comprehensive instruction
- Significant time allocation
- High expectations

Building Bridges

Means of Communication & Interaction

Knowledgeable Others

Comprehensive Instruction

Repetition with Variety

Cognitive Engagement

Cognitive Clarity

Personal Connection

Significant Time Allocation

Learn about the importance of students having ways to communicate, whatever the means, to engage in literacy learning.

Means of Communication and Interaction

Interactive Communication and Participation

- Provides means of:
 - more active participation by students;
 - more self-initiated learning opportunities;
 - less frustrating instructional day; and
 - opportunities to informally assess student understanding.

Project Core

- Systematic supports for teaching early symbolic communication.
- Takes a core vocabulary approach.
- Built on early work developing the DLM First 40.
- Focus on communication intervention strategies.

Universal Core Vocabulary

Moving to Robust AAC

Repetition with Variety

- New information is taught in a familiar experience.
- Helps students focus on the important information.
- Provides many learning opportunities.
- Increases the quality of learning opportunities.

Repeated Reading for Different Purposes Offers Repetition with Variety

The Value of Routines

- Create a predictable and supportive learning environment (de Jong, 2010)
- Support repetition with variety (Erickson & Koppenhaver, 2020)
- Foster perseverance through challenging tasks (Rhodes et al., 2023)
- Help students to:
 - consider new ways of applying their experience and knowledge
 - develop executive functioning skills (e.g., attention to detail, flexible thinking, working and long-term memory, and organizational skills) (Mulcahy et al., 2021)
- Allow teachers to:
 - focus on and observe student thinking (Leinwand et al., 2014)
 - provide critical feedback (Benson-Goldberg et al., 2021)

Routines in DLM from the Beginning

- Emergent writing
 - Support learning about oral and written language
 - Embedded in ELA writing testlets across grade levels
- Shared reading
 - Support learning about oral and written language
 - Embedded in ELA reading testlets across grade levels

Routines to Teach Foundational Concepts

- Counting Routine (Greer & Erickson, 2019)
 - Number name identification
 - Counting collections
 - Make collections
 - Compare collections
 - Count to tell how many

Counting Routine (Greer & Erickson, 2019)

Step	Directions
1. Number name Identification (1 minute).	1. Show or write the number. 2. Practice naming this number. 3. Show or write the number, then remove/erase it, and students write it.
2. Count collections (3 minutes).	4. Count and label a collection of items. 5. Practice counting: Show the number, then count and label the given items. Change the order or orientation of the items at least two times, asking students to count each time.
3. Make collections (4 minutes).	6. Show the number and create collections that equal it.
4. Compare collections (4 minutes).	7. Create two sets of items.
5. Count to tell how many (4 minutes).	8. Practice counting how many. 9. Rearrange and recount.

Other Foundational Concepts in Mathematics

Attribute (color, shape, size, and texture)

- Helps students describe and sort
- Important for counting and other more advanced skills

Pattern (rhythms, sequences, and regularities)

- Allows students to predict and anticipate what comes next
- Contributes to later algebraic thinking and problem-solving

Comparison (comparing objects, representations, symbols)

- Essential for building problem-solving skills

Change (noticing qualitative and quantitative differences)

- Helps students learn about growth, transformation, and the passage of time

(Hynes-Berry et al., 2021)

Kansas State Department of Education | www.ksde.gov

Kansas leads the world in the success of each student.

A decorative graphic in the bottom right corner consisting of several overlapping, pointed shapes in teal, light blue, orange, and red, resembling a stylized sunburst or a fan.

Routines That Build on One Another

Same and Different Routine

- Exact match – attribute
- Identify attribute – attribute, pattern, comparison
- Sort attribute – attribute, pattern, comparison, change
- Attribute and quantity – attribute, pattern, comparison, change
- The routine can be used across domains
 - Number sense
 - Geometry
 - Measurement and data analysis
 - Algebraic thinking and functional reasoning

Routine for Inquiry-Based Science Teaching

- Scientific Inquiry Routine
 - Engage with a science phenomenon
 - Collect data
 - Make sense of the data
 - Test it out again
 - Make and evaluate a claim

Cognitive Engagement

Applying your brain to attempt to learn, remember, and understand.

Benefits of Cognitive Engagement

- Leads to more time on task.
- Deeper comprehension and learning.
- Increased interaction and participation in lessons.
- Increased persistence during challenging tasks.
- More reading in and out of school.

Cognitive Clarity

Understanding
why you do the
things you are
doing.

DLM Writing Routine

- Choose a topic.
- Communicate about the topic.
- Write about the topic using a pencil or full access to the alphabet.

Risk Taking

- Requires a sense of security and safety in the classroom.
- Encourage risk-taking by:
 - Demonstrating repeatedly that you will accept approximations.
 - Modeling the thinking and other behaviors you want to see.

Comprehensive Instruction

- Instruction that addresses each of the elements that is required for a student to learn a domain, each day.

Significant Time Allocation

- 90–120 minutes devoted to instruction in reading, writing, language, and communication.
- 60 minutes devoted to mathematics, science, social studies.

High Expectations

"It is not our job to make students do anything. It is our job to make them want to."
(Erickson & Koppenhaver, 2020, pg. 21)

5E Model Professional Development in Science Education for Special Educators

Purpose is to provide science professional development to special educators, so they design effective, universally-designed, inquiry-based instruction aligned to DLM science Essential Elements and so students learn science.

The General Education Curriculum- Not an Alternate Curriculum!

The General Education Curriculum—Not an Alternate Curriculum!

Ricki Sabia, Martha L. Thurlow, and Sheryl S. Lazarus

Students with significant cognitive disabilities are to be provided access to and make progress in the grade-level general education curriculum. It should not be an alternate curriculum. Determining whether this is happening can be difficult.

The purpose of this Brief is to help parents determine whether their child with significant cognitive disabilities is provided meaningful access to the general education curriculum. It addresses the myth that students with the most significant cognitive disabilities who take the state's alternate assessment based on alternate academic achievement standards (AA-AAAS) need an alternate curriculum. This myth is often the basis for

inappropriately educating these students in separate settings. See [Taking the Alternate Assessment Does NOT Mean Education in a Separate Setting!](#) (TIES Center Brief #2).

This Brief highlights information that you need to know as you participate in discussions about instruction for your child with significant cognitive disabilities. During Individualized Education Program (IEP) team meetings, parents should make sure that instruction for their child is based on the general education curriculum, not an alternate curriculum. They should also make sure that IEP goals support access to and progress in the general education curriculum. IEP goals are not the

Resource for Standards Based Academic Instruction

Providing Meaningful General Education Curriculum

Access to Students with Significant Cognitive Disabilities

Ricki Sabia, Jessica Bowman, Martha L. Thurlow, and Sheryl S. Lazarus

The Individuals with Disabilities Education Act (IDEA) requires all students with disabilities to be provided access to the general education curriculum. The goal of special education services is to enable students with disabilities to make progress in the same grade level curriculum as their peers. What does this mean for students with the most significant cognitive disabilities who participate in the state's alternate assessment based on alternate academic

achievement standards (AA-AAAS) or who may take the AA-AAAS when they reach third grade?

Many states and districts have erroneously concluded that students with the most significant cognitive disabilities need a different curriculum to successfully learn academics. This conclusion might have been reached because of the use of the term "alternate" to describe the achievement standards on which
