This publication has been prepared by the School Finance Team of the Kansas State Department of Education to provide selected data related to the average salaries for classroom teachers for each of the unified school districts in Kansas. You may download the report in Excel format and sort as desired.

This data is compiled from the annual Superintendent's Organization Report, which is submitted by each the unified school district in October. There is a wide range in teaching experience & college hours of personnel as well as budget per pupil, which may account for disparities in salaries between school districts.

Please visit the [School Finance Reports Warehouse](#) on Kansas Department of Education's [Data Central](#) for more information.
