The School Finance Section of the Kansas State Department of Education has compiled selected data regarding student transportation.

This report contains information on the number of pupils transported, drivers, accidents, district-operated routes and miles and contracted routes and miles for regular routes as well as the miles traveled and costs for all route types.

The report is compiled to assist school boards, school administrators, and others interested in the transportation data of unified school districts.

Glossary

Non-Resident	Any pupils transported that live out-of-district.

Pupils Transported

The table below provides a history of the total number of pupils transported by public school districts for regular routes. We measure the number of miles by taking the normal route from the pupil's home address to their attendance building.
